
A man who was never satisfied . . .

O. J. DUFFIN.

Almost half a century ago, the Baltimore and Ohio Railroad hired a 16-year-old Negro boy as a dishwasher. The name of O. J. Duffin went on the payroll without comment. "Just another dining car dishwasher," so they thought, if they thought at all.

But, O. J. Duffin had no intention of remaining a dishwasher, altho he served in that capacity for three years. Nor was he satisfied as third cook under such famous chefs as William Daniels and Tobe Taylor. Here was a man with an idea and the determination to make it work.

A Master Contribution to the Culinary Art

It took Mr. Duffin 25 years to become Chef for The Atlantic Coast Line and one year more to become Traveling Chef of that Railroad. O. J. Duffin has had the distinction of serving Presidents of the United States, Queen Marie of Roumania, Lord Beatty, Marshal Foch and the Duke of Windsor. And still he was not satisfied.

The idea for which O. J. Duffin has fought all his life is that of raising the standard of the preparation of food, particularly on trains. To this end he has given deep study to nutrition, sanitation and every phase of dietetics . . . Never satisfied with things as they are . . . constantly striving for perfection.

His latest achievement is the formation of a culinary organization with the purpose of enlisting every dining car and hotel as members, this to be conducted with scholarship graduates from the School of Commercial Dietetics at Tuskegee Institute. In this way he proposes to fit his people for the finest opportunities and provide better service than ever before.

"KEEP SAVING USED FATS!"
... It's a Habit That Pays"

"My conscience wouldn't let me throw out even a drop of used fats when I know they're still needed so badly. Why, today's shortage of fats and oils is still very serious, our government says.

"I really get a kick out of seeing how much extra fat I can save . . . by melting down trimmings, skimming gravies, and scraping pans. I re-use it, certainly. But there's always something left to make saving worth while!

"Have you ever stopped to think that used fats are the only kitchen waste that can be turned into cash? That's a good point to remember in these days of higher food costs."
