Experts Suggests Uses for Sausage

With the cost of meats so exorbitantly high "housewives should find more uses for sausages and sausage products," says Leroy Crayton, president of the Crayton Southern Sausage Company.

Mrs. Frieda D. Knapp, well known magazine food editor publisher of the book, "Date With a Dish," was conferred with by the company, divising 60 them several tempting recipes that may be prepared with sausages and sausage meat.

The Crayton Company "finds no reason for the slump in the consumption of pork products in the summer now that refrigeration is so widely used. In the mid-west, the bigger increase in sales for the company came in August.

In November, the Crayton Company will plug the use of sausage as a dressing for turkey, Mr. Crayton announced.

Since its opening in February at 706 Etting St., the company has been prospering, and now its products are sold in over 600 stores in Maryland and the vicinity. avdt.

Announcing!!!
A NEW ORIENTAL SPICE THAT MAKES CRAYTON'S SAUSAGE MORE tasty THAN EVER

So important is this new seasoning agent, which is actually not new at all but an Oriental spice lately re-discovered and improved by modern scientists, that the Wall Street Journal predicts it may soon become as commonplace — and as necessary — as salt and pepper.

All the fine, high-grade pork meats and spices that go in the making of Crayton's Southern Style Sausage now have their flavors highly intensified by this new seasoning agent which is especially designed to bring out the best in food flavors.

Of course, this new spice is expensive! But, not to you, the consumer. Crayton's Southern Style Sausage still comes to you at the SAME price. For a real taste thrill in pure sausage enjoyment Demand CRAYTON'S SAUSAGE at all grocery and meat markets.

THE BEST PORK SAUSAGE THERE IS
