JOBS BILL APPLICATION BALTIMORE CITY

In 1980, the City received a special additional grant of $6,938,000 from the federal government to fund community development activities under the Jobs Bill. Recently, the City amended its Jobs Bill application to include new activities because of its decision not to proceed with the School 71 housing project in Irvington and to adjust the budget to reflect more accurate cost estimates of other activities.

The amended application is available for public review at our office at 222 E. Saratoga Street (Room 510) and at the Enoch Pratt Library, 400 Cathedral Street.

The successful bidder will be required to give a Performance and Payment Bond in the amounts called for in the specifications.

CASH WILL NOT BE ACCEPTED.

The Board of Estimates reserves the right to reject any and all bids and/or to waive technical defects as it may deem best for the interests of the City.

Bids, when filed, shall be irrevocable.

Attention of bidders is called to the fact that not less than the minimum salaries and wages as set forth in the Contract Documents must be paid on this project and that the Contractor must insure that the employees and applicants for employment are not discriminated against because of their race, creed, color, national origin, sex or religion.

Under the Baltimore City Minority Business Enterprise Program the successful bidder must comply with the goal requirements to subcontract 15 to 25 percent of the total contract to Minority Businesses.

All contractors and subcontractors desiring to bid on or subcontract for work for this Contract under the jurisdiction of the City of Baltimore and whose bid or contract will be $25,000 or more will be required to be prequalified for the work categories involved. Every bidder is encouraged to bid voluntary alternate(s). Any cost saving proposal that, in the opinion of the Trustees, does not materially alter the project may be proposed by any bidder. Each voluntary alternate will be evaluated by the Trustees with the Board of Estimates having the final authority to accept or reject each voluntary alternate. The bidder understands that the method of bidding reflecting the savings from acceptable voluntary alternate is for the purpose of arriving at the lowest cost for this particular project and, therefore, the bidder (to the maximum extent permitted by law) waives any right it might have to contest the award of the Contract due to the method of bidding acceptable alternates.
