Rules and Regulations

PURPOSE

The purpose of this campaign is to help create a clean living environment throughout the summer.

EXPLANATION

A block is a row of houses between two cross streets. For the purpose of this campaign, a block includes the houses on both sides of the street.

There must be three or more houses before there is a block.

A clean block is one which steps and sidewalks are washed once a day and the streets are kept free from trash.

Windows should be kept clean and curtains hung neatly.

Garbage and trash cans should be removed as soon as they are emptied.

Porches and window-boxes should have flowers or plants.

No one should sit at the front window or on the front steps, unless his clothing is neat and clean.

A beautiful block must have flowers in it and must be clean, in the back and front.

Do not whitewash trees or curbs; only the backyards and fences may be whitewashed.

JUDGES

Judges, appointed by the director, will choose the winning blocks in the following ways:

1. The appearance of the block at the time of inspection.
2. How the block has improved since the beginning of the campaign.
3. The beauty of the flowers.

Judges may make as many inspections as they see fit. The director's decision will be final in all cases.

BLOCK ORGANIZATION

The captain must get as many members of the block as possible to sign up and send their names immediately to the AFRO AMERICAN Newspapers.

He or she must call a meeting of all adults and children and elect a president who will act as an advisor.

Each block must elect a secretary, who will record what is done at each meeting and send written reports to the AFRO.

Each block must elect a block inspector, who will see that no trash accumulates anywhere in the block.

Each block must elect a marshall, who will call out the cleanup brigade at a definite time each day.

MEETINGS

The captain or advisor must attend the weekly meetings. You must be sure to sign the attendance sheet.

At least three other members from the block should attend weekly meetings.

Painting the exterior of your home

By Elizabeth Roberts
Extension Agent
Charles County

On the exterior start painting at a high point of the house - at a corner or under the eave. Paint from top to bottom. Complete one wall before starting another.

Apply paint to an unpainted are and work into the wet edge of the previously painted portion. Use long, sweeping arm strokes, keeping an even pressure on the brush or roller. Apply both sides of each brushfull. End each stroke with a light, lifting motion. When you finish an area, go over it with light, quick strokes to smooth any minor marks and to recoat any unnoticed thin spots.

On windows, paint the wood dividing the glass first. Then paint the frame, trim, sill and apron.

Shutters and storm sash are easier to paint if removed from the house and laid flat on supports. Clean off dust and dirt before painting them. Shrubbery might need to be covered with drop cloths.

Some people prefer to paint the windows after the walls have been completed. Some people prefer the opposite. In any event, be sure whichever is painted first is completely dry before painting the other.

Windows are easier to paint and to clean afterward if the glass is masked.

One simple way to protect the glass is to cover it with a piece of wet newspaper. The moisture will naste it to the glass and also prevent paint from soaking into the absorbent paper. When you strip the paper from the glass after painting, the paint will come with it. Another method is to wipe a light layer of petroleum jelly such as Vaseline around the edges of the glass with your finger. After the paint has dried, the jelly and paint can be cleaned away with any ordinary glass cleaning compounds or formulations. Both masking tape and liquid masking are available at hardware and paint stores.

Masking tape is applied around all edges of the glass, bordering all wood areas to be painted. When the paint is dry to the touch, remove the masking tape. Waiting too long may result in dried paint cracking upon removal of the tape, causing damage to the new paint job.

If so desired, no masking tape need be applied. However, paint smeared on the glass may be removed with a single-edged razor blade or other suitable scraper. After the paint is set but before it hardens, cut through the paint where the glass meets the wood. Then starting at one corner, carefully scrape up a section large enough to grasp with your fingers, and continue to carefully lift it away from the glass. Other drips or splatters of paint inadvertently applied to the glass may be easily scraped off at the same time.

As noted earlier, flush doors can be painted with a roller. On paneled doors, some parts can be painted with a roller, others will require a brush.

IN MEMORIAM

EASLEY — In memory of our dear loved one, **JUANEZ EASLEY,** who passed away June 24, 1987:
Sad and sudden was the call
Of one so dearly loved by all.
A bitter grief, and shock severe,
It was to part with one so dear.
We often sit and think of you,
And speak of how you died.
To think you could not say good-bye
Before you closed your eyes.
For all of us you did your best
Oh, God, grant you eternal rest.
