AVC Clubhouse Faces Crisis

WASHINGTON

Boasting the title of "The Home of Democracy in the Nation's Capital," the American Veterans' Committee clubhouse, 1751 New Hampshire Ave., N.W. is facing a financial crisis.

Although, there are 1,000 AVC members in the Greater Washington area, the interracial clubhouse faces an annual deficit of $6,000 and there is a question as to how long the club can hang on.

A Good Thing, But

Even though many citizens, white and colored, admit that the AVC clubhouse is a good thing, very few persons interested in bettering race relations are willing to support it.

The clubhouse, which was purchased by a group of World War II veterans during 1948 for about $30,000, has survived a number of economic crises.

However, Andy Rice, president of the clubhouse corporation, wonders how many more can the organization ride.

Many downtown agencies with interracial staffs use its facilities for interracial banquets or parties.

Used by Students

A number of student groups hold their annual conventions there, and it has been used as a haven for high school students visiting Washington from the embarrassment of downtown hotels' jim crow.

The big problem in maintaining the clubhouse seems to stem from the fact that none of the money received from an AVC member's dues goes into the club treasury.

The club is supported by 300 non-AVC'ers, who pay $10 annually for clubhouse privileges, while the AVC member pays $5 for his annual dues and is accorded full privileges.

Last year, the clubhouse, which has Dr. Grant Lucas of the board, gained national recognition as it won the Lane Bryant Annual Award for community service.

45,000 National Members

AVC nationally has about 45,000 members. During 1946 and '47, this figure exceeded 100,000. However, a terrific internal fight involving the weeding out the Communists in its ranks just about wrecked the organization.

Today, AVC boasts of a clean bill of health. Crusade for Democracy is still a fighting liberal organization.

Revise Program—Lawson Tells 'Y' Conference

WASHINGTON

The YMCA will not survive in a democracy unless there is democracy in the YMCA, Belford V. Lawson, a Washington attorney, told the annual fall planning conference of the Twelfth Street YMCA last Saturday.

Speaking to 55 delegates at the annual conference, held at Storer College, Harper Ferry, W. Va., last Saturday and Sunday, Mr. Lawson challenged the group to revise its program.

Perpetuating Board Hit

He hit at the policy of the board of management which perpetuates itself in office, discouraging the integration of young men on the board.

He suggested that members of the uptown branch break bread with members of the Central YMCA to discuss many of the unchristian-like practices prevalent in the organization.

Mr. Lawson spoke at Saturday afternoon's opening session.

City-Wide Drive

During the evening session, Ralph W. Foster, assistant executive secretary of Central branch of the YMCA, told of plans for a city-wide campaign in connection with Y's centennial celebration.

The Saturday sessions closed with a giant bonfire.

On Sunday there was a worship service with Alfred H. Neal presiding. Dr. Frank T. Wilson, dean of the Howard University School of Religion, was the principal speaker.

The conference closed with a dinner session at which Dr. William T. Grady, chairman of the committee of management, summarized the workshop reports.

Gov. Names Dr. Jenkins

On Southern Regional Education Board

Governor McKeldin on Friday confirmed the appointment of Dr. Martin D. Jenkins, president of Morgan State College, as one of four Maryland representatives on the Board of Control for Southern Regional Education.

Appointment is for a four-year term ending June 30, 1955.

Present State representatives on the board are the Governor, President Harry Byrd of the University of Maryland and Dr. Thomas G. Pullen State superintendent of schools.

Thoughtful Consideration

Dr. Jenkins, in accepting the appointment of the Governor, wrote him the following communication:

Dear Governor McKeldin: I have given thoughtful consideration to your kind offer to appoint me as one of the representatives of our State on the Board of Control for Southern Regional Education.

Despite a number of personal reservations I will accept this appointment if in your judgment I can make a contribution to the deliberations of the board.

As an educator I am firmly convinced that the principle underlying regional education is a sound one.

It makes good sense for adjacent States to co-operate in providing opportunities for graduate and professional education for its citizens in those fields where the support of a first-class program would be burdensome upon a single State.

Opposes Certain Phases

I have however in common with almost all colored citizens of the country vigorously opposed those phases of the Southern Regional Education program which tend to extend and crystallize racial segregation in graduate and professional education.

As a member of the Board of Control, I would expect to exercise full freedom in attempting to secure for colored citizens the same educational opportunities in graduate and professional curricula which are available to other citizens in the States concerned.

I want you to know how deeply I appreciate both your honoring me with the offer of this appointment and your thoughtfulness in permitting me to exercise my own judgment in accepting it.

If at any time you feel that I have served my usefulness in this connection, I will willingly tender my resignation without delay.
