THE POLITICAL SCENE

Viewpoint Democratic

By LLOYAL RANDOLPH
THE REPUBLICANS are at it again. Federal Judge Roszel C. Thomsen ruled on Tuesday that Sandy Point State Park and municipal swimming places may continue to operate on a segregated basis.

This makes five times Governor McKeldin has been sued on civil rights in the last four years. Actually there are no segregation laws in the State of Maryland.

All of this is 'practice and policy' and not statute law. The Governor can abolish segregation by executive order.

—o o o—

COLORED REPUBLICANS constitute some 48 per cent of the total vote in that party in this state. The Governor talks about civil rights, but is actually a "do nothing." Apparently he feels this group is meaningless this November 2.

Intergration in the Armed Forces was started in the Democratic administration and is almost completed.

The end of segregation in the District of Columbia was started during the Truman Administration; today it is a fact. Eisenhower has tried to fool us into thinking he caused the end of segregation in Washington.

JUDGE THOMSEN claims the recent Supreme Court opinions were limited to education. That the regulations "governing segregation" are reasonable.

I would say that segregation itself is unreasonable. Judge Thomsen is a Republican appointee, endorsed by Senators John Marshall Butler and J. Glenn Beall as well as by Governor McKeldin.

The Republican Party has colored ward executives, committeemen and two top office appointees in the names of Harry Cole, assistant Attorney General, and Police Magistrate E. Everett Lane.

—o o o—

THIS IS WHAT you get for contributing 48 per cent of the total Republican vote to that party. I don't think that the colored Republican voter will buy this another four years.

The voters will repudiate McKeldin at the polls and elect a Democratic Governor who has the power and conviction to carry out his expressed ideals. This present governor only talks about it.

The convention was a success. Getting Baltimore County's political strong man, Michael J. Birmingham, as convention chairman was the first real show of FOR Mahoney are getting strength of harmony.

—o o o—

THE 160,000 persons who voted for Mahoney are getting tired of his wrangling, they want a winner. They want a nominee, they want to get on with the work of electing a Democratic governor. They will support Byrd.

Dr. H. C. Byrd is giving Mahoney a real show in letting him go on and on with the court cases, and refusing to be nominated before Mahoney is ready to concede. We need a 'big man' like that for Governor. He is strong vote getter.

Register and vote, it is your ticket to freedom. Don't lose it. Don't abuse it.

Another Democratic Viewpoint

By ROBERT B. WATTS
The Democratic State Convention was held on Monday of this week. Lloyal Randolph and William (Bill) Dixon were very prominently present.

Both of these men, you know, were elected to the convention as delegates and we Democrats should be proud of the fact that we were well represented, for these two men are known throughout the State and are four most distinguished Democrats.

Also present were Joseph Neal, the labor leader and Truly Hatchett.

JOE, AS most everyone knows, is very well known in Democratic circles and is noted for his acid criticism of any system that deprives the colored population of its fair share of patronage and participation in Democratic activities.

If there ever comes a time when we Democrats want to blow off our steam of dissatisfaction we call on Joe Neal.

Truly Hatchett was also receiving congratulations from everyone present and was given the best wishes of many.

I HAVE SAID so much about Truly Hatchett that I have been accused of overlooking some other Democrats who will be in the General Election and who certainly deserve great praise.

I have in mind one man in particular, Jerome Robinson, a lawyer who has been in the House of Delegates for many years.

He was elected in 1939. During his tenure he has been an outstanding member of the legislature, voting faverably on issues that are of direct interest to us.

HE IS A MEMBER of the Ways and Means Committee, a very powerful committee, and recently led the fight to obtain additional funds for Morgan, especially with respect to funds for the Armory.

In 1951, he introduced the Jim Crow repeal bill, which abolished segregation on boats, trains, etc. in this state. This Law was passed and he took the floor in favor of it.

He was very active in the fight to have the colored feeble minded children transferred to Rosewood, from Crownsville so that they could get fairer treatment. I was the attorney representing the parents of the youngsters and know of his fight in our behalf.

Mr. Robinson is a member of the Board of Mental Hygiene which also recommended this transfer.

HE IS ALSO a member of the Joint Legislative Committee on Mental Hospitals which for the first time provided professional colored workers in both white and colored hospitals such as nurses, laboratory technicians, etc.

He fought for increased appropriations for the Department of Public Welfare and increased unemployment benefits, all of which directly benefited members of our group.

If re-elected he will no doubt get an important Committee assignment and it is good to have a man who fights our cause as an important committee. To the citizens of the 4th District I recommend him and ask that we fight for the re-election of Jerome Robinson. We need men of his ability and sympathy for our cause.

Republican Viewpoint

By HARRY COLE
While the State Legislature was in session in 1953, there was pending before that body a bill to redistrict the City of Baltimore.

This bill was commonly referred to as the pie-shaped bill. It proposed to cut the city into six parts with the objective of equalizing the city's population and registered vote.

Some of us realized that, while there was a real genuine need for equi-distribution of the registered vote, this bill would gerrymander the city in such a manner, that the need for colored representation could never be realized.

—o o o—

THE PEOPLE WERE so stirred up that a committee went down to the Legislature and **pleaded that cause to the end that the bill might be defeated.**

The bill was defeated and hence no action was taken.

The powers that be have seen that they are in the midst of a new era, in that the colored voter is becoming alert to the point that he is voting to satisfy his own needs.

This is evident by the fact that Jack Pollack's own son was defeated for the Fourth district and in his stead a colored person was nominated to the House of Delegates, Truly Hatchett.

Further evidence is clear when one looks and sees that Pollack, afraid that he will lose his Senator in a fair race, put in another candidate to split the colored vote.

He realizes, if no other does, that when the colored voters elect their own representatives that it will be the beginning of his end.

It helps you.

We should realize that the effect of this new redistricting bill being law would be to place us in a situation so that we could not elect our own for 50 years.

—o o o—

PETITIONS ARE being circulated for us to sign. I don't be duped into believing that this bill helps you.

The situation is clear:

Visualize a circle at dead center; this is where most of the colored voters live. If you then divide the circle into six equal parts, starting from its center, you will have divided the center into six small parts.

Thus, there would be neither in any of the districts to be elected or registered strength effective in electing.

It is for this reason, if no other, that the plan should be resisted.

It is not suggested that no play to redistrict the city is in order. However, any proposal which does not take into account the existing district lines and their political implications is bad.

—o o o—

THIS BILL WOULD throw us into the period when we could hauk opp

nothing because we had nothing to work with.

And plan to redistrict should be carefully thought out and should make some attempt to solve certain problems which exist.

It should not completely disregard the hopes and dreams of a people who have waited so long to see the dawn.

Do not sign these petitions to nullify your present voting strength.
