## Report says haste causes home accidents

Every year the home is the site of accidents causing injury and death to people of all ages. Last year in Maryland counties 264 residents died as a result of accidents in the home.

In an effort to reduce these figures for 1957 the Home Accident Prevention Unit of the Maryland State Department of Health proposes these New Year Resolutions:

Plan your activities so that you get enough rest. Fatigue is a cause of accidents.

Get up early enough and organize your work so that there will be no need to rush. Haste is a cause of accidents.

Try to avoid emotional upsets; settle problems through reasonable discussion. Tension and frustration cause accidents.
