Set stiff new traffic penalties

"The following new stiff penalties for traffic violations were announced this week by Stanley Scheer, chief Traffic Court magistrate:

Beginning Monday, October 29, those convicted of operating motor vehicles under the influence of alcohol in Baltimore City will face jail terms and suspension of their licenses for the maximum of three months by the Traffic Court plus the mandatory suspension of three months by the Commissioner Motor Vehicles, or a total of a minimum of six months.

Those who are found guilty of obtaining licenses by false representation will be sentenced to jail for terms of six months.

In reckless driving cases where it is proved that the driver was drinking, even though not to the extent that he could be charged with operating under the influence of alcohol, licenses will be suspended for a minimum of thirty days in addition to other penalties that may be assessed.

THIRTY DAY suspensions are also in order for those violating the 35 miles per hour speed limit. In such cases, the privilege of appearing in court in lieu of appearing in Court, will be withdrawn.

"If this fails to reduce substantially the prevalence of accidents and traffic violations, we may later require all speed violators to appear in Court despite our inadequate facilities for handling the case load which would result," Magistrate Scheer said.

He added that effective October 29th cases of operating under the influence of alcohol and failure to stop and identify self after an accident will be heard and prosecuted by the State's Attorney's office three days a week, on Mondays, Tuesdays and Fridays, in place of the present two days a week.

MAGISTRATE SCHERER said the new penalties are aimed to curb the rising rate of accidents in the city.

Agreeing to the new penalties he said were all magistrates of the Traffic Court.

Also, Police Commissioner James Hepburn, Chief Inspector Fred Leigh, Lt. Col. Paul Rollins of the Traffic Division and W. Dana Rudy, Deputy Commissioner of Motor Vehicles.

'He died of complications as a result of the blow'

"Even though Miller did not die as a direct result of the blow to the head, he did die of complications as a result of the blow."

James W. Murphy, assistant Stat's attorney, on Wednesday was making his closing statement before Judge E. Paul Mason at the trial of George Baker Jr., 27, 400 block N. Colvin St., accused of murder.

Mr. Baker was charged with causing the death of Edward Miller, 245 N. Exter St., who died at Mercy Hospital on August 5, 16 days after he was hospitalized for a head injury.

"I don't think it was murder in any degree, but I do think it is manslaughter," said Judge Mason in sentencing the defendant to two years in the House of Correction.

An autopsy of the elderly man by the medical examiner's office on August disclosed that death was due to bronchial pneumonia and multiple pulmonary embolism.

The prosecutor argued that these complications were a direct result of a head injury suffered by Mr. Miller when he was knocked down in a tavern in the 200 block Exeter St. on July 20.

Mr. Baker denied from the witness stand that he laid a hand on Mr. Miller that night.

However, three State's witnesses testified they saw the defendant strike Mr. Miller and knock him to the floor. The witnesses were Rocco Mirabile, operator of the tavern where the incident took place, Roscoe Allen, 427 Kirk Ave., and William Scott, 247 N. Exeter.

"When his head hit the floor it sounded like a rotten egg," said Mr. Allen. "And I said somebody ought to get that man to the doctor because he's going to die."

Mr. Allen related that when he protested the defendant struck him with an umbrella.

"I asked him why he hit me with the umbrella and he said he hit me because he didn't want anybody to be interfering in his business," Mr. Allen said.

SGT. FRED Gladstone, Central District, said Mr. Baker was arrested two days after the victim died.

"I asked him if he had any reason to hit Ed Miller," the sergeant said, "and he said he'd never hit him."

Mr. Baker testified that he talked to Mr. Miller when a woman customer, Miss Ruth Patterson, 3440 Chester Ct., complained the man was annoying her.

"Did you strike him?" asked Alvin Solomon, defense attorney.

"No," replied the defendant.

Mr. Baker, who said he sells clams on the street, related that he suffered from a rhuematic heart condition.
