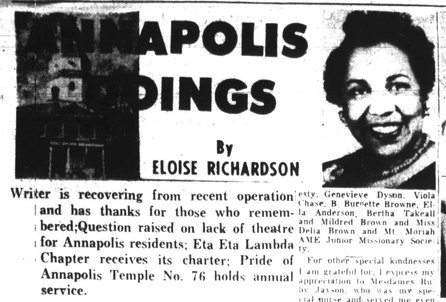
ANNAPOLIS DINGS

By ELOISE RICHARDSON



Writer is recovering from recent operation and has thanks for those who remembered; Question raised on lack of theatre for Annapolis residents; Eta Eta Lambda Chapter receives its charter; Pride of Annapolis Temple No. 76 holds annual service.

Hello Readers:

I am greeting you this week, and also informing you that I have had a very successful surgical experience and am now at home recuperating. This I owe to my Heavenly Father, "Who doeth all things well."

Not only have I had a successful surgery, but I have been made very happy all during my confinement.

Down memory lane I shall always cherish the friendly visits, the beautiful and heavenly plants and cut flowers, the hundreds of cards and other gifts of kindness extended to me.

As I laid in my hospital room I felt as though I was lying in a flower garden. There were so many lovely ones, it was necessary to bring in an extra piece of furniture to be able to place them.

At this time I wish to acknowledge appreciation to the following for these:

Mr. Husband, William H. Richardson, the Annapolis and Anne Arundel County Library staff, a group of mothers of my pre-school story hour (I do not have names—my Godchild Janice Hayes the Infant church nursery, Genevieve Dyson, Viola Chase, B. Burnette Browne, Ella Anderson, Bertha Takrall and Mildred Brown and Miss Delia Brown and Mt. Moriah AME Junior Missionary Society.

For other special kindnesses I am grateful for. I express my appreciation to Mesdames Hilda Jayson, who was my special nurse and served me even when she was not in her line of duty; Mesdames Phelps, Dr. Susie Slewett and Elizabeth Randall and Misses Doris Thomas, Darlene Smith and Diane Kirby, and Mr. William E. Brown.

And please, I do wish I could list the names of all of you who sent me all the beautiful cards and flowers of you who visited my bedside. It is overwhelming and all of you have made me feel I are on your road to recovery.

HOWEVER, I will mention an old hometown friend who flew into Baltimore for a social security conference. He had contacted us for a visit in our home while in the vicinity—but ended up visiting me at the hospital.

Harry L. West, formerly of Indianapolis, is now living in Los Angeles, where he is a vocational counselor with the State Department of Education of California.

He was accompanied to the hospital by Richard A. Crollet, also a vocational counselor with offices at Oakland, Cal.

I was also greeted on my first day home by Dr. and Mrs. Horace L. Small of Detroit, who spent some time with me.

THIS WEEK I am thinking along the practice of medicine and the remarkable progress being made in medical science.

Dr. Arnold Cornish and have lived in medical circles and know what it means to practice and serve the people.

These professional people, whom we are very proud of, are Dr. R. L. Richardson, Dr. Faye Allen, Dr. Theodore Johnson, Dr. Aris T. Allen, Dr. Lionel McHenry Mapp, physician and Dr. Samuel P. Callahan and Dr. Norman Williams, dentists.

All of these people are practicing in our city, the staff of the Anne Arundel General Hospital is very honored in their coming in our city recently years.

Oh my, I speak for I can truthfully say they are all doing a good job at the hospital and it certainly is hoped that these people of Anne Arundel County will let our doctors serve them all.

Facilities at the hospital are at their disposal with experts in all fields of medicine and surgery to serve you.

When something seems out of whack in our hood don't wait go to see our doctor at once. If he advises hospitalization for tests and observation take that advice.

WELL, UP to this point it looks like Annapolis colored citizens are denied an opportunity at all for public entertainment.

Just before Easter, I am told the only theater open to us was closed by the Board of Health. To me this is good from the standpoint of general conditions of the environment.

However, what are we going to do about it? Where will our children go for movie treats? For that is all we have had for them.

The Northwest Street YMCA is doing a fine job as far as it is possible to do, but nothing takes the place of a movie house in the community.

The other theaters here are closed to us, for they are all owned by the same chain and the company refuses to serve us.

What has become of the movement which was fighting in the interest of "Freedom of Public Entertainment here?"

What is our Anne Arundel County Branch of the NAACP doing about this problem? What do we have our branch for? It should not just be a symbol of what the NAACP stands for, but must help to iron out these problems.

It would be well if a group of white and colored citizens would get together and make an investigation for opportunity to interest a northern company in building a theater, bringing first rate pictures here, for all people of our city and county.

Frontiers, here is an idea for you to take the lead in.

Koger lectures Morgan student

"Mr. Gibson, you're much of a loudmouth. When you're a student, you've got to stay in a student's place."

"Some of you Morgan students are too simple minded. You don't act at all like college students."

"You've got to realize that you have to walk easy if you want to protect your record because if I put on this docket what you deserve, you'd never be able to pass any professional examination."

"Your future career would be ruined."

"I'm going to take under consideration the fact that you don't have a record and that you are a student."

"I'm going to give you a bad check, let you go home and write a card."

288% INCREASE in steelworkers' wages and benefits in 18 years

Steelworkers' wages and employment benefits paid for by their employers have increased 288 percent in the last 18 years.

Earnings of the men who make steel are at the top level for all industry.

Also those steelworkers' earnings have increased *faster* than the average workers'.

But shipments of finished steel products per man-hour worked have not increased at any such pace—even with the help of billions of dollars worth of improved equipment and processes installed by the steel companies. In the last 18 years steel shipments per man-hour worked have gone up only 30 percent.

Unfortunately this tremendous and growing gap between shipments and wages is *inflation*.

The big job for everybody is to help close the gap, not widen it. Until that is done nobody can win the fight against inflation.

The American Iron and Steel Institute brings you this message from the steel industry because

Inflation robs us all
