Science Shrinks Piles
New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository or ointment form* called *Preparation H.*® Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

Goldstein talks about taxes to Frontiersmen

The big topic at the Frontiers' meeting Tuesday was taxes, a much publicized and controversial subject throughout the nation.

At the meeting at the Druid Hill Ave. YMCA, Louis Goldstein comptroller of Maryland described the source of most of the state's income and the purpose for which it is used.

Among other things, Mr. Goldstein said that more than $450,000,000 in taxes came into the state's hands during the past year, and of this 55 million came from retail sales tax.

The motor vehicle tax, which he thinks is fairer of all taxes, grossed more than 51 million dollars.

This tax goes to provide for better highways.

The property franchise tax grossed better than 36 million dollars; the liquor, tobacco and horse betting tax brought in 29 million dollars. From federal grants, the state gets 68.4 million dollars.

Mr. Goldstein explained that most of the tax is used for better highways and better schools.

Taxes also go for health and public welfare, state employee salaries and the prison program.

He believes that of all these expenditures, those for education is most important.

"Every child in this state should have the opportunity for equal education with the best teachers and facilities possible," he said.

AT THE hour and a half meeting, the Frontiersmen voted unanimously to change the number of yearly scholarships they award.

Instead of giving four $100 scholarships a year, they will give only one $200 to a student for four years provided he meets the qualifications set by them.

In the event the student fails to meet the yearly qualifications or drops out of school, the scholarship will be awarded to another student for four years.

Thus, only one student will be awarded because three of four students who were previously awarded $100 scholarships did not complete their schooling.

Acorn squash, apples top week economies

By VIGINIA L. McLUCKIE, food economist

There are many signs that point the beginning of the fall season, especially at the produce and fruit counters where there are attractive buys which should appeal to the economy minded shopper, says Virgin ia McLuckie, food economist, Baltimore Office, University of Maryland, Department of Markets.

The season for deep yellow vegetables has arrived. The best buys will be found in sweet potatoes and acorn squash. These yellow vegetables are good sources of vitamin A in the diet as well as flavor appeal.

ACORN SQUASH is one of the summer fall varieties being displayed in the markets. It should be heavy for its size and free from blemishes. Acorn squash rind turns orange if kept too long before it is cooked. The flesh inside is yellow and fibrous.

One small acorn squash usually serves two generously. It is cooked without paring after cutting in halves or quarters and removing the seeds. It can be boiled or baked and served with butter, bacon drippings, sausage, or ground beef.

NEW SWEET potatoes have been on the market for several weeks and are now increasing in volume with excellent quality. When harvest in nearby areas reaches its peak prices are usually low. Include these golden vegetables on your market list this week. At less than five cents per serving these sweet potatoes are a nutritional bargain.

White potatoes are another of the best buys. There are liberal supplies of varieties for general use at economical prices. It is more advantageous to buy in larger size quantities if you have a cool storage area.

A medium size potato has only 100 calories, the same as a medium size orange or apple. It is the sauce and butter you add that increases the calorie intake.

NOW IS the time to have your last fling at the local sweet corn. With the change of season this crop will fast disappear from the produce counters.

Other vegetables on the best - buy list are green peppers and yellow onions. These two are seasonal vegetables that should be held in high esteem.

Early fall apples are the new item at the fruit counter in addition to the good eating and apples provide, they serve as a budget stretcher. Economy minded shoppers will do well to compare them on a cost per pound and cost per serving basis with other fresh fruit.

Jonathan and McIntosh varieties are available and the best-buy is in the four pound bag offerings. Jonathans are all purpose apples, good for eating and holds it shape when cooked. McIntosh is a more mellow apple that "cooks up" quickly. Canned applesauce is an excellent buy.

IN CITRUS California small size oranges are the best buy. California Mountain Bartlett pears are also a recommended buy in fruit. There are three varieties of table grapes available at moderate prices.

When you shop for eggs the best - buys are medium and small size eggs. Grade A eggs are recommended for frying and poaching.

Suggested at the meat counter are fryer chickens, fresh pork shoulders, picnic hams and pork liver.

SQUASH WITH Sausage. It is made with three medium acorn squash, three tablespoons melted butter or margarine, Salt and pepper, six small onions, peeled, twelve link sausages, and dash of paprika.

Cut squash in half, remove seeds. Brush edges and center with one tblsp. melted butter. Sprinkle with salt and pepper. Brush onions with butter. Place on baking sheet or shallow pan; cover with inverted squash halves. Bake in moderate oven (375 degrees) 35 to 40 minutes or until tender.
