MRS. EDWARD MAZIQUE, of Washington, wife of the president of the National Medical Association, and who recently returned from a visit in Russia, will be guest speaker at a luncheon given by the administration of Provident Hospital, in Baltimore on Nov. 7.

And, 'twas too . . . what with its Hawaiian decor, two orchestras (the Mellow Jarks and the Tune Toppers) to provide continual dance music, and the usual Kappa following of lovely ladies to set the pace.

Brothers are mighty pleased with the job Chairman Charles Tilden did on the affair. Mrs. Tilden helped, too, by being an eye - filler in a balloon-skirted green and white print frock, highlighted with green jewelry.

In fact, there was no end to the decorative femmes on the scene. Take Mrs. Maxie, for instance . . . in a beige satin sheath and a mink wrap in an identical shade. Stately Wilhelmina Garner in svelte black, pearls and mink, too, and the elegant white satin sheath designed and executed by herself that was worn by Pat Wood. The brief jacket was lined in blue, and she wore matching satin shoes.

And there was a whole flock of young faces on the scene this year, including the pretty Hughes daughter, Miriam.

Maude Woodland (widow of Dr. Charles Woodland) is in Hamilton, Ohio, this week. Was called there Thursday by the death of her aunt, Mrs. Gussie Anderson, who reared her, and was therefore much like a mother. While she is in the West she will go from Hamilton to St. Louis, Mo., for a brief respite with her cousins, Dr. and Mrs. Jack Miller.

The Richard (Zelma) Browns welcomed their first - a baby girl, at Provident Hospital, Sunday morning. Daughter has been named Linda Maria, and a big girl she is - weighing all of eight pounds. Dad is a teacher of driver education at Dunbar Junior - Senior High School, and Mrs. Brown, until her leave, was on the faculty of Sollers Point High School.

'Twas a pleasant surprise for Blanche Beckham when her sister "Moles" descended upon her last Sunday laden with party trimmings and shower gifts for her infant son.

Moles also to congratulate Blanche were Florence Brown, Bertha Tate, Carolyn Stubbs, Anetha Williams, Louise Lockerman, Mary C. McPherson and Dollie Mallender.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository-ointment form called *Preparation H*®. Ask for individually sealed, convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

CLUB OF THE WEEK

Though young and gay, Epicureans take their civic duty seriously

Editor's Note: This is another in the series of features on Baltimore Clubs. Each club selected will receive an AFRO cash award for its favorite charity. Nominate your club for this award. Tell what your club has done, is doing and its plans for the future. Give names of members. Send to Women's Editor, AFRO-AMERICAN, 638 N. Eutaw St.)

Though young and gay, party - loving and oft - time playful, the Epicureans have a serious side to their club life.

Members, chiefly professional women, who are progressive in their jobs, as well as efficient in the realm of motherhood, have proved, since their organization, that they can work just as hard as the play.

• • •

IN HER annual message to Epicureans in May, National President Phyllis A. Diggs, also a member of the Baltimore chapter, pin - pointed the club's goals.

Said she " . . . Let us resolve to meet the challenge facing us daily: to be good Americans, and to do what we can, together and singly, to help others meet this challenge.

"To do this we must now be more than good colored Americans, functioning in our small spheres. We must now identify ourselves as Americans. In the past history of achievement, we have had to set ourselves apart to show others. Now we must lose identity to gain recognition and acceptance.

"We Epicureans, are a small group, but many small groups, working toward one goal, often succeed where larger groups have failed. The speed with which we are integrated into the life of our nation will depend on the breaking - down of many barriers by many groups — large and small.

• • •

"EACH TIME we plant a seed of doubt of the wisdom of segregation, we will help break a link in the chain of discrimination. Our resolution then, should be to continue doing what we can in our small and several ways to break mere links, thereby destroying the chain of discrimination forever."

• • •

THE EPICUREANS, thereupon, passed a vote by which each member club should do its duty in this area on the larger plane by subscribing to a life membership in NAACP.

However, do not be deceived that all is serious with these young matrons. Their social program is even more elaborate than their civic one.

• • •

When there's no place like home... reach for the phone!

Whatever your reason for wishing you were home, you can usually make the "trip" home in about 30 seconds by phone.

That's true whether you're working late . . . away on a trip . . . or just visiting a friend or neighbor.

The convenience of being able to call home is hard to measure in terms of nickels and dimes—but easy to understand in terms of peace of mind. One big reason why most people find a phone is worth so much more than it costs.
