City hunts vacant houses for massive renovation plan

The Department of Housing and Community Development is looking for 1,000 now-vacant houses, suitable for rehabilitation, to be sold or rented to low and moderate income families.

Housing Commissioner Robert C. Embry Jr., said owners of houses suitable for use in the department's Vacant House Rehabilitation Program should write or telephone if they are interested in selling.

The department is interested only in houses which are now vacant. Presently considered, Mr. Embry said.

To be considered, the house should be in a residential area, should be readily accessible to shopping areas, schools and public transportation and should be structurally capable of rehabilitation.

* * *

The Department of Housing and Community Development expects to renovate 1,400 houses in its Vacant House Program. Fifty houses are already under contract for rehabilitation, and another 300 to 350 are being processed. The department hopes to line up the balance of the houses now.

Arthur G. Christensen, director of the Vacant House Program, said that experience shows many more unsuitable properties will be offered than suitable ones. To date, the department has selected its present inventory from an offering of more than 1,300.

"However, if we are offered a house that meets our basic qualifications, we will inspect it as quickly as possible to see if it suitable for the program," Mr. Christensen said.

The department will need to know the name, address and telephone number of the house's owner or his agent; the name and address of a person who can provide access to the house; the amount of ground rent, if any, and to whom the ground rent is paid.

This information should be provided by writing the Vacant House Program, Department of Housing and Community Development, 10 N. Calvert St., or by calling 539-3840.

Suitable houses will be optioned by the department. HCD will turn these options over to a private developer who will renovate the house in accordance with standards established by HCD. After the rehabilitation, the developer will sell the house to HCD at a pre-agreed price.

HCD will either rent the house or sell it to a home buyer. Sales will be made only to eligible buyers for occupancy by the owner; no absentee landlords will be involved. The houses will qualify for FHA assistance in purchase, which means that low-and moderate-income buyers would have to pay no more than one-fifth of their income toward the purchase price.

A GOOD citizen is registered and prepared to VOTE. Be so TODAY at Supervisors of Elections, People's Court Building, Fayette and Gay Sts.

Godfrey Back For Presoak

NEW YORK — The makers of Axion, a presoak detergent, have agreed to let Arthur Godfrey revise their commercials to inform the public that it is a potential pollutant, it was reported Friday.

He will say that although detergents help pollute the nation's lakes and streams, part of the problem will be solved with new sewage plants that municipalities are planning to build with the aid of federal funds. In the meantime, he will say, Colgate-Palmolive is doing all it can through research to help eliminate the problem."
