$Billion Music

By Maurice (Hot Rod) Hulbert

This column deals primarily with the entire music industry, including radio and television.

FROM THE TRACKS

SOUND TRACK NO. 1: "Every Brother Ain't A Brother," Gary Byrd (Real Thing)

SOUND TRACK NO. 2: "Theme From Medical Center," Lalo Schifrin (MGM)

BUDDY SCOTT of "Real Thing Records" stopped off and tossed two records to me and asked after I had listened, what do you think?

In my opinion, these are two of the best things you have ever come up with, I answered.

One of them is so true to our everyday life. It's called "Every Brother Ain't A Brother," by Gary Byrd. The other record portrays FULL SPEED doing a very soulful "It Must Be Love."

Good luck Buddy, they-might just do it! Both have the ingredients.

KOKIE PALMER brought a LEE VALENTINE Production to me that's ready. I mean ready for good soul listening on any turntable, radio or home turntable. I played it over and over and couldn't get enough of it, especially after Otto Burston YRS Distributors) walked in. Oh, the record? "Pretty, Pretty," The Jones on VMP label.

FCC SAYS NO

The Federal Communications Commission (FCC) turned down a license bid from a Syracuse group seeking a new FM broadcast to serve the black community because it was filed too late.

Progressive People Inc., a non-profit organization, set up two months ago to improve race relations in New York, had petitioned the FCC to waive its rules to allow a late applicant.

An FCC spokesman said two other applicants had filed for the license Nov. 21, 1968 and Feb. 25, 1969, respectively. Both appliications are still pending before the commission.

HENDRIX — PRICE WAR

Two recent Jimi Hendrix single releases are indicative of an emerging price war on 45's in England. Reportedly EMI has released an old single with Hendrix as a back-up musician to Curtis Knight.

It sells for the normal English price of $1.08.

To counteract that release, Mastertrack, a subsidiary of Track Records released a Hendrix single for 72 cents.

In addition to the new low single price, the Mastertrack disk contains three tunes, "Hey Joe," "All Along The Watchtower" and "Voodoo Child."

A spokesman for Track in New York said the label plans to continue the 72 cents price on all future single releases.

BLACK FRONT — CAIRO, ILL.

Black citizens of Cairo, Ill. have demanded that the FCC revoke the license of WKRO, the river town's only radio station, on grounds that the outlet is inciting the community to racial violence.

Under an umbrella organization, the Black United Front, and with the aid of the Office of Communication of the United Church of Christ, the community's blacks (40 per cent of the population) have filed a petition with the FCC to deny renewal of the WKRO license.

The station also is accused of claiming on air that the Front engages in "arson and sniping" without allowing rebuttal from the group. Petitioners also accuse the station of denying news coverage to the black community and failing to consult blacks to determine program needs and of flouting the fair employment practices rule of FCC by refusing to hire blacks. The petition asks for "swift" and "decisive" action in the matter.

Hampton said he wants to SET THE RECORD STRAIGHT, once and for all, on the origin and development of black music. The best time is now, he says, while some of jazz's top personalities, are still on the scene.

Hampton said that he is planning on organizing a long seminar on jazz in which the greatest living authorities on the subject, such as musicians like Louis Armstrong and Duke Ellington, and critics and producers like John Hammond, will retail the evolution of the jazz idiom. He is being aided in this task by historian Lerone Bennet Jr., Dr. King V. Cheek, president of Shaw University; and Dr. Benjamin E. Mays, prexy of the Atlanta Board of Education. Dr. Cheek will officially take over the seat as president of Morgan State College in Baltimore, Maryland, replacing the interim president Dr. Thomas Frazier, starting Feb. 1, 1971.

Last week (Nov. 12) Jim Sears officially became general manager of WEBB radio. Jim gave up his air time which gave Moorman an opportunity to return and try again. Good luck Jim! Moonman you and I are at it again — friendly competitors. We're still brothers and may the best man never completely floor the other — again.

P.O. Box Takes Steps To Stop Smut

WASHINGTON — The U.S. Postal Service spelled out Sunday how Americans can keep smutty ads out of their mailboxes under a new law aimed at curbing what President Nixon has termed "the argest voume of sex-oriented mai in history."

sons have used a 1968 aw what President Nixon has termed "the argest voume of sex-oriented mai in history."

Almost half a million persons have used a 1968 law which enables them to prevent specific objectional material from entering their homes and officials predict millions more will use the new, more general law.

The new law, to take effect Feb. 1, is certain to get a speedy court test. It enables a citizen to give the postal service his name and address on a form stating that he does not wish to receive "sexually oriented" ads from any source. Once his name has been on the list for 30 days, a mailer who sends him such material faces stiff criminal and civil sanctions.

The onus is on the smut-peddler to buy the postal list of all Americans who don't want their ads, at a price not yet determined. For protection, it also will be a criminal offense to purpose.

Southern U. gets atomic study grant

BATON ROUIGE, La. — A four-man team of investigators in the Department of Physics at Southern University has been awarded a $51,481 grant from the Atomic Energy Commission for work on energy levels structure in radioactive nuclei and low-energy particle reactions.

The nuclear physics grant is reportedly the only one of its kind in the deep South with this kind of AEC support.

Dr. Joseph Johnson, chairman of the Department of Physics, said, "We obtained the funding during times when research money is increasingly scarce and the relationship which is now established between the aec and Southern University represents a strong endorsement for contribution to high quality physics at the black university."

Investigators will be Zorawar Sigr, Edgar Lynk, M. A. Tooi, and K. H. Liu, and the initial funding represents the first phase of an expected long-term support by the AEC of nuclear studies at Southern University.
