Mrs. Santa Needs More $$ To Help Needy Families

AFRO'S MRS. SANTA PLEADS

'Only 12 Days Left To Help Me'

There are just twelve more days until Christmas and the AFRO's Mrs. Santa is afraid there will be a lot of unhappy children unless more AFRO readers come to the rescue.

To date, a number of you have sent generous contributions totalling $400, but this is not nearly enough if there is to be Christmas cheer for those who have appealed for help.

Appearing on this page are some of the hundreds of letters sent Mrs. Santa so far.

Each letter has a number. If you desire to adopt a family for Christmas, call 728-8200 and ask for Mrs. Santa. She will give you the name and address.

Caution: Please do not take the name of a family unless you are prepared to provide them with food, toys and/or money. Once you ask for a family's identification that card is lifted from Mrs. Santa's file.

Read the cases on this page and help Mrs. Santa make somebody happy at Christmas:

Black legislators begin session on together note

By CAROLYN IRWIN

Baltimore's 18 newly elected and veteran black Maryland General Assembly members traveled to Annapolis recently for a two day pre-legislative session.

To say the least, many of them came away from the session feeling that they had their "work" cut out for them in terms of overcoming the growing factionalism in the State Legislature.

Both the veterand new black representatives from the City polled by the AFRO felt that "unity" was the key concern of the City delegation if Baltimore is to make any meaningful progress in the upcoming legislative session.

For their impressions on the pre-legislative session, in general, the AFRO queried the following black legislators:

WALTER R. DEAN JR. (Delegate, 5th dist.): "The whole issue facing us (Baltimore delegation) is how we can get together and save Baltimore City. I think we have a new situation in Annapolis that needs serious study.

"My main concern is that Baltimore City pay close attention to what is going on here because the power is shifting to other parts of the State.

"It is ironic that at the same time blacks are beginning to achieve power in the cities, the power is beginning to shift from the cities. And this is something that blacks will have to begin dealing with.

"This is a significant trend developing within the Legislature. On top of the fact that the new Suburban vote may not be looking toward Baltimore City anymore.

The year 1971-72 will be a life and death struggle for the survival of Baltimore City. If is not able to get the legislation, the power, and the money it needs, it will die and the black population will be locked into an urban wasteland."

• • •

Kenneth Webster (delegate, 5th dist): "In reference to the orientation session, I have mixed emotions. It was good for the new legislators to learn the mechanics of parliamentary procedure in terms of how sessions are conducted or how to produce a bill.

"But on the other hand, you also have to be concerned with aligning yourself with other legislators who are sympathetic to your views in terms of getting progressive legislation passed that will benefit the State of Maryland and Baltimore City, in general, and black voters of the State, in particular.

"I view my role at this point primarily as one of trying to achieve such alliances."

MISS HILDAGARDEIS BOSWELL (delegate, 4th dist.): "I felt the orientation session was informative. I learned quite a bit. However, there were some things that I would have liked to have learned which were not covered in the two days. I don't think two days are enough.

"I was very happy that the black legislators got together as a caucus and their first time out proved to be effective. For the first time there is black cohesiveness. We are a new breed of legislators that have been elected and I feel we will make an impact."

ISAIAH DIXON JR. (Delegate, 4th dist.): "I thought the two day session was very inspiring. I see a trend in the legislature toward fairness, not being simply liberal but fair also.

"The black caucus is solid and we expect to play a big part. Our priority concerns lie with the budget, particularly the budget for which the State must supply matching funds. Most of these budgets control poor peoples programs and usually they are the first ones cut.

"As for the role of the black legislators, we are together and we intend to get something out of this thing for our people."

JOSEPH A. CHESTER (Delegate 2nd dist.): "I think it was a very good orientation session. A lot was learned and I think the new black legislators got a lot out of it.

"I think the black caucus will be effective if we stick together. This does not mean that we have to be together on all issues but on those issues that concern blacks we must be together.

"The black caucus will be working to achieve those things that will benefit the City and the State. Two of our main concerns will be reapportionment and State aid to education."

Urban Fellows being recruited

Applications are being sought in the Baltimore area by the National Urban Fellows, a nationwide program designed to meet the shortage of urban administrators and to open top leadership opportunities in government, especially for minority group members.

Persons now applying will be candidates for the third Fellowship year which begins on July 1, 1971 and ends on June 30, 1972.

The Urban Fellows are men and women in their twenties and thirties, mainly from ethnic minorities, who are selected competitively on the basis of their leadership potential.

Twenty-six Fellows were selected for the first year of the program and thirty-four Fellows are now on assignment in cities throughout the nation in the second year of the program. Fellows are paid a stipend approximating their present salaries.

• • •

The Fellowship program combines a 10-month on the job assignment with a mayor, city manager or other urban administrator and a six-week semester in urban studies at Yale.

A Master of Arts in Urban Studies was awarded by Occidental College to first-year Fellows who successfully completed a summer semester at the end of the Fellowship year.

Graduates of the first year of the program are now employed in key positions in city, county and state government.

The 60 men and women awarded Fellowships in the first two years of the program include: 36 Blacks; 1 Japanese-American; 5 Mexican-Americans; 4 native Americans (Aleut, Eskimo, American Indian); 8 Puerto Ricans; and 6 Whites.

The program is sponsored by the National League of Cities, the United States Conference of Mayors and Yale University, under a grant from the Ford Foundation and is directed by Frank Logue of New Haven, Connecticut.

• • •

An applicant must be a citizen of the United States between 24 and 29 and must have a bachelor's degree or equivalent experience employment that has given him a basic understanding of urban problems and the ability to perform research assignments.

Other requirements are that applicants must have been employed for at least two years, preferably in an administrative capacity, and that they have demonstrated exceptional ability, leadership potential and commitment to the solution of urban problems.

Additional information on the program may be obtained by writing to National Urban Fellows, P.O. Box 1475, New Haven, Connecticut 06506.

Reading can replace drugs—Ford

Dr. Nick Aaron Ford, Professor of English at Morgan State College, called upon 300 English Teachers of Prince George's County, Md., at a recent in-service Conference at Rolling Junior High School, to challenge their students with a "moral antidote for drugs" by the effective teaching of exciting literature.

He suggested that good literature properly taught in the schools could give adolescent students thrills even more satisfying than those they seek by the use of drugs.

To support his prescription, he cited a survey had made of testimonies from more than 500 school students selected randomly, representing schools in each of the 50 states, concerning the effects upon them of reading good books.

Authentic.
Athole Brose to you.
Athole is a small town in the craggy mountains near Perth, Scotland.
Brose is the Scottish word for brew.
Athole Brose is a Scotch drink concocted many years ago to warm the festive soul on important occasions such as St. Andrew's Day (Scotland's patron Saint), Christmas and Hogmanay, or New Year's Eve.
1 cup honey (preferably heather honey from Scotland)
1½ to 2 cups heavy sweet cream
2 cups Dewar's "White Label" Scotch Whisky
Heat honey, and when it thins slightly, stir in cream. Heat together, but do not boil. Remove from heat and slowly stir in whisky. Athole Brose may be served hot or chilled. Makes 4 to 6 servings. (If you would like even a little more touch of Scotland, soak 1 cup oatmeal in two cups water overnight. Strain and mix liquid with other ingredients.)
Athole Brose made with Dewar's "White Label" is a warm and sturdy brew. Against the cold of the winter months it will bring good cheer. And as happens with many things at this time of year, its long, authentic history seems to add a little comfort to the holiday season.
DEWAR'S "White Label"
