This Department was created by Chapter 64 of the Acts of the General Assembly, 1939 Session, and combines the functions of budget making and purchasing. Under the law, the Director of the Department prepares a tentative State Budget for the Governor's consideration. Included in the law also are important provisions relating to fiscal control by the Board of Public Works. These controls are concerned with power to reduce budget items if the same are found to be in excess of needs; also approval of lump sum appropriations to State Agencies which must be budgeted in detail. The Board of Public

Works is also authorized to adopt rules and regulations governing the business administration of State Agencies. All leases for the rental of office space must be approved by the Board of Public Works and authority is given that Agency to designate the location of all State Agencies. The budget functions are performed by the Budget Bureau, the head of which is appointed by the Director of the Department. The Director of the Department has the authority to make proper investigations into the necessity for expenditures and is required also to study the operations and functions of various State Agencies. He is further required to study the various sources of revenue of the State.

Included in the Department also is the Purchasing Bureau, the head of which is appointed by the Director of the Department. This Bureau is charged with the purchase of all supplies, materials and equipment for the use of State Agencies.

A warehouse is maintained for the storage of supplies, paid for out of a Revolving Fund of $100,000.00. An accounting system has been developed by means of which, through simple debit and credit entries, funds are transferred from budget appropriations of Using Agencies to reimburse the Revolving Fund. Supplies are withdrawn from the warehouse with a consequent lessening in the amount of clerical labor on the part of the Using Agencies in the payment of invoices.

Monthly meetings are held with the Superintendents of the various State Institutions and other State Agencies, at which time samples are examined and contracts awarded. These monthly meetings furnish a good opportunity for the heads of the various State Agencies to meet and exchange advice with reference to the conduct of their Departments and Institutions.

Every advantage is made of the facilities which the State has for the testing of materials, supplies and equipment, determining those commodities most suitable for use. Advice is also sought of the various scientific Agencies of the State to determine the composition of commodities offered for purchase and, subsequently, to determine the comparison of delivered articles and samples submitted.

The officers of the Division are also made available to the courts of the various county circuits and to the Criminal Court of Baltimore, as Probation Officers, to make investigations and supervise the conduct of persons released on probation.

The Director of Parole and Probation is appointed by the Governor to serve as administrator, for the State of Maryland, of the Inter-State Compact for the reciprocal supervision of parolees and probationers. The Compact places under the jurisdiction of the administrator, during the parole or probation period, any person convicted of an offense within the State of Maryland who may thereafter be placed on probation or released on parole to reside in another state. The Comptroller is elected by the people for a term of four years from the third Monday in January next ensuing his election. The Comptroller appoints all officers in his own office.

The Comptroller is the head of the Division of Financial Review of the Finance Department. He is directed to exercise supervision and direction over the State Auditor, the State Bank Commissioner, the State Insurance Department, the State Tax Commission and the Department of Budget and Procurement.

The Comptroller shall have general superintendence of the fiscal affairs of the State; he shall digest and prepare plans for the improvement and management of the revenue, and for the support of the public credit; prepare and report estimates of the revenue and expenditures of the State; superintend and enforce the prompt collection of all taxes and revenue; adjust and settle, on terms prescribed by law, with delinquent collectors and receivers of taxes and State revenue; preserve all public accounts; decide on the forms of keeping and stating accounts; grant under regulations, prescribed by law, all warrants for money to be paid out of the Treasury, in pursuance of appropriations by law, and countersign all checks drawn by the Treasurer upon any bank or banks, in which the monies of the State may, from time to time, be deposited; prescribe the formalities of the transfer of stock, or other evidence of the State debt, and countersign the same, without which such evidence shall not be valid; he shall make to the General Assembly full reports of all his proceedings, and of the state of the treasury department, within ten days after the commencement of each session; and perform such other duties as shall be prescribed by law.

An Act of the General Assembly of 1929 providing for a change in the Constitution which would permit the Comptroller to appoint deputies with authority to sign warrants and countersign checks was approved at the November 1930 election. This authority makes possible the direct payment of all obligations of the State by the State Treasury Department and gives the central accounting office of the State an opportunity to pass upon all vouchers before payment. It had not been possible to provide for direct payment of all vouchers because of the impossibility of one man, the Comptroller, being able to sign all warrants and checks which would be necessary if this plan were put into effect. A similar provision was approved for the State Treasurer's Office so that the State Treasurer will be authorized to appoint a deputy, or deputies, to sign checks in payment of State obligations.

MARYLAND INCOME TAX LAW

The Maryland Income Tax Law of 1939 was amended by the laws of Maryland of 1941. Chapter 36 of the 1941 law was made retroactive and first applied to income received during the calendar year 1940 and all subsequent calendar years or fiscal years ending

after December 31, 1940. Chapters 223, 382, 792, 906 and 912, which also amended the income tax law apply to the calendar year 1941 and thereafter.

The State Comptroller is required to administer the provisions of the Act. One-fourth of the tax collected from resident individuals is to be paid to political subdivisions of the State and the remainder of the tax collected is to be paid into the treasury of the State.

RESIDENT INDIVIDUALS

A resident is taxable upon his entire net income as defined in the Act of purposes of taxation.

The law defines investment income to include dividends, ground rents, annuity income and interest, except interest earned in the conduct of a business on (1) loans made under the provisions of Article 59A of the Annotated Code of Maryland, (2) business accounts and notes receivable, or (3) installment contracts. Ordinary income includes that portion of gross income which is not investment income.

Personal exemptions are provided under the Status of $1,000.00 in the case of a single person or a married person not living with husband or wife; $2000.00 in the case of the head of a family or a married person living with husband or wife; however, where joint or two separate returns are filed by husband and wife the combined exemption must not exceed $2,000.00; and $400.00 for each dependent person under eighteen years of age or incapable of self-support because mentally or physically defective.

The tax imposed shall be computed at the rate of 5% on the amount of the taxable net income up to but not exceeding the amount of the investment income and at the rate of 2% on the balance, if any, of the taxable net income.

NON-RESIDENT INIVIDUALS

A non-resident is taxable upon income as is derived from tangible property, real or personal, permanently located in this State (whether received directly or from a fiduciary) and income from business, trade, profession or occupation carried on in this State.

The personal exemptions accorded a non-resident are the same as those allowed a resident.

The tax imposed upon a non-resident shall be computed at the rate of 5% on the amount of the taxable net income up to but not exceeding the amount of the investment income and at the rate of 2% on the balance, if any, of the taxable net income.

FIDUCIARIES

The fiduciary is liable for tax only with respect to that portion of the income of the fiduciary estate as is accumulated and not paid, distributed or credited to or for the benefit of a beneficiary thereof.

The respective factors to be used in the computation of tax are that proportion of the investment income, ordinary income and allowable deductions, respectively, of the fiduciary estate for the taxable year as is equivalent to the ratio of the accumulated net income to the total net income of the fiduciary estate for such year.

A fiduciary is allowed a personal exemption of $200.00 to apply to the net income of the fiduciary estate which is accumulated.

The tax imposed shall be computed at the rate of 5% on the amount of the taxable net income up to but not exceeding the amount of the

investment income and at the rate of 2% on the balance, if any, of the table net income.

CORPORATIONS

Every corporation (except those exempted by law) having any income allocable to the State under the provisions of Section 253 of the law is required to file a return. Those exempted by law are (1) national and State banks and trust companies, (2) mutual savings institutions, (3) federal and domestic mutual building and loan associations, (4) insurance companies as defined in Section 101 of Article 81, (5) religious, educational, charitable, social, fraternal and other similar corporations not organized for profit, no part of the net earnings of which inures to the benefit of any private shareholder or individual, (6) farmers' or other mutual hail, cyclone or fire insurance companies or associations, the income of which is used or held for the purpose of paying losses or expenses, and (7) co-operative electric associations organized under Sections 460-492 of Article 23 of the Code.

Affiliated corporations are required to file separate returns.

A tax at the rate of 1½% of the net income allocable to Maryland is imposed on corporations.

The Bank Commissioner under the law has general supervision over all banking institutions in the State (other than National Banks). He is required to visit and examine, either in person or by deputy, each institution at least twice a year, and at such other times as he may deem expedient and at any time upon the request of the directors of the institution. Whenever the capital stock of an institution is reduced by impairment, and such impairment is not made good as prescribed by the law, or whenever it is found that an institution is being conducted in an unsafe manner, the Bank Commissioner may take possession, as provided by law, and retain possession until it resumes business or is finally liquidated.

In case of the failure of any banking institution (other than a National Bank) the Bank Commissioner acts as Receiver and liquidates its assets and winds up its affairs under the jurisdiction of the Court. The Bank Commissioner may substitute the Deputy Bank Commissioner or a Senior Examiner as Receiver of any such Banking Institution.

Every bank and trust company is required to submit to the Bank Commissioner, under oath at least three reports in each calendar year; such reports to exhibit in detail the resources and liabilities of the institution, and show its true condition. These reports are to be published in the local newspapers. All mutual savings institutions are required to report their condition to the Bank Commissioner on June 30th and December 31st of each year.

It is the duty of the Bank Commissioner to examine each report received from the institutions under his supervision, and when necessary, to verify them, at the same time to correct any irregularities that may be disclosed or make any recommendations that may seem advisable.

It is part of the duty of the Bank Commissioner to supervise the formation of new banking institutions; to see that all requirements of the law have been complied with, and to issue his certificate authorizing them to commence business.

It is the further duty of the Bank Commissioner to pass upon all amendments to charters, and all consolidations and voluntary liquidations. On the tenth of February in each year the Bank Commissioner is required to make a report to the Governor, concerning the operations of his office.

The 1929 session of the General Assembly passed what is known as the "Credit Union Law." This law provides that any seven or more persons, residents of this State, may apply to the Bank Commissioner for permission to organize a Credit Union.

The 1935 Session of the General Assembly (Chapter 489) passed a law creating the Banking Board, appointed by the Governor, the members of which are subject to the call of the Bank Commissioner to confer and consult with him in matters concerning the business of banking or banking institutions in the State of Maryland.

STATE TAX COMMISSION

Union Trust Building, Baltimore.

Name.	Term Expires.	Postoffice.
Commissioners:		
William L. Henderson, Chairman	1943	Baltimore
J. De Weese Carter	1947	Denton
Owen W. Hitchins	1945	Cumberland
Secretary:		
Albert W. Ward		Baltimore
Chief Clerk:

The State Tax Commission was created by the Act of 1914, Chapter 841, superseding the State Tax Commissioner, an office which was established in 1878, with functions limited virtually to the assessment of the shares of domestic corporations and national banks, the gross receipts of certain classes of corporations, and distilled spirits. Greatly enlarged jurisdiction and responsibilities were conferred upon the State Tax Commission by the act creating it and by subsequent legislation. In addition to the duties formerly exercised by the State Tax Commissioner, the Commission is empowered to "supervise the administration of the assessment and tax laws of Maryland and of each county or city thereof"; "to enforce and execute a continuing method of assessment and to require that all property in the State be reviewed for assessment at least once in every five years," but not necessarily by reassessment of all property in the same year; to act as an appellate tribunal to which all appeals from assessments of real and personal property made by local assessing bodies must be taken; to assess the rolling

stock of railroad companies; "to participate in any proceeding in any court wherein any assessment or taxation question is involved."

The Commission appoints for each of the counties a Supervisor of Assessments who has the status of chief assessor in the county, with power also to appeal to the Commission from any assessments or rulings made by the County Commissioners. The supervisors are appointed from a list of five nominees submitted by the County Commissioners. They serve during good behavior and are removable by the State Tax Commission "for incompetency or other cause." Their salaries are paid by the respective counties and are graded according to the aggregate value of property assessed in the county. A supervisor is also appointed for Baltimore City with important duties of investigation. The Commission may order the appointment of local assessors to be made by the County Commissioners and may dismiss such assessors for cause, and, in its discretion, may fill any vacancy thus created.

The State Tax Commission has charge of the qualification and/or registration of foreign corporations doing business in Maryland. In addition to determining the amount of the annual franchise tax, which is based on the amount of capital employed by them as of January 1st, Chapter 387 of the Acts of 1939 requires the Commission, beginning with the year 1940, to assess the tangible personal property of foreign corporations and distribute the assessment to the localities in which the property is located. This law transfers the jurisdiction to tax such property from the local taxing authorities to the State Tax Commission. Charters and amendments to charters of domestic corporations are filed with, and recorded and approved by, the Commission. In its jurisdiction over foreign corporations the Commission succeeds the Secretary of State; while in passing on appeals from assessments locally made, and on certificates of incorporation, it exercises functions formerly performed by the courts.

Under the Tax Revision Act of 1929 (Chapter 226) an appeal to the courts lies from the decisions of the Commission in all cases where questions of law are involved.

Under the income tax law, the Commission was given appellate jurisdiction to hear all appeals from the final action of the Comptroller. The determination of the Commission is *prima facie* evidence of the amount of the tax due, but an appeal to the courts lies from the finding of the Commission in the manner now provided for on appeals from said Commission in the exercise of its appellate jurisdiction and the provisions of Section 188 of Article 81 of the Code are made applicable.

The State Tax Commission is composed of three members, appointed by the Governor for terms of six years, one of the terms expiring every two years. One member must be a resident of the Eastern Shore, one a resident of Baltimore City and the other a resident of one of the Western Shore counties. "Not more than two of said Commissioners shall be of the same political party, and each of them shall be a taxpayer and qualified voter of this State."

The State Auditor appoints a Deputy State Auditor, with the approval of the Governor, and Assistant State Auditors to serve at his pleasure. The State Auditor and the Deputy State Auditor are required to hold valid certificates of the State to practice either as Certified Public Accountants or Public Accountants; to have, respectively, at least three years and two years of accounting experience at the dates of their appointments; and to give bond for $10,000.00 and $5,000.00, respectively, for faithful performance of duties. The Assistant State Auditors are required to give bond for $1,000.00 each and to be either (1) Certified Public Accountants of Maryland; or (2) Registered Public Accountants of Maryland; or (3) employes of the State at June 1, 1929, in the capacity of Deputy or Assistant State

Auditors; or (4) (a) graduates of a high school with a four-year course (or the equivalent through commercial experience or otherwise) and (b) graduates of a resident school of accounting with at least a two-year course.

All assistants shown above, with the exception of J. R. E. Turpin, were appointed by the State Auditor. Mr. Turpin is the auditor for oyster packing houses by appointment of the Governor under the law creating his position.

The law requires this office to examine annually the books, accounts and reports of the following: all Clerks of Court, Registers of Wills, Sheriffs, State's Attorneys and Collectors of State Taxes of Maryland, including the City of Baltimore the several Boards of County Commissioners and the several County Treasurers and Collectors, in so far as they affect the collection of State taxes or the assessable bases upon which the State taxes are levied; the Governor's office, the Comptroller of the Treasury, the Attorney General, and the Clerk of the Court of Appeals; such other State officers, departments, boards, commissioners or institutions not herein enumerated as the Comptroller may direct; and all institutions in the State receiving State aid.

The Deputy State Auditor and Assistants report the results of their examinations and findings to the State Auditor and to no one else, except by written authority of the State Auditor. On or before December first of each year (also, at such other times as may be desirable) the State Auditor makes to the Comptroller, in writing, full and detailed reports of the results of his examinations of the books and accounts of the offices, departments, boards, commissions and institutions examined, with suggestions as to changes in the method of keeping the books and accounts, the adoption of uniform systems of accounting, and changes in the forms of reports by said officers to the Comptroller. In addition, it is the duty of the State Auditor to report to the Comptroller all violations of law and orders of the Comptroller in the conduct of and in keeping the books and accounts of the offices and institutions examined by him, and to make such suggestions as to amendments of the laws of the State as he may deem advisable to protect the interests of the State.

State Superintendent of Schools.

The State Superintendent of Schools is appointed by the State Board of Education for a term of four years and is ex-officio secretary and treasurer of the Board. He is the executive officer of the State Board of Education, which, in addition to having general control of the State School System, is charged with the duties of interpreting school laws and acting without expense to the parties concerned in all controversies and disputes involving the proper administration of the public school system. He carries out the policies established by the State Board of Education. He conducts conferences of school officials and teachers, issues teachers' certificates, passes upon proposals for the sale of school sites and buildings, and the plans for the construction of new buildings. He directs the taking of the bi-ennial school census, prepares courses of study and an annual report. He also issues bulletins from time to time on the conditions and needs of the schools.

Either in person, or through his assistants, he has general supervision over the educational conditions in the counties and co-operates

with county school officials in welding together school interests in a State system. He certifies to the Comptroller each year a list of schools entitled to receive State aid, and the amount due each county in part payment by the State of the salaries of superintendents, supervisors and attendance officers; for books and materials; for reduction of taxation; on the basis of children enumerated in the school census, and for days of school attendance; and from the Equalization Fund. He audits the accounts of the county boards of education and sees that their expenditures conform to the law. His approval is necessary in the appointment of county superintendents, supervisors, and attendance officers by the County Board of Education. The State Superintendent is a member ex-officio of the Board of Trustees of the State Teachers' Retirement System.

All communications pertaining to the supervision and administration of the State School System (Baltimore City not included) should be sent to the State Superintendent of Schools, or to him as secretary of the State Board of Education.

Work of the State Department of Education

The twenty-three counties of the State in 1940-41 enrolled nearly 179,000 pupils in 1,145 public elementary and secondary schools in charge of 5,282 teachers. Over 45,000 of these pupils were in the last four years of work of the 184 high schools distributed in the twenty-three counties of the State. In 1939-40 the counties expended on schools approximately $10,753,000 for current expenses, of which $4,582,000 or nearly 43 per cent, was received by the twenty-three counties from the State of Maryland and Federal vocational funds. Baltimore City received $953,000 from State and Federal school funds for the maintenance of schools but because of over-payments in previous years, $492,000 due the Baltimore City retirement system for teachers did not have to be appropriated in 1940.

There were *12,483 graduates from county white elementary schools and 7,043 from county white high schools in 1941. Of the white girl graduates from county high schools in 1940, nearly four per cent entered the Towson, Frostburg, and Salisbury Teachers Colleges. The three teachers colleges for white students had an enrollment in the fall of 1940 of 953 students which included 277 enrolled from Baltimore City at Towson.

Nearly 32 per cent of the white county high school graduates of 1939 continued their education beyond high schools in 1939-40 in colleges, universities, hospitals, commercial schools, and other institutions.

Towson, Frostburg, Salisbury, and Bowie Teachers Colleges offer a four-year course to students preparing to teach in the elementary schools. Through the training of the teachers colleges, which until 1935 were normal schools, it has been possible to fill 98 per cent of the positions in county elementary schools with teachers who have had from two to four years of professional training. The financially poorer counties have been able to finance the higher salaries for these trained teachers through aid from the State Equalization Fund. Any county which could not carry the minimum requirements of the State program on a county school current expense tax rate of 67 cents plus other forms of State aid received the additional amount necessary through the State Equalization Fund from 1923 to 1933. As a result of legislation in 1933, the 67-cent county school current expense tax

* Includes eighth grade promotions in junior high schools.

rate required of counties sharing the Equalization Fund was reduced to 47 cents during the period from 1934 to 1939. In accordance with the legislation of 1939 enacted to take care of the requirements of the new minimum salary schedule for teachers, the county tax rate required for participation in the Equalization Fund has been 51 cents since 1940.

During the school year ending in June, 1941, there was at least one supervising or helping teacher in every county in Maryland. This is the nineteenth year that this satisfactory situation has existed. The State pays two-thirds of the salaries according to the minimum schedule of the county supervising and helping teachers and of county superintendents. The improvement in the results of the tests in reading and arithmetic is one evidence of effective supervision.

The improvement of instruction through supervision is accomplished by organizing the content of the curriculum into definite units of instruction in the various subjects; by setting up specific goals of accomplishment for each grade in the various subjects; by giving standardized tests in the "three R's" to check on the accomplishment of goals and to plan appropriate remedial teaching for deficiencies revealed; by analyzing with teachers the achievements to secure more suitable classification and to provide adequate guidance for individual pupils who vary markedly from the average; by constantly urging the improvement of physical and hygienic conditions in the schools; by stimulating teachers to do the best work of which they are capable through visits to the classroom followed by helpful conferences and through participation in professional group meetings of teachers conducted by the supervisor; by breaking down the isolation of teachers in rural schools and giving adequate educational opportunity to country children; by building up new contact and methods with older experienced teachers who may be inclined to fall into a dull routine; by utilizing the strength of superior teachers for the benefit of the entire group through demonstration lessons; and by helping the public and parents to understand more clearly what the schools are trying to accomplish for their children.

In the fall of 1940 there were 48 county supervising or helping teachers employed for the 2,920 white elementary teachers scattered over the 9,870 square miles in the Maryland counties, an average of 61 teachers for each supervising or helping teacher. Since there are very few non-teaching principals in the Maryland county schools, the counties are helping teachers to improve instruction with a relatively small corps of supervisory officials.

The average current expense cost in 1940 of educating a day school pupil in the schools of the twenty-three counties was $64.81. Graded schools having three or more teachers, with better trained teachers, more equipment and expenditures for transportation, cost less per pupil than rural schools having one or two teachers, chiefly because the classes are larger. Transportation was provided at public expense for nearly 62,000 county pupils at a cost of $1,285,520.

There were nearly 69 per cent of the white county schools, and over 90 per cent of the colored schools in the counties which reported that they had active parent-teacher associations organized in 1940.

The work in Medicine, Pharmacy, Law, Dentistry and Nursing is given in schools in Baltimore. The University Hospital is also located in that city.

History

The history of the present University of Maryland, until they were merged in 1920, is the history of two institutions. These were the old University of Maryland in Baltimore and the Maryland State College (formerly Maryland Agricultural College) in College Park.

The beginning of this history was in 1807, when a charter was granted to the College of Medicine of Maryland. The first class was

graduated in 1810. A permanent home was established in 1814-1815 by the erection of the building at Lombard and Greene Streets in Baltimore, the oldest structure in America devoted to medical teaching. Here was founded one of the first medical libraries (and the first medical school library) in the United States. In 1812 the General Assembly of Maryland authorized the College of Medicine of Maryland to "annex or constitute faculties of divinity, law, and arts and sciences," and by the same act declared that the "colleges or faculties thus united should be constituted an university by the name and under the title of the University of Maryland." By authority of this act, steps were taken in 1813 to establish a "faculty of law," and in 1823 a regular school of instruction in law was opened. Subsequently there were added a college of dentistry, a school of pharmacy, and a school of nursing. No significant change in the organization of the University occurred until 1920, more than one hundred years after the original establishment in 1812.

The Maryland State College was chartered in 1856 under the name of the Maryland Agricultural College, the second agricultural college in the Western Hemisphere. For three years the College was under private management. In 1862 the Congress of the United States passed the Land Grant Act. This act granted each State and Territory that should claim its benefits a proportionate amount of unclaimed Western lands, in place of scrip, the proceeds from the sale of which should apply under certain conditions to the "endowment, support, and maintenance of at least one college where the leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such a manner as the Legislature of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life." This grant was accepted by the General Assembly of Maryland, and the Maryland Agricultural College was named as the beneficiary of the grant. Thus the College became, at least in part, a State institution. In the fall of 1914 control was taken over entirely by the State. In 1916 the General Assembly granted a new charter to the College and made it the Maryland State College.

In 1920, by an act of the State Legislature, the Uiversity of Maryland was merged with the Maryland State College, and the name of the latter was changed to the University of Maryland.

All the property formerly held by the old University of Maryland was turned over to the Board of Trustees of the Maryland State College, and the name was changed to the Board of Regents of the University of Maryland. Under this charter every power is granted necessary to carry on an institution of higher learning and research. It provides that the University shall receive and administer all existing grants from the Federal Government for education and research and all future grants which may come to the State from this source. The University is co-educational in all its branches.

Extension and Research.

Agriculture and Home Economics.

The Extension Service is that branch of the University of Maryland, established by Federal and State law, which is designed to assist the farmer and his family in promoting the prosperity and welfare of agriculture and rural life. Its work is conducted in co-operation with the United States Department of Agriculture.

The Extension Service is represented in each county of the State by a county agent and in all but a few counties by a home demonstration agent. Through these agents and its staff of specialists, the Extension Service comes into intimate contact with rural people and with the problems of the farm and home.

Practically every phase of agriculture and rural home life comes within the scope of the work undertaken by the Extension Service. Farmers are supplied with details of crop and livestock production, and with instructions for controlling disease and insect pests; they are encouraged and aided in organized effort, helped with marketing problems, and in every way possible assisted in improving economic conditions on the farm.

Rural women are likewise assisted in the problems of the home. They are made acquainted with time and labor-saving devices, with simpler and easier methods of work, with new knowledge of foods, with new ideas about home furnishing, with practical methods of home sewing and millinery construction, and with such other information as tends to make rural home life attractive and satisfying.

For rural boys and girls, the Extension Service provides a valuable type of instruction in agriculture and home economics through its 4-H Club work. The instruction is incident to actual demonstrations conducted by the boys and girls themselves. These demonstrations, under supervision of the county and home demonstration agents, are the best possible means of imparting to youthful minds valuable information in crop and livestock production and in the household arts. The 4-H Club work, moreover, affords rural boys and girls a very real opportunity to develop the qualities of self-confidence, perseverance, and leadership.

The Extension Service works in accord with all other branches of the University of Maryland and with all agencies of the United States Department of Agriculture. It co-operates with all farm and community organizations in the State which have as their major object the improvement of agriculture and rural life; and it aids in every way possible in making effective the regulatory work and other measures instituted by the State Board of Agriculture.

General Extension

This phase of the extension service of the University is conducted in co-operation with the United States Bureau of Education and is intended to make the Liberal Arts and branches of the curriculum, other than Agriculture and Home Economics, of greater service to the people of the State.

Agricultural Experiment Station.

The agricultural work of the University naturally comprises three fields: research, instruction, and extension. The Agricultural Experiment Station is the research agency of the University, which has for its purpose the increase of knowledge relating to agriculture, primarily for the direct benefit of the farmer. It is also the real source of agricultural information for use in the classroom and for demonstrations in the field. The Experiment Station work is supported by both State and Federal appropriations.

The objects, purposes, and work of the Experiment Stations as set forth by various Federal Acts are as follows:

"That it shall be the object and duty of said Experiment Stations to conduct original researches or verify experiments on the physiology

of plants and animals; the diseases to which they are severally subject with the remedies for the same; the chemical composition of useful plants at their different stages of growth; the comparative advantages of rotative cropping as pursued under a varying series of crops; the capacity of new plants or trees for acclimation; the analysis of soils and water; the chemical composition of manures, natural or artificial, with experiments designed to test their comparative effects on crops of different kinds; the adaptation and value of grasses and forage plants; the composition and digestibility of the different kinds of food for domestic animals; the scientific and economic questions involved in the production of butter and cheese; and such other researches or experiments bearing directly on the agricultural industry of the United States as may in each case be deemed advisable, having due regard to the varying conditions and needs of the respective States or Territories."

The Purnell Act also permits the appropriation to be used for conducting investigations and making experiments bearing on the manufacture, preparation, use, distribution, and marketing of agricultural products, and for such economic and sociological investigations as have for their purpose the development and improvement of the rural home and rural life.

The Maryland Station, in addition to the work conducted at the University, operates a sub-station farm of fifty acres at Ridgely, Caroline County, and a farm of about sixty acres at Upper Marlboro for tobacco investigations. Experiments in co-operation with farmers are conducted at many different points in the State. These tests consist of studies with soils, fertilizers, crops, orchards, insect and plant disease control, and stock feeding.

The results of the Experiment Station work during the past quarter of a century have developed a science of agriculture to teach, and have laid a broad and substantial foundation for agricultural development. The placing of agricultural demonstrations and extension work on a national basis has been the direct outgrowth of the work of the Experiment Stations.

The students taking courses in agriculture are kept in close touch with the investigations in progress.

MORGAN STATE COLLEGE

History

The College was chartered at the Centenary Biblical Institute on November 27, 1867. In 1869 the first building was occupied at 44 E. Saratoga Street, Baltimore. In 1880 the institution moved to larger quarters at the corner of Fulton and Edmondson Avenues in Baltimore. The late Dr. Lyttleton F. Morgan gave a sum of money to the school in 1890, which enabled the institution to offer training on the college level as a result of which the name of the school was changed to Morgan College. In June, 1917, the College took title to its present site, a tract of land formerly known as the Ivy Mills Property.

The College became part of the educational system of the State of Maryland through an act of the General Assembly, Senate Bill 377, approved May 3, 1939. The Bill provided for a commission of five persons known as the "Commission on a State College for Negroes" whose duty it was (1) to consider the advisability of acquiring the property of Morgan College by the State for educational purposes and (2) to enter into an agreement on behalf of the State with the Board of Trustees of Morgan College for the acquisition of said property, should the Commission decide favorably upon the transfer. The Commission consisted of the following persons: John E. Semmes, H. C. Byrd, B. Howell Griswold, Thomas W. Pangborn and A. W. W. Woodcock.

As a result of negotiations between the Commission and the Board of Trustees of Morgan College, it was agreed that the State should pay to the Board of Trustees the sum of $225,000 for all of its physical property at the Hillen Road site. On the recommendation of the Commission, the Board of Public Works on November 9, 1939, accepted the conditions and on November 20, 1939, the College was officially transferred to the State and its name was changed to "Morgan State College." Later the Board of Public Works appointed a Board of Trustees to have control of Morgan State College until such time as the the General Assembly shall provide for the permanent management of the institution.

Objectives and Organizations

Morgan State College is an institution of higher learning for Negro youth devoting its primary efforts to the training of prospective teachers for the junior and senior high schools and the preparation of students for entrance to professional and graduate scrools. It also offers courses to women as home-makers and prepares students for employment in recreational and leisure-time activities through its departments of music, drama and physical education. Through courses in commerce, training is given to students looking toward careers in business.

In order to perform these functions as thoroughly as possible, the College operates in three divisions, namely:

(1) The College

At the College plant, located on Hillen Road at its intersection with Arlington Avenue, regular liberal arts and teacher-training courses covering a standard four-year curriculum are offered during the regular school year.

(2) The Summer School

For six weeks in the summer, usually beginning on the last Monday in June, the College offers at the Hillen Road site a variety of courses planned to serve primarily the needs of the colored teachers of Baltimore and the counties.

(3) The Afternoon and Evening Classes

Through cooperation with the Baltimore Department of Education, courses are given daily throughout the academic year at the Douglass High School of Baltimore offering in-service training to teachers and an opportunity to others to avail themselves of college instruction.

Administration

The government of the College is vested in a Board of Trustee consisting of nine members appointed by the Board of Public Works. The administration of the College is vested in the President. The other administrative officers act in an advisory capacity to the President. The administrative staff is as follows:

Dwight O. W. Holmes, Ph.D., LL.D., President

WAR RECORDS OF MARYLAND SOLDIERS AND SAILORS

The Maryland War Records Commission having disbanded, all records pertaining to the World War have been deposited in the Department and are now available for reference purposes at all times.

Numerous requests are received for the service records of men who served in the Revolutionary War, the War of 1812, the Mexican War, the Civil War, Spanish-American War and the World War. Every request is complied with, without charge, if the record is available in the Department, and when not available the applicant is advised of the best authentic source to seek the same. Only in respect to the records pertaining to the Revolutionary, War of 1812, and Mexican Wars are our records rather incomplete and the incompleteness is solely due to the methods used in those days of making and preserving records.

MILITIA LAW OF MARYLAND

The National Defense Act required all States to make their military laws conform with the provisions of the Act, in so far as any State law might have been in conflict or might have been deficient as to certain mandatory features of the Act, to entitle any State to participate in the Federal appropriations for arming, equipping and training the National Guard.

Accordingly, Article 65, P. G. L., Md., was repealed and re-enacted by the Legislature at its January (1922) session in which certain provisions of the National Defense Act have been incorporated as the law of the State, thereby conforming to the Act.

It was also found desirable to provide for the functioning of the Ranking Line Officer of the National Guard on active duty pay status and to place this officer in control of the military department of the

State. The authority, prerogatives and duties heretofore held and performed by the Adjutant General have, by the present law, been transferred to the Ranking Line Officer who is responsible only to the Governor, acting for and by his direction in all matters pertaining to the Military Department of the State.

The State's program for the hospitalization of tubercular patients has been practically completed, and is expected to meet the demands of at least a number of years. The facilities are among the finest in the country, and are recognized everywhere as combining economy in operation and excellence in treatment.

Among white people the death rate was reduced from 150.8 per 100,000 in 1917 to 52 in 1940. The colored death rate was reduced from 413.6 in 1917 to 206 in 1940 and now over one-half of the deaths from tuberculosis are among colored people, which represents about one-sixth of our population.

STATE BOARD OF HEALTH

Appointed by the Governor:

Name.	Address	Terms Expire
Maurice C. Pincoffs, M.D.	Baltimore	1947
E. F. Kelly, Phar. D.	Baltimore	1945
F. A. Allner, C. E.	Baltimore	1943
Benjamin C. Perry, M.D.	Bethesda	1945
Thomas S. Cullen, M.D.	Baltimore	1943
George M. Anderson, D.D.S.	Baltimore	1947

Ex-Officio Members:

Robert H. Riley, M.D., Dr.P.H., Director, Baltimore
Huntington Williams, M.D., Dr.P.H., Commissioner of Health of Baltimore City

The State Board of Health consists of eight members, six appointed by the Governor; three, the Director of Health, and the Commissioner of Health of Baltimore City are ex-officio mem-

bers. The State law requires that of the eight members of the Board three shall be physicians, one a civil engineer, one a certified pharmacist and one an experienced doctor of dental surgery, all to be appointed by the Governor, the remaining members to be the Director of Health, and the Commissioner of Health of Baltimore City. The Director of Health, who shall be an experienced physician, skilled in public health and hygiene, holds office as long as he performs his duties in a competent manner. His successor is appointed by the Board. The Governor's appointees serve for a term of six years each.

Dr. Robert H. Riley is Chairman of the Board and Director of Health. He is the Executive Officer of the State Department of Health. He is represented in the field by the Deputy State Health Officers, one in each Sanitary District. Division of the State into ten Sanitary Districts, each consisting of two or three counties, and each in charge of a full-time Deputy State Health Officer, was made in 1914, in accordance with the law enacted that year. Increased functions made it necessary to decrease the territory covered, and the County Health Department Law enacted in 1922 opened the way for full-time departments in individual counties. A third law passed in 1931, changed the number of Sanitary Districts from ten to twenty-three, corresponding to the number of Counties, and gave the necessary sanction for State-wide full-time County health service. Since 1934, there has been full-time health service in every county in the State.

The County Health Officers are designated as Deputy State Health Officers. Through them the Director of Health exercises supervision over all matters affecting public health in the counties of Maryland.

The headquarters of the State Department of Health are at 2411 North Charles Street, Baltimore, Maryland. The building houses the executive offices, the bureaus, divisions, and central laboratories. Branch bacteriological laboratories are maintained at conveniently accessible centers in different parts of the State.

In the Executive Office are four divisions, Legal Administration, Public Health Education, Oral Hygiene, and Personnel and Accounts.

Mr. J. Davis Donovan, LL.B., is Chief of the Division of Legal Administration. His duties include the investigation of all infractions of public health laws and representation of the Department in court in cases of prosecution of violations of such laws. The Division also enforces the provisions of the law relating to the manufacture and sale of bedding and upholstered furniture.

Miss Gertrude B. Knipp, A.B., is Chief of the Division of Public Health Education. Her duties include assembling and distributing information on health promotion and disease prevention; preparing bulletins in popular form for press purposes, with special reference to use in the counties; preparing circulars and arranging reports and other printed matter bearing upon the work of the Department.

Dr. Richard C. Leonard, D.D.S., is chief of the Division of Oral Hygiene. His duties include the organization and supervision of county school dental clinics wherein preschool and school children are examined and either referred to a family dentist, or, in the case of indigent children, given free care. Educational work on the importance and maintenance of mouth health is carried on through lectures, clinics, moving pictures and pamphlets distributed through the Division.

In addition to the Executive Office the Department consists of the following bureaus and divisions, the duties of which are described below:

The Bureau of Vital Statistics registers and makes statistical studies of all births and deaths, marriages, and divorces occurring in Maryland; licenses and registers midwives and regulates the transporation of the dead. It also maintains a service for issuing certified copies of certificates of births and deaths. On registration of births, certificates are sent to parents of all children born in the counties of Maryland and cards certifying to the date of birth are furnished for entrance to school and for work permits.

Arthur W. Hedrich, Sc. D., Chief, Baltimore.

The Bureau of Communicable Diseases receives daily reports from Health Officers of communicable diseases; investigates outbreaks of diseases and directs measures for their control; enforces the laws on the notification of reportable diseases and the smallpox vaccination law: aids in maintaining tuberculosis clinics and keeps a separate and confidential record of all cases of tuberculosis and of venereal diseases; maintains venereal disease clinics, directs medical inspection of public schools and investigates nuisances. The Division of Epidemiology and the Pasteur Division are under this Bureau.

By an Act of Legislature, March, 1937, the Maryland State Department of Health was designated as the agency of the State to administer and supervise the program of services for children who are crippled or who are suffering from conditions which lead to crippling. This service is also under the Bureau of Communicable Diseases.

C. H. Halliday, M.D., Epidemiologist, investigates the occurrence, distribution and type of communicable diseases in individuals and communities in the counties of Maryland, in order that measures for the control of such diseases may be instituted. The Division studies the sources and routes of infection, assists local health authorities or family physicians in the diagnosis of communicable diseases, assists in finding unrecognized or unreported cases and advises in regard to the proper method for the collection of laboratory specimens. The Chief of the Division also assists in diphtheria, typhoid fever and smallpox immunizations when the latter cannot be done by private physicians or by local health officers.

C. W. G. Rohrer, M.D., Ph.D., Diagnostician, aids in the diagnosis of communicable diseases, notably those of the exanthematous group. He acts in an advisory capacity to medical inspectors and other physicians in matters pertaining to the prevention and further spread of such diseases. He is in charge of the Pasteur Division and administers the Pasteur treatment. He also classifies deaths by nature and cause, recording essential data missing from original certificates.

C. H. Halliday, Assistant Director of Health, and Chief of the Bureau of Communicable Diseases, Baltimore.

The Bureau of Bacteriology assists physicians and health officers in the diagnosis and prevention of communicable diseases; assists in the prevention of maternal mortality by the examination of urine specimens from prenatal cases; determines the bacterial quality of drinking water, milk and other foods; examines annually many samples of water and oysters for the protection of the public health and the oyster industry of Maryland; tests the efficiency of operations for the purification of water and disinfection of sewage.

The Central Laboratory is located at 2411 North Charles Street,

Baltimore City, with Branch Laboratories at Cumberland, Hurlock, Frederick, Hagerstown and Rockville.

C. A. Perry, Sc. D., Chief Bacteriologist, Baltimore.

The Bureau of Chemistry determines the sanitary quality of drinking waters, milk and other food substances; determines the legality of drug products and pharmaceutical and medicinal preparations sold to the public; assists in testing the efficiency of operations conducted for the purification of water or for the treatment of sewage; supplies data required in preventing the adulteration or misbranding of foods; conducts investigations from time to time which have for their object the improvement of analytical methods applicable to drugs, foods, waters and sewage.

Wm. F. Reindollar, Sc.D., Chief Chemist, Baltimore.

The Bureau of Sanitary Engineering exercises supervision over the purity of water throughout the State; examines all sewage and water works projects, approves or amends them; through the State Board of Health can require local authorities to install sewerage or water works or to alter the construction or operation of these works; exercises supervision over the disposal of trade wastes, stream pollution in general and aerial pollution. It also prepares plans and specifications and supervises the construction of water and sewerage works at State institutions.

George L. Hall, Chief Engineer, Baltimore.

The Bureau of Foods and Drugs investigates food and drug products manufactured or sold in the State, for the purpose of determining their purity, honesty of labeling, and compliance with the Food and Drug Law. Holds hearings, inspects dairies, canneries, pharmacies, stores, markets, seafood establishments, slaughter-houses, and other places where food and drugs are produced, manufactured or stored. Examines food products and submits specimens of food and drugs to laboratories of the Department for analysis, cooperates with Federal and with other State agencies for the purpose of more effectively controlling the purity of food and drug products. It also enforces the pharmacy laws relating to the conduct of drug stores and the poison and narcotic laws.

A. L. Sullivan, B.S., Chief, Baltimore.

L. M. Kantner, Phar.D. Deputy Food and Drug Commissioner, Baltimore.

The Bureau of Child Hygiene assists health officers and nurses in their child health activities; at the request of the County Health Officer and with the approval of the local physicians organizes prenatal conferences for mothers, health conferences for infants and preschool children in the counties. The Bureau offers to physicians consultations for sick children; assists physicians in securing special services or hospital accommodations for indigent children; makes information on child hygiene available to county organizations, parent-teacher associations and others, through conferences, lectures, pamphlets, bulletins and other publications. It also conducts a course of demonstrations for midwives in the counties.

J. H. Mason Knox, Ph.D., M.D., Dr. Sc., Chief, Baltimore.

The Division of Personnel and Accounts does all departmental accounting of both money and property, and does most of the Departmental printing; purchases all supplies, material and equipment for the bureaus of the Department; directs the distribution of supplies; and exercises general supervision over employees of the Department.

The Chief of the Division is the Recording Secretary of the State Board of Health and of the Executive Committee. He also supervises the financial aspects of full-time county health units and works with county and town officials in the preparation of joint budgets for such projects.

THE DEPARTMENT OF PUBLIC WORKS

THE STATE ROADS COMMISSION OF MARYLAND

Federal Reserve Bank Building, Baltimore

Chairman of the Commission and Director of the Department of Public Works: Ezra B. Whitman.

Members of the Roads Commission: P. Watson Webb, W. Frank Thomas.

Secretary: Lamar H. Steuart.

Chief Auditor: William A. Codd.

*Indicates full-time service.

Special Assistant Attorney General: Edmond H. Johnson.
Chief Engineer: Wilson T. Ballard.

The Commission consists of three members appointed by the Governor for no specific term of office. One shall be appointed from that one of the two leading political parties opposite to the Governor's political party.

The Governor designates a Chairman who shall also be the Director of the Department of Public Works (Chapter 29, 1922).

The State Roads Commission administers all financial and physical transactions applicable to the construction and maintenance of all State roads and bridges on the Road System. (Chapter 539, 1931.) The construction of new roads, and other projects, on the System, is financed from a portion of the proceeds of one and one-half cent (1½¢) gasoline tax, Federal Aid, and with contributions from the counties through bond issues, together with a portion of the one-half cent (½¢) Gasoline Tax, a portion of the two cent (2¢) Gasoline Tax, and a portion of the Commission's participation in revenue from Commissioner of Motor Vehicles. New bridges on the State System of roads, likewise are constructed from proceeds of the Construction funds.

In fourteen of the twenty-three counties of the State, the State Roads Commission of Maryland has been delegated the authority of performing all necessary functions in connection with the maintenance of County Systems of Roads and Bridges. The cost of maintenance of the County Systems of Roads and Bridges is charged to those funds allotted to the Counties from the one and one-half cent (1½¢) Lateral Gasoline Tax, and administered by the Commission for use of the respective counties (Chapter 425, 1933, Chapter 465, 1935, Chapter 341, 1937, and Chapter 766, 1939).

At the session of the General Assembly 1941 the administration of the Lateral Gasoline Tax Fund was changed by Chapter 888. An important modification of the previous law permitted additional counties to maintain and to construct roads under the County System and likewise changed the previous law with respect to use of the Lateral Gasoline Tax Fund by the Counties for the payment of debt service and county obligations, except in connection with those counties which by a previous Act had dedicated a part of the Lateral Tax to service bond obligations. Since the passage of the Bill at the 1941 session the following counties will maintain their own roads, beginning October 1st. Anne Arundel, Baltimore, Carroll, Frederick, Garrett, Harford, Howard, Montgomery, Washington.

At the session of the Legislature 1939 the two most important measures passed affecting the application of road income were

(a) The Act controlling the administration of road funds for the use of the Counties. Under the Act, at least fifty percent. (50%) of the funds allotted to the use of the counties from the one and one-half cent (1½¢) Lateral Gasoline Tax fund must be applied and expended in the construction of new roads as part of the State System. This will insure the construction of additional miles of new roads;

(b) The Budgetary provision with respect to the Diversion of road incomes to other than road purposes. Under the provisions of the Appropriation Bill, large amounts of funds previously applied to purposes other than road construction and maintenance, have been applied to no other purposes than road development, and as a consequence larger amounts than pre-

viously applied, will be available to the Counties, Baltimore City and the State Roads Commission for road construction, betterment, and additions, from the State Funds.

Federal Appropriations to the State Roads Commission for new construction, during 1939 and 1940, will be less than the appropriations made in previous years.

The cost of maintaining all existing roads and bridges on the State System, first, is reserved and deducted from the net income derived from automobile license fees imposed and collected by the Commissioner of Motor Vehicles and remitted to the State Comptroller for the use of this Commission, together with the net revenue derived from the two cent (2¢) gasoline tax set over to the use of this Commission. After deducting the cost of maintenance of the State System from the combined total receipts of the Commissioner of Motor Vehicles and the two cent (2¢) gasoline tax received by this Commission, the remainder of such fund is expended for projects of reconstruction, betterments, and additions to the entire system, or for costs of construction of new projects, including those projects constructed by Federal Aid Funds, fifty percent. (50%) of costs being contributed by the Commission. Funds for Grade Crossing Eliminations are provided by the one-half cent (½¢) gasoline Tax, together with contributions by the Railroad Companies and from special Federal Appropriations.

The Commission in 1934, issued the first of its series of Debentures. The total authorized issue was $4,000,000 (Chapter 463, 1933), and an additional issue of $3,000,000 was authorized at the Session of the General Assembly in 1935 (Chapter 563, 1935). The proceeds of the sales of these bonds were used in conjunction with Federal funds made available to Maryland under the National Industrial Recovery Act—Public Works Administration, and used to construct new roads and bridges on the State System of Highways.

During the fiscal year ended September 30, 1940, the receipts of the Commission, from all sources, were $14,555,354.97, and the expenditures, $13,063,504.33. The details or receipts and the sources from which they were derived:

MARYLAND'S TOLL BRIDGES AND FERRY SYSTEM

Toll Bridges

The development of Maryland's Primary Bridge Program culminated in 1937, after many years of study, planning, and the consideration of a sound, financial plan concerned with construction of bridges crossing the important waterways of the State. The necessity for constructing adequate bridges in Maryland, has a national significance, as well as being vital to the State. Particularly is this true at present, for those bridges included in the original program and now constructed are a necessity to the National Defense.

It is estimated that three-fourths of the population of the United States is so located with respect to the Nation's Capital, that this large number of citizens of the country is compelled to pass through the State of Maryland to reach Washington.

The General Assembly, at its Session of 1937, authorized the State Roads Commission of Maryland to formulate a comprehensive plan for the construction of bridges over rivers and navigable waters, and authorized the issuance of Revenue Bonds of the State, through the State Roads Commission, and the collection of tolls for the payment of such bonds and the interest thereon.

By an Act of Congress, passed in April, 1938, the State of Maryland was authorized to construct, maintain, and operate a bridge across the Susquehanna River, from a point in Cecil County, at or near Perryville, to a point approximately opposite in Harford County, at or near Harve de Grace; and a bridge across the Potomac River, from a point in Charles County, at or near Ludlow's Ferry, to a point approximately opposite, in the State of Virginia, near Dahlgren and Colonial Beach.

In May of 1938, the State Roads Commission engaged the services of Coverdale and Colpitts, Consulting Engineers, New York City, to prepare a traffic survey and report in connection with the determination of prospective revenue from tolls. At the same time, they engaged the services of J. E. Greiner Company, Consulting Engineers, Baltimore, Maryland, to prepare an engineering report and later to perform engineering services in connection with the construction of the two bridges.

In October, 1938, the State Roads Commission petitioned the United States of America, through the Public Works Administration, to allot approximately 45% Federal Funds to assist in the construction of the Susquehanna River Bridge and Potomac River Bridge. The Grant of funds by the United States of America was approved.

In order to provide funds required by the State for construction of the bridges, the State Roads Commission, at October 1, 1938, sold and issued $6,000,000 of State of Maryland Bridge Revenue 3¾% Bonds, Series A, secured by a Trust Indenture given to Safe Deposit and Trust Company of Baltimore, Trustee.

The work of constructing the Susquehanna River Bridge was begun on December 5, 1938, and the bridge was formally opened to traffic and began the collection of tolls on August 28, 1940. The work of constructing the Potomac River Bridge was begun December 27, 1938, and it was completed and opened to traffic and the collection of tolls begun on December 14, 1940.

Because the joint income from the Susquehanna River Bridge tolls and the Potomac River Bridge tolls exceeded the estimated traffic and revenues, the Commission at June 1, 1941, called for redemption $6,000,000 of State of Maryland Bridge Revenue 3¾% Bonds, and issued $6,000,000 State of Maryland Bridge Revenue Refunding Bonds, at a net interest cost of 2.08%.

The initial toll rates established and applying to traffic transactions on the Susquehanna River Bridge, were greatly reduced at February 1, 1941, and special commutation rates were placed in effect so as to benefit the frequent users of the Susquehanna River Bridge.

Susquehanna River Toll Bridge

The Susquehanna River Bridge is an essential part of the modern dual highway, United States Route No. 40, between the City of Baltimore and the Delaware State Line, the dual highway having been

completed for the entire distance in 1941. This bridge consists of a span crossing the west channel 2,169′0″ long, crossing the Garrett Island, 1,509′9″ long, crossing the east channel 1,646′0″ long, and a west approach 1,039′0″, and east approach, 1,248′0″ long making a total length of 7,613′0″ from abutment to abutment. The highway approach on the west abutment is 1,175′0″ long, and the highway approach to the east abutment is 1,573′0″ long, making a total length of the bridge and approaches, 10,361′0″.

The bridge provides a roadway 46′ wide between curbs, and will accomodate four lanes of traffic. The toll plaza and administration building are located at the east approach to the bridge in Cecil County.

The toll traffic is controlled by an electrically operated automatic recording device designed for the speedy and efficient handling of traffic.

The Susquehanna River Bridge received from the American Institute of Steel Construction, Inc., at the May, 1941 meeting of that body, an award of First Place in Class A Structures, this bridge being recognized as the most beautiful steel bridge to be constructed in America during 1940.

The approximate total completion cost for constructing the Susquehanna River Bridge will be $4,535,850, of which sum $2,907,000 was provided from the net sale of Bridge Bonds, and funds made available by the Federal Government to the extent of $2,041,132.

During the period of time the bridge has been opened to traffic and the collection of tolls; that is, from August 28, 1940 to August 28, 1941, a period of twelve months, a total of 3,595,675 vehicles crossed the bridge, resulting in a gross income of $730,621.03.

Potomac River Toll Bridge

The Potomac River Toll Bridge crosses the Potomac River from a point in Charles County, Maryland, near Newburg, to a point opposite in the State of Virginia, near Dahlgren. It forms a link connecting the Maryland and Virginia Systems of Highways between La Plata, Charles County, Maryland, and King George County, Virginia.

This bridge is the only one crossing the Potomac River between the District of Columbia and the mouth of the River at the Chesapeake Bay, and provides access and uninterrupted communication between the two States now separated by the Potomac River. It likewise provides an alternate route for tourists and commercial traveling from Baltimore and the North, to Richmond, Norfolk and the South. It provides easier and cheaper access for marketing produce to the Northern markets. It is a link in the Nation's north-south coastal highway system, with easy grade and straight alignment from New England to Florida.

The Potomac River Bridge is a high-level bridge, the main span of which provides a horizontal clearance of 700′ and a vertical clearance of 135′ over the main ship channel of the Potomac River. The bridge is approximately 9,918′0″ long from abutment to abutment, with a bridge approach in Maryland of approximately 1,527′. The total length from the bridge abutment on the Virginia side, to the end of the Maryland approach, is 11,446′0″.

This bridge is designed for a roadway 24′ wide, to accommodate two lanes of travel, and by reason of its design, there is no necessity for movable span.

Up-to-date toll recording devices have been installed to record the traffic volume and tolls collected.

The administration building and toll plaza are located on the Maryland approach to the bridge.

The total completion cost for constructing the Potomac River Toll Bridge will approximate $5,226,600, of which sum $2,793,000 was provided from the net sale of Bridge Bonds, and funds made available by the Federal Government to the extent of $2,351,970.

During the period of time the bridge has been opened to traffic and the collection of tolls; that is, from December 14, 1940 to August 15, 1941, or a period of eight months, a total of 102,296 vehicular and pedestrian toll transactions have been recorded, resulting in a gross income during the period of $92,275.10.

The initial toll rates, applicable to the Potomac River Toll Bridge, from the date it was opened to travel, are still in force and effect

CHESAPEAKE BAY FERRY SYSTEM

Of equal importance to the State of Maryland, for the movement of traffic over the navigable waters, is the operation of the Chesapeake Bay Ferry System, which provides a rapid means of travel between the western and eastern shores of the State, divided by the Chesapeake Bay.

Realizing the necessity of this means of transportation, the Legislature, at its Session of 1941, authorized the State Roads Commission of Maryland to acquire the Bay Ferry System from the then owners, and to issue Bonds to provide the purchase price. Accordingly, at June 1, 1941, the State Roads Commission sold $1,200,000 State Roads Commission of Maryland Chesapeake Bay Ferry Revenue 1½% Bonds of 1941, and acquired certain properties of the Ferry Company at a cost of $1,020,810.

The routes of the Ferry System are from Annapolis, crossing the Bay, to Matapeake, and from Romancoke, crossing the Eastern Bay, to Claiborne.

The fleet of ferry vessels consists of four boats, and are operated on frequent schedules between the several terminals.

Immediately upon acquiring and operating the Ferry System, the previous rates of tolls applicable to passengers and automobiles were reduced. All passenger fares were reduced approximately 40%, and the rates for transporting automobiles were reduced approximately 21%.

The State Roads Commission began the operation of the System on June 10, 1941.

During the first fifty-two days of operation, or during the period of time, June 10 to July 31, 1941, the total number of all transactions, including passengers, automobiles, trucks and busses, was 109,388, resulting in a gross income of $75,061.58.

The Chesapeake Bay Ferry Revenue Bonds are secured by a Trust Indenture given by the Commission to Baltimore National Bank, Baltimore, Maryland, Trustee.

THE COMMISSIONER OF MOTOR VEHICLES

Guilford Avenue and 21st Street, Baltimore.

(Term Expires May, 1943)

Name.	Postoffice
Commissioner:	
W. Lee Elgin	Hagerstown
Deputy Commissioner:	
D. Marshall Schroeder	Baltimore
Auditor:	
Owen R. E. McGeeney	Baltimore
Registrar of Titles:	
Michael A. Noppinger	Parkville

The Commissioner exercises, subject to review by the Courts, entire jurisdiction over titling, registration and licensing of all motor vehicles owned or operating continuously within the State. He has jurisdiction and, subject to review by the Courts, sole authority in the examination, qualifications and licensing of all persons operating motor vehicles continuously within the State. Reciprocity with other States gives to owners and drivers of cars coming into Maryland a period of grace before they become subject to car registration, car licensing and driver's permit regulations as provided in the Maryland statutes.

All licensing fees, both for titling and registering cars, and registering drivers, as well as all fines for violations of the traffic regulations and motor vehicle statutes, are collected and accounted for by the Commissioner. The judges of the Baltimore City Traffic Court and the police magistrates in the towns and rural sections make return to the Commissioner on all fines collected. No part of the costs of arrests or prosecutions goes to State officers, where these officers make the arrests.

The system of licensing all pleasure vehicles on a horse-power basis, commercial vehicles and trucks on a tonnage basis, and public service lines, both freight and passenger, on ton-mile or passenger-mile basis, which had obtained for years in arriving at licensing charges, was changed by the Legislature in 1922. Under this new system, a gasoline tax became operative in Maryland on January 1st, 1924. This tax is in addition to a reduced horsepower fee and adjustments under the other types of fees.

Administration of the detail of collecting the gasoline tax is vested in the State Comptroller, the Motor Vehicles Commissioner retaining, however, his former duties in the issuance, at a nominal cost, covering cost of tags and clerical work, of the licensing and registration of cars. Their ton-mile and passenger-mile ratings and charges will continue to be computed and collected by the Commissioner.

All fine and fee income collected by the Commissioner, above the costs of administration of his office and field forces, goes into the State Highway Maintenance fund of the State, thus putting back into the highways built by other means by the State what the motorists is assumed to have taken out in depreciation of surface and base.

While trials, with either dismissals or convictions, carrying fines or jail sentences before magistrates furnish a part of the machinery of the enforcement of the motor vehicle statutes, control of all drivers'

permits to operate cars or motorcycles is vested solely in the Commissioner. He not only controls issuance of licenses and can refuse to permit an unfit applicant to operate a car in the State, but in addition he holds the power of suspension for a stated period or the absolute revocation of a driver's permit. This without regard to the action of the Courts in cases tried before them.

Appeal to the Courts from the action of the Commissioner, in suspending, refusing or revoking licenses, is provided in the law, however.

By recent Acts of the Legislature, the following appear as safety measures designed to enable the Commissioner of Motor Vehicles to make the state highways safe and thereby reduce accidents to a minimum, viz: (1) upon inability to satisfy a judgment arising from an automobile accident or collision or certain infractions of the motor vehicle laws, certain evidence of financial responsibility must be produced to the Commissioner before licenses may be restored; (2) shatter-proof glass is required in all motor vehicles manufactured or assembled, sold and registered in this State after July 1, 1935; (3) periodical inspection of vehicles by designated agencies.

State Departments having to do with regulating the operation of motor vehicles are as follows: (1) Commissioner of Motor Vehicles; (2) Public Service Commission; (3) State Roads Commission; (4) Maryland State Police.

Through Chapter 303 of the Acts of 1935 of the Maryland Legislature, the separation of the Motor Vehicle Deputies from the Office of the Commissioner of Motor Vehicles was effected and a new Department was created, known as the Department of Maryland State Police. The direction of the Department is vested in the superintendent, with the rank of Colonel, in the Department. He is appointed by the Governor with the advice and consent of the Senate for four years, from the first day of June following his appointment. He is subject to removal by the Governor for official misconduct or incompetency, and, in the event of removal or resignation, the Governor is given the power to appoint a superintendent to hold office for the remainder of the unexpired term of the superintendent who has resigned or is removed from office.

The qualifications of the superintendent are that he shall be a citizen of the United States and a resident and voter of the State of Maryland. His authority is to establish and maintain classification and grades for police employees in the Department. He shall also maintain

such clerical employees as may be required. He shall designate the authority, responsibility and duties of the various ranks, grades and positions and, with the approval of the State Employment Commissioner, shall set standards and qualifications and fix pre-requisites of training, education and experience. All employees of the Department are in the classified service except the superintendent. After examination under the Merit System and appointment, such appointees, however, must serve a probationary period of one year, during which time they are removable in the discretion of the superintendent and are not within the Merit System.

Six investigators of the Commissioner of Motor Vehicles named in the Act were transferred and rank in the Department as Detective Sergeants. The physician attached to the Commissioner of Motor Vehicles was also transferred. All chefs and civilian employees attached to the motorcycle department were transferred.

The Superintendent is empowered to promote employees to the rank, grade or position in the Department as he may deem necessary for efficient administration, but no person may be promoted to any rank, grade or position unless he shall have filled the grade, rank or position immediately inferior. All promotions up to and including the rank of sergeant are provided to be departmental, and to such promotions the Merit System shall not apply. All promotions above the rank of sergeant must be made in accordance with the provisions of the Merit System on competitive examination. Employees discharged or resigned are not afterwards eligible for re-appointment.

The superintendent is authorized to organize and maintain a training school for employees, which training may be made available to any local unit within the State. He is also authorized to formulate such rules and regulations for the administration of the Department as may seem fit, and to assign, re-assign and transfer employees from one station to another.

The superintendent has power to establish and discontinue headquarters and stations in such localities as he may deem advisable.

The Act provides that the Department shall create and maintain a Bureau of Identification and Statistics.

Provision is also made for the salaries, expenses and maintenance of the Department, to be paid out of the gross income of the Department of Commissioner of Motor Vehicles, exclusive of revenue produced by fines and forfeitures, and exclusive of revenue arising from commercial hiring truck license fees and commercial hiring franchise truck fees.

The Act provides that the duties of the police employees are to prevent and detect crime, to apprehend criminals, to enforce the criminal and motor vehicle laws and to perform such other related duties as may be imposed upon them by the Legislature, which power shall be exercised in any and all parts of the State. With the exception of the enforcement of the motor vehicle laws, police powers shall not apply to Charles and Howard Counties. It is further provided that the State Police shall not act within the limits of any incorporated municipality which maintains a police force, except under the following circumstances:

(1) When in pursuit of an offender or suspected offender;

(2) When in search of an offender or suspected offender wanted for a crime committed outside of the limits of the

municipality, or when interviewing or seeking to interview a witness or a supposed witness to such a crime;

(3) When requested to act by the chief executive officer of the municipality in question or its chief police officer;

(4) When ordered by the Governor to act within the municipality in question.

They are directed to cooperate and exchange information with any other Department or authority with police forces, both within and without the State and with Federal Police forces, toward the end of achieving greater success in preventing and detecting crimes and apprehending criminals.

The superintendent shall annually, within thirty days following the close of the fiscal year of the Department, make a full financial and operative report to the Governor showing the activities of the Department.

The Act went into force and took effect after June 1, 1935.

The Game and Inland Fish Commission is hereby created with the personnel powers and duties of the present Maryland State Game and Inland Fish Commission, as now constituted under Article 99 of the Code. Uhereever in the Code the name Maryland State Game Inland Fish Commission occurs, the name Game and Inland Fish Commission shall be substituted.

This Department of the State acts as an agency for the enforcement of game and fresh water fish laws, and the propagation of game and fresh water fish in captivity, and is supported entirely through receipts from the sale of hunters' and anglers' licenses, which receipts are credited to the State Game Protection Fund. The General Treasury does not appropriate a single penny to the support of this Department.

The original State Game Department was consolidated with the Conservation Commission by Chapter 683, Acts of 1916, when said Commission was created. Prior to 1916 the General Assembly appropriated $2600.00 every two years for the support and maintenance of the State Game Department. With only one salaried officer; namely, the State Game Warden, it was impossible for him, no matter how ambitious he may have been, to make a scratch on the surface in the enforcement of the game and fish laws, and of course no funds were provided for the propagation of game or the restocking of our covers.

The hunters' license system was created by Chapter 468, Acts of 1918, and requires those who enjoy the great outdoors to contribute to a fund for the support of the Department. Until this law was enacted the Department was one in name only due to lack of finances.

Through the hunters' license system, the Department has a salaried staff of law enforcement officers numbering 31 and through the cooperation of an interested public has about 500 non-salaried Deputy Game Wardens.

The anglers' license was created by Chapter 471, Acts of 1929 and through this system the Fresh Water Fisheries Division has been greatly benefited.

The Department has in operation two State-owned game farms; namely, the Gwynnbrook State Game Farm in Baltimore County, and the Wicomico State Game Farm in Wicomico County. At these plants large numbers of bob-white, pheasants, chukor partridges, wild ducks, wild geese and Virginia white tail deer are raised in captivity and liberated annually in the covers of the State.

The Department also operates a propagation plant at the Montgomery County Game Refuge where bob-white and pheasants are raised, and at the Washington County Game Refuge where wild turkeys are raised.

The Department owns 6,546 acres of land with necessary buildings thereon purchased from hunters' license receipts and said areas are used as State Game Refuge and propagation plants; and in addition the Department has under lease 31,357 acres of land which are used as inviolate game sanctuaries.

During the fiscal year of 1940 the Department (acting through the Pittman-Robertson Act, which is a Federal Law, providing that the tax on firearms of 10% shall be set aside in the Federal Treasury in a dedicated fund for the purpose of cooperating with the States in acquiring lands on which to establish wildlife demonstration areas to conserve soil, water, forests and when preventives have been used for preserving these natural resources the effects are beneficial to wildlife. The Federal Government furnished 75%, the State 25% in the purchase of these projects), purchased the Indian Spring Wildlife Demonstration Area located near Indian Spring, Washington County, Maryland, comprising 1265 acres and in cooperation with the Soil Conservation Service are establishing on said area a wildlife demonstration project. Two large signs have been erected on Route 40 calling the public's attention to this area and extending to them a welcome to investigate same.

The Commission in January 1940 appointed an advisory Council in each county of this State. These councils are composed of twelve members not less than five of whom must be landowners, or tenants on farms, five from outdoor groups such as Farm Bureau, Farm Grange, etc, and two at large. A bulletin was prepared on the Conservation of soil, forests and wildlife in the Farm Program and each member of each council provided with same, giving information as to how a program could be carried out with very little expense to the landowners or tenants on farms in conserving the soil thereby prohibiting erosion and also reforesting areas of submarginal land which were unprofitable for cultivation and restore wildlife to said properties.

Chapter 354, Acts of 1939, provided that the Fresh Water Fisheries should be transferred June 1, 1939, from the Conservation Commission of Maryland to the State Game and Inland Fish Commission for supervision. This is the first time in the history of the State that game and fresh water fish have been under the supervision of the Game Department.

The Department now owns and operates an extensive fresh water fish hatchery at Lewistown, Frederick County, Maryland, where trout and black bass are propagated in captivity; also owns and operates a trout nursery at Bear Creek in Garrett County; a black bass nursery at Fairlee Station in Kent County; and in addition operates rearing stations at Cushwa Station, in Washington County and at the Ritchie pools in Frederick County.

The total assets, without liabilities, of the Department as of June 1, 1940, was $154,568.69 and $163,057.35 as of June 1, 1941. These assets have been built up through the hunters' license system, as on June 1, 1916, there was to the credit of the Department $511.00.

The Fresh Water Fish Division has been practically built up since the enactment of legislation in 1929 creating the Anglers' License System, and on June 1, 1940, the total assets, without liabilities, was $76,896.20 and $63,805.03 as of June 1, 1941, or a total figure as of June 1, 1941 of $226,862.38.

At the meeting of the Maryland State Game and Inland Fish Commission held on July 25, 1939, the Honorable Garner W. Denmead was elected Chairman. Mr. Harold Smith Kolmer, who has been Secretary of the State Game Department since February 1, 1919, was elected Secretary.

Prior to 1939 the law provided it to be unlawful to hunt any game of any kind by means of any gun carrying more than three shells at any one loading. The Acts of 1939 eliminated the rifle from said requirements.

The wild waterfowl season is controlled entirely by Federal regulations.

The Chesapeake Biological Laboratory, located on Solomons Island, in the mid-region of the Chesapeake Bay Country, is making marked

progress as an institution for research and study of natural resources indigenous to the State. Emphasis is placed on marine forms. In progress at the Solomons Island institution are investigations into pertinent problems concerning crabs, oysters, fish, and certain of their related forms and enemies. In the management of the laboratory, several colleges and independent institutions are cooperating, to wit: University of Maryland, Johns Hopkins University, Western Maryland College, Washington College, Goucher College, St. John's College, and the Carnegie Institution of Washington.

The following courses are offered during the summer to advanced under-graduates and to graduate students: *Algae, Diatones, Economic Zoology, Protozoology, Ichthyology, Invertebrates, Biological Problems, Conservation, and Biological Survey of the Solomons Island Region.* Class work is limited to eight students in these various subjects relating to local forms. Students are accepted on the basis of interest and scholarship, special consideration being given to those from cooperating institutions and to Maryland high school teachers. Instructional work is planned to the end of effecting a greater interest in the facts and principles of conservation. All research problems are associated with the resources of the State. Original work rather than formal classes is encouraged.

Pollution studies, both field and laboratory, chemical and biological, are in progress in several parts of the State, while intensive work of this type is being done in the Patapsco region, where industrial and other wastes are intense. Fish and diamondback terrapin hatcheries are under the direction of the Laboratory. With the cooperating institutions and independent research workers, who are supplied working space and equipment, the Laboratory is developing an extensive volume of basic knowledge about the biological conditions of the State. This work involves, in addition to stream and river, deep water investigations, trips on the open ocean from whence come many of the State's commercial fishes, and basic work on hydrography. Fishery management, conservation, and educational work constitute the foundational program of the Laboratory.

The Public Service Commission of Maryland was created by Chapter 180 of the Acts of 1910, effective April 5, 1910.

The Governor appoints the three members of the Commission, one of whom he designates as Chairman. The term of office is six years,

and the term of one Commissioner expires every two years. The Governor also appoints the General Counsel to the Commission for a term of six years.

The Commission has jurisdiction over steam and electric railroads, street railways, common carriers generally, including all railroad corporations, express companies, sleeping car companies, steamboat, power boat and ferry companies, toll bridges and also motor vehicles engaged in the public transportation of passengers and freight. The Commission also has jurisdiction over gas companies, electric companies, telephone companies, telegraph companies, water companies and heating and refrigerating companies. The jurisdiction of the Commission is limited to operations within the State of Maryland.

The supervision and jurisdiction of the Commission covers the service furnished, the rates charged, the capitalization, the issue of stocks, bonds, and other securities, the right to exercise franchises granted by the counties and by the cities, the right to fix rates for service and to fix standards for service, and general supervisory and regulatory powers over the utilities subject to its jurisdiction. In the exercise of this supervision and jurisdiction, it is the purpose of the Commission to insure and maintain to the public safe and adequate service, at just and reasonable rates, without unjust discrimination.

The Commission is given power to investigate and ascertain the fair value of the property of corporations subject to its jurisdiction.

An annual report showing the financial conditions and operations of each utility under its jurisdiction is required to be filed with the Commission.

By legislation enacted subsequent to the original Act, the Commission has been given power to fix minimum as well as maximum rates, to suspend schedules of rates pending the determination of the reasonableness of the rates proposed, and utilities are forbidden to abandon or discontinue the exercise of franchises without the permission and approval of the Commission.

The Commission has also been authorized to make joint investigations, hold joint hearings, and issue joint or concurrent orders in conjunction or concurrence with any official board or commission of any State or of the United States, under agreements or compacts between States or under the concurrent powers of States to regulate interstate commerce, or as an agency of the Federal Government, or otherwise, and it is represented on Joint Boards created by the Interstate Commerce Commission under the Federal Motor Carrier Act, 1935, to hear and pass upon applications and other proceedings pertaining to interstate motor carrier operations conducted in or through not over three states.

The Commission is required by law to test all electric meters and gas meters before installation, and to test meters upon request of the consumer.

The Commission maintains a laboratory in which daily tests are made of the gas furnished in the City of Baltimore, and its inspectors also make regular and frequent tests of the gas and electricity furnished in other parts of the State.

The proceedings before the Commission frequently require hearings, and all such hearings are public and are reported by a stenographer, and a permanent record thereof is kept.

In the case of *ex parte* applications of utilities for permission to exercise franchises, to issue securities or otherwise invoking the jurisdiction of the Commission, the applicant is required to advertise, at its

own expense, giving notice of the hearing to be had, so that the public interested may be advised thereof and given the opportunity to be heard with respect thereto.

One of the most important amendments to the original Act is that providing for representation by counsel of the interests of the public in all proceedings before the Commission.

By Chapter 485 of the Acts of 1931 the Commission is given full jurisdiction over taxicabs operating in Baltimore City. One requirement of this law is that all such taxicabs shall carry insurance or give bond to indemnify the public.

People's Counsel

The Act now provides for the appointment by the Governor of an experienced and qualified lawyer as People's Counsel, and it is the duty of this official to represent the interests of complainants and of the public generally in proceedings before the Commission.

THE STATE INDUSTRIAL ACCIDENT COMMISSION

741 Equitable Building, Baltimore

Name	Term Expires	Post Office
Charles E. Moylan, Chairman	1944	Baltimore, Md.
Charles B. Bosley	1943	Towson, Md.
Vivian V. Simpson	1942	Rockville, Md.
Frederic P. Adkins	1941	Salisbury, Md.

Secretary.....Albert E. Brown
Director of Safety.....Joseph A. Haller

The State Industrial Accident Commission created by Chapter 800 of the Acts of the General Assembly of Maryland, 1914, is charged with the duty of administering the Workmen's Compensation Law. The law provides—first, for the payment of compensation to employees injured in certain extra-hazardous employments, and to their dependents in case of death; second, that all employers in such occupations shall secure the payment of such compensation by insuring their liability in a stock or mutual company, or in the State Accident Fund, or by proving to the satisfaction of the Commission their financial ability to pay the compensation.

The work of the Commission involves determining what occupations are covered; receiving and investigating reports of accidents; receiving, investigating and adjudicating claims for compensation arising under the Law. Hearings are held throughout the State in contested cases.

Since the passage of the Workmen's Compensation Law in 1914, amendments to the law have been passed from time to time, by the General Assembly, for the purpose of adapting the law to changing conditions. Some of the more important changes were made in 1931 and 1939, upon the recommendations of committees appointed by the Governor for that purpose, and were concurred in by representatives of employees, employers and insurance carriers.

The Jurisdiction of the State Industrial Accident Commission is continuing. Many petitions for reopening or rehearing, after final

settlement of claims are presented, requiring long record of medical and other testimony, many resulting in appeals. This greatly increases the work and expense of the department from year to year.

The General Assembly of Maryland during the session of 1929, amended the Workmen's Compensation Law, giving the Commission the power to formulate reasonable rules and regulations for the establishment and maintenance of safety, having in mind the prevention of and reduction in accidents in occupations governed by the provisions of the Workmen's Compensation Law. Shortly after the adoption of this amendment, a Safety Department was organized for the purpose of carrying on this work, which department is administered under the supervision of the Chairman.

This amendment gives the Commission, the Director of Safety, the Safety Inspectors or any other person authorized to do so by the Commission, the right to enter places of employment for the purpose of investigating the provisions therein made for the safety of employees. Rules and regulations for the prevention of Accident issued by the Commission have the force and effect of law.

When the General Assembly of Maryland passed the Workmen's Compensation Law in 1914, they recognized the fact that employers might be put in the position where they would not be able to comply with the Law, due to the fact that the private insurance companies would refuse to carry their risk. Furthermore, they felt that inasmuch as this form of insurance was compulsory under the State law, that they should provide a place where the insurance could be secured at practically the cost of writing this form of insurance. They, therefore, created the State Accident Fund, which is administered by the Chairman of the State Industrial Accident Commission. This Fund has grown gradually and has become one of the largest writers in Maryland of Compensation Insurance business in the State, and is in strong financial condition, affording sure and ample protection under the Workmen's Compensation Law of Maryland.

Effective March 1, 1926, the Commission inaugurated a new merit-rating system, the purpose of which is to reward and stimulate the policy-holders of the Fund in their work of accident prevention and to measure the rate more closely to the individual hazard of the policy-holder, preserving to the policy-holder, of course, the basic principles of insurance protection, so that any severe losses will still be distributed. This merit-rating system is working out very satisfactorily, and is offering an incentive to the policy-holder to take a greater interest in accident prevention work in his plant.

The expense of operating the State Industrial Accident Commission is not a burden upon the tax-payers of the State, as the entire expense of the Commission, not including the State Accident Fund, is borne by the private insurance companies which write compensation insurance, self-insurers, and the State Accident Fund; while the cost of operating the State Accident Fund is borne by the policy-holders insuring in the Fund.

Chapter 465 of the Acts of the General Assembly of Maryland, 1939, amended the Law to provide compensation for disability or death, resulting from a listed schedule of occupational diseases. This amendment provides that there shall be a Medical Board consisting of three members who shall be licensed physicians in good professional standing, two of whom shall have had at least five years practice in the diagnosis, treatment and care of industrial diseases, and one of whom shall be especially trained in roentgenology, and who shall have had at least five years practice and experience. They shall be appointed

by the Governor, by and with the advice and consent of the Senate from a list of nominees to be submitted by the Deans of the Medical Departments of the University of Maryland and of the Johns Hopkins University and by the Council of the Medical and Chirurgical Faculty of Maryland, each of these three agencies to submit a list of at least three persons, two of whom shall be especially experienced in occupational diseases, and one of whom shall be an experienced roentgenologist. One of said members shall be designated as Chairman of the Medical Board by the Governor. The term of office of a member of such board shall be six years, except that the first appointments hereunder shall be made as follows: One for two years, one for four years and one for six years. Vacancies shall be filled for the balance of the unexpired terms in the same manner as the original appointments, as herein above provided. A majority of the Medical Board shall constitute a quorum.

The Merit System Law of Maryland (Article 64-A, page 2160, Annotated Code of Maryland—Bagby) creating the State Employment Commissioner was passed in 1920. The basic Law has not been amended in any material manner since its passage. The statute provides that "The State Employment Commissioner" prepare and publish Rules and Regulations for the purpose of carrying out the provisions of the Act, which, when approved by the Governor, shall have the force of law. The Rules, like the Law itself, have shown but few and unimportant amendments. The Law is efficient, workable and its stability has enabled its provisions to be well known and understood by all State employees. The Rules of the Commissioner are practical, and are intended to safe-guard, not only the employee, but the taxpayer. The Merit System, as applied to the State service, functions, not only as a technically professional exemplification of modern practice in public employment, but as a procurement agency charged with the duty of supplying State departments and institutions with the most competent personnel procurable at the compensation provided by the State in the Budget.

The Merit System of Maryland is strongly supported by public opinion, and has won deserved National recognition for efficient operation.

The duties of the Board are to examine all films, reels or views to be exhibited or used in the State of Maryland; to approve such as are moral and proper, and to condemn or eliminate those which, in the judgment of the Board, tend to debase or corrupt morals, or incite to crime.

The Board receives in advance a fee of $2.00 for each 1,000 feet of film, or fractional part thereof, submitted for examination, and $1.00 for each duplicate of 1,000 feet, or fractional part thereof, if submitted within a year after the examination and approval of the original film. Upon completion of the examination the Board issues a certificate stating the result of the examination and furnishes an official approval seal, record of which is kept by the Board.

Any person failing to display the approval seal of the Board may be fined from $5.00 to $10.00, or in default of payment may be sentenced to imprisonment from two to five days.

The law under which the Board was operating was found to be inadequate. A bill, therefore, was introduced and passed by Act of the Legislature of 1922, Chapter 390, which repealed and re-enacted each and every section of the original Acts of 1916, 1918 and 1920, with amendments and changes, conferring additional powers upon the Board and providing increased penalties for violations of the Act.

The Act of 1929 provides for a new schedule of fees chargeable by the Board.

The provisions of the Act do not apply to any non-commercial exhibition of films by religious, charitable or fraternal organizations, or by any library, school or museum, for purely religious, charitable, fraternal or educational purposes. The Board is authorized to issue permits free of charge to organizations of the above character where exhibitions of films of the above type are to be shown in public places of amusement, such permits to be issued at the discretion of the

Board and without examination of film, provided proper affidavits of character of film are made to the Board.

THE MARYLAND STATE HOUSE, BUILT 1772

The Annapolis Convention of 1786, forerunner of the Convention that framed the American Constitution, met in the old Senate Chamber. Three years earlier, in this same room, Washington resigned his commission as Commander-in-Chief of the Continental armies. Here also the Treaty of Peace with Great Britain was ratified in 1784.

Maryland and Massachusetts are the only two states with Capitol buildings dating from before Revolution. The building pictured above is the third on this site. The first, built in 1697, was destroyed by fire, and the second, built in 1704, was torn down to make room for the present structure.

MARYLAND: Final Population

Sixteenth Census of the United States: 1940

POPULATION OF THE STATE OF MARYLAND

FINAL FIGURES: 1940

Between 1930 and 1940 Maryland's rural areas continued to grow somewhat more rapidly than the urban places, according to the final figures from the Sixteenth Decennial Census, issued today by Director William Lane Austin, of the Bureau of the Census, Department of Commerce.

The final count of the Sixteenth Census showed that on April 1, 1940, Maryland had a population of 1,821,244, an increase of 189,718 over the 1,631,526 residents reported in the 1930 census. This change represents an increase of 11.6 percent as compared with 12.5 percent between 1920 and 1930. The population increase in urban areas from 1930 to 1940 was 10.8 percent as compared with 12.8 percent in the rural sections. Urban residents accounted for 59.3 percent of the State's population in 1940, as compared with 59.8 percent in 1930. In 1940, residents of urban areas numbered 1,080,351, while the rural population amounted to 740,893. The Census Bureau considers as urban areas the incorporated places of 2,500 or more. In Maryland, however, two unincorporated political subdivisions are also classified as urban on the basis of special qualifications. The remaining territory is classified as rural.

There were seven cities of 10,000 or more in Maryland, one (Cambridge) having reached this size since 1930. There were also two election districts adjacent to Baltimore city in this size-group that qualified as urban under the special rule. All nine of these urban places of 10,000 or more increased between 1930 and 1940. District 12 of Baltimore County, with an increase of 33.6 percent, was the fastest growing urban place having 10,000 or more population. Salisbury, with an increase of 21.1 percent, was the fastest growing incorporated place in this size-group.

Eighteen of the 23 counties gained population between 1930 and 1940, as did the independent city of Baltimore, which has the status of a county. Montgomery County, with an increase of 70.5 percent, had the most extensive growth.

The first census of Maryland was taken in 1790, returning a population of 319,728. The population has shown an increase at every census since that time, passing 500,000 between 1840 and 1850, 1,000,000 between 1880 and 1890, and 1,500,000 between 1920 and 1930. The present population represents a density of 184.2 inhabitants per square mile. Maryland's total land area is 9,887 square miles.

Table 1, presents the figures for counties and for urban places of 10,000 or more, and Table 2, for incorporated places of less than 10,000. Table 3 shows the population of Baltimore city by wards.

EXECUTIVE DEPARTMENT

Governor: HERBERT R. O'CONOR (Democrat), Baltimore.

Herbert R. O'Conor, son of Mrs. Mary Galvin O'Conor and the late James P. A. O'Conor, was born on November 17th, 1896, in Baltimore. He received his early education at St. Paul's Parochial School and graduated from Loyola College, where he received a degree of Bachelor of Arts in 1917, and the degree of Doctor of Laws in 1924. In 1920, he received his Bachelor of Laws degree from the University of Maryland.

On November 24, 1920, he married M. Eugenia Byrnes, of Baltimore, and they have five children, Herbert R. O'Conor, Jr., Eugene F., Mary Patricia, James P., and Robert.

Mr. O'Conor became a member of the staff of The Baltimore Sun and Evening Sun, and in 1921 was appointed an Assistant State's Attorney. He occupied this position until January 1, 1923, when he was appointed People's Counsel of the Public Service Commission.

In the fall of 1923 he became the Democratic nominee for State's Attorney and was elected to this position by a majority of 30,000 votes. He was the youngest State's Attorney ever to be elected in Baltimore City. Thomas Elmo Jones, son of Mr. and Mrs. Thomas J. Jones, was born in Norfolk, Virginia, on December 17, 1906. He

Maryland State Flag

The flag of the State bears the escutcheon of the great seal—the Calvert and Crossland arms quartered. The device seems to have been adopted by common consent, as there was no formal adoption of any design as the official flag of the State until 1904. To Mr. James W. Thomas, of Cumberland, Md., the author of "Chronicles of Colonial Maryland," is due the credit of the passage of the Act of 1904, Chapter 48, "to formally adopt and legalize the Maryland flag."

That the Colony had a distinct flag or standard we know. The first recorded instance of the use of a Maryland flag occurs in Leonard Calvert's report of the reduction of Kent Island (February, 1638), in which he says that he and his force marched with Baltimore's banner displayed. At the Battle of the Severn, in 1655, where the supporters of the proprietary government, under William Stone, the Governor, were defeated by the Puritan party under Captain William Fuller, Stone's forces marched under the flag of Maryland, borne by William Nugent, "Standard bearer of the Province," while Fuller's party displayed the Flag of the Commonwealth, charged with the crosses of St. George and St. Andrew. It is also said that a Maryland flag was carried by the Marylanders who accompanied Braddock's expedition against Fort DuQuesne (Pittsburgh), in 1755.

The Maryland Flag, like the great seal, was evidently designed and adopted by Cecilius, Lord Baltimore, and sent out by him with the Colony, as it was unfurled and officially used a few days after taking formal possession of the Province, when Governor Calvert, to more forcibly impress the natives, ordered the "Colors to be brought on shore" and a military parade. While there does not seem to be any distinct record of the design of the colonial flag of Maryland, it is believed to have been the same as the one now in use. Maryland is also as unique in her State flag as she is in her Great Seal, in that it, too, is strictly of heraldic design, and is an exact reproduction of the shield or escutcheon upon the reverse of the Great Seal of the Province. Apart from its historic interest, the Maryland Flag, as may be seen from the accompanying illustration, possesses marked symmetry and beauty. The parallel and diagonal lines of the Calvert quarterings being in singular harmony with the crosses and transposed colors of those of the Crossland arms. The combination, too, of the colors of the former—gold and black—while in brilliant contrast with those of the latter quarterings—silver and red—are both effective and pleasing. Silver being a white metal, the white color is substituted for silver in Maryland flags made of bunting or silk, and is so provided for in the Act of 1904, Chapter 48. When painted on panels or printed in colors, however, the rich heraldic colors, gold and black, silver and gules (blood red), should be adhered to.—(From booklet entitled Annapolis, History of Ye Ancient City and Its Public Buildings, by Oswald Tilghman.)

Description of The Great Seal of Maryland

The Great Seal and Flag of Maryland are so intimately connected the one with the other that their history is inseparable. The flag of the State bears the escutcheon of the Great Seal—the Calvert and Crossland arms quartered. Maryland is unique in her Great Seal, and presents a marked contrast with those of the other States of the American Union, in that it consists of Armorial bearings of a strictly heraldic character, while the others bear "emblems indicative of agriculture and commerce, plenty and prosperity, or kindred subjects represented in a more or less pictorial or allegorical manner."

The first Great Seal brought over by Governor Leonard Calvert, in 1643, was "Treacherously and violently taken away by Richard Ingle, or his accomplices, in or about February A. D. 1644, and hath ever since been so disposed of it cannot be recovered." In 1648, Baltimore sent to the province, through Governor William Stone, a second Great Seal cut in silver. The escutcheon bore the Calvert and Crossland arms quartered. The first and fourth quarters consisted of "six pales" or vertical bars, alternately gold and black with a bend dexter counter charged—that is, a diagonal stripe on which colors are reversed—being the Calvert arms; the second and third quarters consisted of a quartered field of red and silver charged with a Greek, or equal-limbed cross, classified as "Botany"—its arms terminating in trefoils—and also counter-charged, that is, with the colorings reversed, red being on the silver ground and silver on the red—the latter quarterings being from the Crossland, Baltimore's maternal arms—Alicia Crossland having been the mother of the first Baron of Baltimore, George Calvert. These quarterings were surmounted by an earl's coronet and full-faced helmet, which indicated his rank in America as that of a Count Palatine—his rank in England being that of a Baron only—a distinction which no other American Colonial charter conferred. On the helmet rested the Calvert crest, a ducal crown, with two half bannerets, one gold and one black. The escutcheon was supported on one side by the figure of a farmer, and the other by that of a fisherman—symbols of each his two estates, Maryland and Avalon. Below them was a scroll bearing the Calvert motto: "Fatti maschii Parole Femine"—manly deeds, womanly words, or more strictly, deeds are males, words, females. Behind the escutcheons and coronets was engraved an ermined-lined mantle, and surrounding all, on a border encircling the seal, was the legend: "Scuto Bonae Voluntatis tuae Coronasti Nos"—with favor wilt thou compass us as with a shield. The heraldic terms used in describing the colors in the Calvert arms are "Or" and "Sable," meaning gold and black.

The Obverse of The Great Seal

The obverse of the Great Seal represents Baron Baltimore as a Knight in full armor, with drawn sword and helmet decoration with feathers. He is mounted on a richly caparisoned charger in full gallop, adorned with his paternal coat of arms, below which are engraved a strip of seashore, grass and flowers; around the whole is an inscription containing his name and titles, "Cecilius Absolutus Dominus Terrae Mariae et Avaloniae Baro de Baltimore."

The Great Seal of the State, or Nation, stands as her symbol of honor, and the signet by which her official acts are authenticated and accredited. In colonial Maryland to every deed granting lands by the Proprietary, who held the fee therein, to the colonist settlers, was suspended by a piece of linen tape, a large wax seal, with the impression of both the obverse and the reverse of the Great Seal thereon. Upon the accession of William and Mary to the throne of England, Maryland became a Royal Province and the Church of England became the established church of the Province. During the sway of the Royal Governors, from 1692 to 1715, other seals came into use, but upon the restoration to Lord Baltimore in 1716 of the Province, "The Greater Seal at Arms" was again used. The convention of 1776 adopted the Great Seal of the Province as the Great Seal of the State, until a new one could be devised. Later notably in 1794, and in 1817, many changes were made in it, but in 1876 a joint resolution of the Maryland Legislature was passed restoring the seal to the exact description given of it in Lord Baltimore's Commission to Governor Stone on August 12, 1648. V. And WE do by these Presents, for US, our Heirs and Successors, MAKE, CREATE and CONSTITUTE HIM, the now Baron of BALTIMORE, and his Heirs, the TRUE and ASBOLUTE LORDS and PROPRIETARIES of the Region aforesaid, and of all other the Premises (except the before excepted) saving always the Faith and Allegiance and Sovereign Dominion due to US, our Heirs and Successors, to HAVE, HOLD, POSSESS and ENJOY the aforesaid Region, Islands, Islets and other the Premises unto the aforesaid now Baron of BALTIMORE, and to his Heirs and Assigns, to the sole and proper Behoof and Use of him, the now Baron of BALTIMORE, his Heirs and Assigns forever. To HOLD of US our Heirs and Successors, Kings of *England*, as of our Castle or *Windsor*, in our County of *Berks*, in free and common SOCCAGE, by Fealty only for all Services, and not *in Capite*, nor by Knight's Service, YIELDING therefore unto US, our Heirs and Successors, TWO INDIAN ARROWS of those Parts, to be delivered at the said Castle of Windsor, every Year, on Tuesday in Easter week; and also the fifth Part of all Gold and Silver Ore, which shall happen from Time to Time, to be found within the aforesaid Limits.

VI. Now, That the aforesaid Region, thus by us granted and described, may be eminently distinguished above all other Regions, of that Territory, and decorated with more ample Titles, KNOW YE, that WE, of our most especial Grace certain Knowledge, and mere Motion, have thought fit that the said Region and Islands be erected into a PROVINCE, as out of the Plentitude of our royal Power and Prerogative, WE do, for Us, our Heirs and Successors, ERECT and INCORPORATE the same into a PROVINCE, and nominate the same MARYLAND, by which name WE will that is shall from henceforth be called.

VII. And forasmuch as WE have above made and ordained the aforesaid now Baron of BALTIMORE, the true LORD and PROPRIETARY of the whole PROVINCE aforesaid, KNOW YE therefore further, that WE, for Us, our Heirs, and Successors do grant unto the said now Baron, (in whose Fidelity, Prudence, Justice, and provident Circumspection of Mind, WE repose the greatest Confidence) and to his Heirs, for the good and happy Government of the said PROVINCE, free, full and absolute Power, by the Tenor of these Presents, to Ordain, Make and Enact LAWS, of what kind soever, according to their sound Discretion, whether relating to the Public State of the said PROVINCE, or the private Utility of Individuals, of and with the Advice, Assent, and Approbation of the Free-Men of

the same PROVINCE, or of the great Part of them, or of their Delegates or Deputies, whom WE will shall be called together for the framing of LAWS, when, and as often as Need shall require by the aforesaid now Baron of BALTIMORE, and his Heirs, and in the Form which shall seem best to him or them, and the same to publish under the Seal of the aforesaid now Baron of BALTIMORE, and his Heirs and duly to execute the same upon all Persons, for the Time being, with the aforesaid PROVINCE and the Limits thereof, or under his or their Government and Power, in Sailing toward MARYLAND, or thence Returning, Outwardbound, either to *England* or elsewhere, whether to any other Part, or of any foreign Dominions, wheresoever established, by the Imposition of Fines, Imprisonment, and other Punishment, whatsoever; even if it be necessary, and the Quality of the Offence require it, by Privation of Member, or Life, by him the aforesaid now Baron of BALTIMORE, and his Heirs, or by his or their Deputy, Lieutenant, Judges, Justices, Magistrates, Officers, and Ministers, to be constituted and appointed according to the Tenor and true Intent of these Presents and to constitute and ordain Judges, Justices, Magistrates and Officers, of what Kind, for what Cause, and with what Power soever, within that Land, and the Sea of those Parts and in such Form as to the said now Baron of BALTIMORE or his Heirs, shall seem most fitting; And also to Remit, Release, Pardon, and Abolish, all Crimes and Offences whatsoever against such Laws, whether before, or after Judgment passed; and to do all and singular other Things belonging to the Completion of Justice, and to Courts, Prætorian, Judicatories, and Tribunals, judicial Forms and Modes of Proceeding, although express Mention thereof in these Presents be not made; and, by Judges by them delegated, to award Process, hold Pleas, and determine in those Courts, Prætorian Judicatories, and Tribunals, in all Actions, Suits, Causes and Matters whatsoever, as well Criminal as Personal, Real and Mixed, and Prætorian: Which said Laws, so to be published as above said, WE Will, enjoin, charge and command, to be most absolute and firm in Law, and to be kept in those Parts by all the Subjects and Liege-Men of US, our Heirs and Successors, so far as they concern them, and to be inviolably observed under the Penalties therein expressed, or to be expressed. So NEVERTHELESS, that the Laws aforesaid be Consonant to Reason, and be not repugnant or contrary, but (so far as conveniently may be) agreeable to the Laws, Statutes, Customs and Rights of this Our Kingdom of **England**.

VIII. AND FORASMUCH as, in the Government of so great a PROVINCE, sudden Accidents may frequently happen to which it will be necessary to apply a Remedy before the Free-

holders of the said PROVINCE, their Delegates or Deputies, can be called together for the framing of Laws; neither will it be fit that so great a number of People should immediately on such emergent Occasion, be called together, WE THEREFORE, for the better Government of so great a PROVINCE, do Will and Ordain and by these Presents, for US, our Heirs and Successors do grant unto the said now Baron of BALTIMORE, and to his Heirs that the aforesaid now Baron of BALTIMORE, and his Heirs, by themselves, or by their Magistrates and Officers, thereunto duly to be constituted as aforesaid, may, and can make and constitute fit and wholesome Ordinances from Time to Time, to be kept and observed within the PROVINCE aforesaid, as well for the Conservation of the Peace, as for the Better Government of the People inhabiting therein, and publicly to notify the same to all Persons whom the same in anywise do or may affect. Which Ordinances, WE will to be inviolably observed within the said PROVINCE, under the Pains to be expressed in the same. So that the said Ordinances be Consonant to Reason, and be not repugnant nor contrary, but (so far as conveniently may be done) agreeable to the Laws, Statutes, or Right of our Kingdom of *England;* and so that the same Ordinances do not, in any Sort, extend to oblige, bind, charge, or take away the Right or Interest of any Person or Persons, of, or in Member, Life Freehold Goods or Chattels.

IX. FURTHERMORE that the new Colony may more happily increase by a Multitude of People resorting thither, and at the same Time may be more firmly secured from the Incursions of Savages, or of other Enemies, Pirates, and Ravagers WE, therefore, for US, our Heirs and Successors, do by these Presents give and grant Power, License and Liberty, to all the Liege-Men and Subjects, present and future, of US, our Heirs and Successors, except such to whom it shall be expressly forbidden, to transport themselves and their Families to the said PROVINCE, with fitting Vessels, and suitable provisions, and therein to settle, dwell, and inhabit; and to build and fortify Castles, Forts, and other Places of Strength at the Appointment of the aforesaid, now Baron of BALTIMORE, and his Heirs, for the Public and their own Defense; the Statute of Fugitives, or any other whatsoever to the contrary of the Premises in any wise notwithstanding.

X. WE will also, out of our more abundant Grace, for US, our Heirs and Successors, do firmly charge, constitute, ordain and commend that the said PROVINCE be of our Allegiance; and that all and singular the Subjects and Liege-Men of US, our Heirs and Successors, transplanted, or hereafter to be transplanted into the PROVINCE aforesaid, and the children of them, and of others their Descendants, whether already born there,

or hereafter to be born, be and shall be natives and Liege-Men of US, our Heirs and Successors, of our Kingdom of *England* and *Ireland;* and in all Things shall be held, treated, reputed, and esteemed as the faithful Liege-Men of US, and our Heirs and Successors, born within our Kingdom of *England;* also Lands, Tenements, Revenues, Services, and other Hereditaments whatsoever within our Kingdom of *England*, and other our Dominions, to inherit or otherwise purchase, receive, take, have, hold, buy, and possess, and the same to use and enjoy, and the same to give, sell, alien, and bequeath; and likewise all Privileges, Franchises and Liberties of this our Kingdom of *England*, freely, quietly and peaceable to have and possess, and the same may use and enjoy in the same Manner as our Liege-Men born, or to be born within our same Kingdom of *England*, without Impediment, Molestation, Vexation, Impeachment, or Grievance of US, or any of our Heirs or Successors; any Statute, Act, Ordinance or Provisions to the contrary thereof, notwithstanding.

XI. FURTHERMORE, That our Subjects may be incited to undertake this Expedition with a ready and cheerful Mind, KNOW YE, that WE of our especial Grace, certain Knowledge, and mere Motion, do, by the aforesaid Baron of BALTIMORE and to his Heirs, as to all other Persons who shall from Time to Time repair to the said Province, either for the sake of Inhabiting, or of Trading with the Inhabitants of the Province aforesaid, full License to Ship and Lade in any the Ports of US, our Heirs and Successors, all and singular their Goods, as well moveable as immoveable, Wares and Merchandise, likewise Grain of what Sort soever, and other Things whatsoever necessary for Food and Clothing by the Laws and Statutes of our Kingdoms and Dominions, not prohibited to be transported out of the said Kingdoms; and the same to transport, by themselves, or their Servants or Assigns, into the said PROVINCE without the Impediment or Molestation of US, our Heirs or Successors, of any officers of US, our Heirs or Successors (Saving unto Us, our Heirs and Successors, the Impositions, Subsidies, Customs, and other Dues payable for the same Goods and Merchandizes), any Statute, Act, Ordinance or other Thing whatsoever to the contrary notwithstanding.

XII. BUT BECAUSE, that in so remote a Region, placed among so many barbarous Nations, the Incursions, as well of the Barbarians themselves, as of other Enemies, Pirates and Ravagers, probably will be feared, THEREFORE WE have Given, and for US, our Heirs and Successors, do Give by these Presents, as full and unrestrained Power as any Captain-General of an Army ever hath had, unto the aforesaid now Baron of BALTIMORE, and to his Heirs and Assigns, by themselves or by

their Captains or other Officers, to summon to their Standards, or to array all Men, of whatsoever Condition, or wheresoever born for the Time being, in the said Province of MARYLAND, to wage War, and to pursue, even beyond the Limits of their Province, the Enemies and Ravagers aforesaid, infesting those Parts by Land and by Sea, and (if GOD shall grant it) to vanquish and captivate them, and the Captives to put to Death, or, according to their Discretion, to save, and to do all other and singular the Things which appertain, or have been accustomed to appertain unto the Authority and Office of a Captain-General of an Army.

XIII. We also WILL, and by this our CHARTER, do Give unto the aforesaid now Baron of BALTIMORE, and to his Heirs and Assigns, Power, Liberty and Authority, that, in Case of Rebellion, sudden Tumult or Sedition, if any (which GOD forbid) should happen to arise, whether upon Land within the PROVINCE aforesaid, or upon the High Sea in making a Voyage to the said PROVINCE of MARYLAND, or in returning thence, they may, by themselves, or by their Captains, or other Officers, thereunto deputed under their Seals (to whom WE, for US, our Heirs and Successors, by these Presents, do Give and Grant the fullest Power and Authority) exercise Martial Law as freely, and in as ample Manner and Form, as any Captain-General of any Army, by virtue of his Office may, or hath accustomed to use the same, against the seditious Authors of Innovations in those Parts, withdrawing themselves from the Government of him or them, refusing to serve in War, Deserters, to the Enemy, exceeding their Leave of Absence, flying over or otherwise howsoever offending against the Rule, Law, or Discipline of War.

XIV. MOREOVER, lest in so remote and far distant a Region, every Access to Honours and Dignities may seem to be precluded, and utterly barred to Men well born, who are preparing to engage in the present Expedition, and desirous of deserving well, both in Peace and War, of US, and our Kingdoms; for this Cause, We, for US, our Heirs and Successors do give free and plenary Power to the aforesaid now Baron of BALTIMORE, and to his Heirs and Assigns, to confer Favours, Rewards, Honours, upon such Subjects, inhabiting within the PROVINCE aforesaid, as shall be well deserving, and to adorn them with whatsoever Titles and Dignities they shall appoint; (so that they be not such as are now used in *England*) also to erect and incorporate Towns into Buroughs, and Buroughs into CITIES, with suitable Privileges and Immunities, according to the Merits of the Inhabitants, and Convenience of the places; and to do all and singular other Things in the Premises, which to him or them shall seem fitting and convenient; even although

they shall be such as in their own Nature, require a more special Commandment and Warrant than in these Presents may be expressed.

XV. WE WILL also, and by these Presents do, for US, our Heirs and Successors, give and grant License by this our CHARTER, unto the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, and to all Persons whatsoever, who are, or shall be, Residents and Inhabitants of the PROVINCE aforesaid, freely to import and unlade, by themselves, their Servants, Factors or Assigns, all Wares and Merchandizes whatsoever, which shall be collected out of the Fruits and Commodities of the said PROVINCE, whether the Product of the Land or the Sea, into any of the Ports whatsoever of US, our Heirs and Successors, of *England* or *Ireland*, or otherwise to dispose of the same there; and, if Need be, within One Year, to be computed immediately from the Time of unlading thereof, to lade the same Merchandizes again in the same or other Ships, and to export the same to any other Countries they shall think proper, whether belonging to US, or any foreign Power, which shall be in Amity with US, our Heirs or Successors; Provided always that they be bound to pay for the same to US, our Heirs, and Successors, such Customs and Impositions, Subsidies and Taxes, as our other Subjects of the Kingdom of *England*, for the Time being shall be bound to pay, beyond which WE WILL that the Inhabitants of the aforesaid PROVINCE of the said Land, called MARYLAND, shall not be burdened.

XVI. AND FURTHERMORE, of our more ample special Grace and of our certain Knowledge, and mere Motion, WE do for US, our Heirs and Successors, grant unto the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, full and absolute Power and Authority to make, erect and constitute, within the PROVINCE of MARYLAND, and the Islands and Islets aforesaid, such, and so many Sea-Ports, Harbours, Creeks, and other Places of Unlading and Discharge of Goods and Merchandize out of Ships, Boats and other Vessels, and of Lading in the same, and in so many, and such places, and with such rights, Jurisdictions, liberties, and privileges, unto such Ports respecting, as to him or them shall seem most expedient: And, that all and every the Ships, Boats and other Vessels whatsoever, coming to, or going from the PROVINCE aforesaid, for the Sake of Merchandizing, shall be laden and unladen at such Ports only as shall be so erected and constituted by the said now Baron of BALTIMORE, his Heirs and Assigns, and Usage, Custom, or any other Thing whatsoever to the contrary notwithstanding, SAVING always to US, our Heirs and Successors, and to all the Subjects of our Kingdoms of *England* and *Ireland*, of US, our Heirs and Successors, the Liberty

of Fishing for Sea-Fish as well in the Sea, Bays, Straits and navigable Rivers, as in the Harbours, Bays, and Creeks of the PROVINCE aforesaid; and the Privilege of Salting and Drying Fish on the Shores of the same PROVINCE, and for that Cause, to cut down and take Hedging-Wood and Twigs there growing, and to build Huts and Cabbins, necessary in this Behalf in the same Manner as heretofore they reasonably might, or have used to do. Which Liberties and Privileges, the said Subject of US, our Heirs and Successors shall enjoy without notable Damage or Injury in any wise to be done to the aforesaid now Baron of BALTIMORE, his Heirs or Assigns, or to the Residents and Inhabitants of the same PROVINCE in the Ports, Creeks and Shores aforesaid, and especially in the Woods and Trees there growing. And if any Person shall do damage or Injury of this kind he shall incur the Peril and Pain of the heavy Displeasure of US, our Heirs and Successors, and of the due Chastisement of the Laws, besides making Satisfaction.

XVII. MOREOVER, WE will, appoint, and ordain and by these Presents, or US, our Heirs and Successors, do grant unto the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, that the same Baron of BALTIMORE, his Heirs and Assigns, from Time to Time, for ever, shall have, and enjoy the Taxes and Subsidies payable, or arising within the Ports, Harbours and other Creeks and Places aforesaid, within the PROVINCE aforesaid, for Wares bought and sold, and Things there to be laden and unladen, to be reasonably assessed by them, and the People there as aforesaid, on emergent Occasion; to whom WE grant Power and by these Presents, for US, our Heirs and Successors to assess and impose the said Taxes and Subsidies there, upon just Cause and in due Proportion.

XVIII. AND FURTHERMORE, of our special Grace and certain Knowledge, and mere Motion, WE have given, granted and confirmed, and by these Presents, for US, our Heirs and Successors, do give, grant, and confirm, unto the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, full and absolute License, Power and Authority that he, the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, from Time to Time, hereafter, for ever, may and can, at his or their Will and Pleasure, assign, alien, grant, demise, or enfeoff so many, such and proportionate Parts and Parcels of the Premises, to any Person or Persons, willing to purchase the same, as they shall think convenient, to have and to hold to the same Person or Persons willing to take or purchase the same, and his and their Heirs and Assigns, in Fee-Simple, of Fee-tail, or for Term of Life, Lives or Years; to hold of the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, by so many, such

and so great Services, Customs and Rents OF THIS KIND, as to the same now Baron of BALTIMORE, his Heirs and Assigns, shall seem fit and agreeable, and not immediately of US, our Heirs or Successors. And WE do give, and by these Presents, for US, our Heirs or Successors, do grant to the same Person and Persons, and to each and every of them, License, Authority and Power, that such Person or Persons, may take the premises, or any Parcel thereof, of the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, and hold the same to them and their Assigns, or their Heirs of the aforesaid Baron of BALTIMORE, his Heirs and Assigns of what Estate of Inheritance soever, in Fee-Simple or Fee-tail, or otherwise, as to them and the now Baron of BALTIMORE, his Heirs and Assigns, shall seem expedient; the Statute made in the Parliament of Lord EDWARD, son of King HENRY, the late King of *England*, our Progenitor, commonly called the "STATUTE QUIA EMPTORES TERRARUM," heretofore published in our Kingdom of *England*, or any other Statute, Act, Ordinance, Usage, Law, or Custom, or any other Things, Cause, or Matter, to the contrary thereof, heretofore had, done, published, ordained or provided to the contrary thereof notwithstanding.

XX. AND FURTHER, WE will, and do, by these Presents, for US, our Heirs and Succesors, covenant and grant to, and with the aforesaid now Baron of BALTIMORE, his Heirs and Assigns, that We, our Heirs and Successors, at no Time hereafter will impose, or make or cause to be imposed, any Impositions, Customs, or other Taxations, Quotas or Contributions whatsoever, in or upon the Residents or Inhabitants of the PROVINCE aforesaid, for their Goods, Lands, or Tenements within the same PROVINCE, or upon any tenements, lands, goods of chattels within the PROVINCE, aforesaid, or in or upon any Goods or Merchandizes within the PROVINCE aforesaid, or within the Ports or Harbours of the said PROVINCE, to be laden or unladen: And WE Will and do, for US, our Heirs and Successors, enjoin and command that this our Declaration shall from

XXII. AND if, peradventure, hereafter it may happen that any Doubts or Questions should arise concerning the true Sense and Meaning of any Word, Clause or Sentence, contained in this our present CHARTER, WE will, charge and command, THAT Interpretation to be applied, always, and in all Things, and in all our Courts and Judicatories whatsoever, to obtain which shall be judged to be the more beneficial, profitable, and favourable to the aforesaid now Baron of BALTIMORE, his Heirs and Assigns: PROVIDED always that no Interpretation thereof be made, whereby GOD'S holy and true Christian Religion, or the Allegiance due to US, our Heirs and Successors, may in any wise suffer by Change, Prejudice, or Diminution; although express Mention be not made in these Presents of the true yearly Value or Certainty of the Premises, or any Part thereof, or of other Gifts and Grants made by US, our Heirs and Predecessors, unto the said now Lord BALTIMORE, or any Statute, Act, Ordinance, Provisions, Proclamation or Restraint heretofore

Constitution of Maryland

ADOPTED BY THE CONVENTION

WHICH ASSEMBLED AT THE CITY OF ANNAPOLIS ON THE EIGHTH DAY OF MAY, EIGHTEEN HUNDRED AND SIXTY-SEVEN, AND ADJOURNED ON THE SEVENTEENTH DAY OF AUGUST, EIGHTEEN HUNDRED AND SIXTY-SEVEN, AND RATIFIED BY THE PEOPLE ON THE EIGHTEENTH DAY OF SEPTEMBER, EIGHTEEN HUNDRED AND SIXTY-SEVEN, WITH AMENDMENTS TO AND INCLUDING NINETEEN HUNDRED AND FORTY.

—o—

DECLARATION OF RIGHTS

We, the people of the State of Maryland, grateful to Almighty God for our civil and religious liberty, and taking into our serious consideration the best means of establishing a good Constitution in this State for the sure foundation and more permanent security thereof, declare:

Article 1. That all Government of right originates from the People, is founded in compact only, and instituted solely for the good of the whole; and they have, at all times, the inalienable right to alter, reform or abolish their form of Government in such manner as they may deem expedient.

Art. 2. The Constitution of the United States, and the Laws made or which shall be made in pursuance thereof, and all Treaties made, or which shall be made, under the authority of the United States, are and shall be the Supreme Law of the State; and the Judges of this State, and all the People of this State, are, and shall be bound thereby, anything in the Constitution or Law of this State to the contrary notwithstanding.

Art. 3. The powers not delegated to the United States by the Constitution thereof, nor prohibited by it to the States, are reserved to the States respectively, or to the People thereof.

Art. 4. That the People of this State have the sole and exclusive right of regulating the internal government and police thereof as a free, sovereign and independent State.

Art. 5. That the inhabitants of Maryland are entitled to the Common Law of England, and the trial by Jury, according to the course of that law, and to the benefit of such of the English statutes as existed on the Fourth day of July, seventeen hundred and seventy-six; and which, by experience, have been found applicable to their local and other circum-

stances, and have been introduced, used and practiced by the Courts of Law or Equity; and also of all Acts of Assembly in force on the first day of June, eighteen hundred and sixty-seven; except such as may have since expired, or may be inconsistent with the provisions of this Constitution; subject, nevertheless, to the revision of, and amendment or repeal by, the Legislature of this State. And the Inhabitants of Maryland are also entitled to all property derived to them from or under the Charter granted by His Majesty, Charles the First, to Cæcilius Calvert Baron of Baltimore.

Art. 6. That all persons invested with the Legislative or Executive powers of Government are Trustees of the Public, and as such, accountable for their conduct: Wherefore, whenever the ends of Government are perverted, and public liberty manifestly endangered, and all other means of redress are ineffectual, the People may, and of right ought to reform the old, or establish a new Government, the doctrine of nonresistance against arbitrary power and oppression is absurd, slavish and destructive of the good and happiness of mankind.

Art. 7. That the right of the People to participate in the Legislature is the best security of liberty and the foundation of all free Government; for this purpose elections ought to be free and frequent, and every white* male** citizen having the qualifications prescribed by the Constitution, ought to have the right of suffrage.

Art. 8. That the Legislative, Executive and Judicial powers of Government ought to be forever separate and distinct from each other; and no person exercising the functions of one of said Departments shall assume or discharge the duties of any other.

Art. 9. That no power of suspending Laws or the execution of Laws, unless by, or derived from the Legislature, ought to be exercised, or allowed.

Art. 10. That freedom of speech and debate, or proceedings in the Legislature, ought not to be impeached in any Court of Judicature.

Art. 11. That Annapolis be the place of meeting of the Legislature; and the Legislature ought not to be convened, or held at any other place but from evident necessity.

Art. 12. That for redress of grievances, and for amending, strengthening, and for preserving the laws, the Legislature ought to be frequently convened.

---

* The word "white" omitted under the 15th Amendment to the Constitutuon of the United States.

** The word "male" became inoperative under the 19th Amendment to tbe Constitution of the United States.

Art. 13. That every man hath a right to petition the Legislature for the redress of grievances in a peaceful and orderly manner.

Art. 14. That no aid, charge, tax, burthen or fees ought to be rated, or levied, under any pretense, without the consent of the Legislature.

*Art. 15. That the levying of taxes by the poll is grievous and oppressive and ought to be prohibited; that paupers ought not to be assessed for the support of the government; that the General Assembly shall, by uniform rules, provide for separate assessment of land and classification and sub-classification of improvements on land and personal property, as it may deem proper; and all taxes thereafter provided to be levied by the State for the support of the general State Government, and by the counties and by the City of Baltimore for their respective purposes, shall be uniform as to land within the taxing district, and uniform within the class or sub-class of improvements on land and personal property which the respective taxing powers may have directed to be subjected to the tax levy; yet fines, duties or taxes may properly and justly be imposed, or laid with a political view for the good government and benefit of the community.

Art. 16. That sanguinary Laws ought to be avoided as far as it is consistent with the safety of the State; and no Law to inflict cruel and unusual pains and penalties ought to be made in any case, or at any time, hereafter.

Art. 17. That retrospective Laws, punishing acts committed before the existence of such Laws, and by them only declared criminal are oppressive, unjust and incompatible with liberty; wherefore, no *ex post facto* Law ought to be made; nor any retrospective oath or restriction be imposed or required.

Art. 18. That no Law to attaint particular persons of treason or felony, ought to be made in any case, or at any time, hereafter.

Art. 19. That every man, for any injury done to him in his person or property ought to have remedy by the course of the Law of the Land, and ought to have justice and right, freely without sale, fully without any denial, and speedily without delay, according to Law of the Land.

Art. 20. That the trial of facts, where they arise, is one of the greatest securities of the lives, liberties and estate of the People.

---

* Thus amended by Chapter 390, 1914. Ratified November 2, 1915.

Art. 21. That in all criminal prosecutions, every man hath a right to be informed of the accusation against him; to have a copy of the Indictment, or Charge in due time (if required) to prepare for his defence; to be allowed counsel; to be confronted with the witnesses against him; to have process for his witnesses; to examine the witnesses for and against him on oath; and to a speedy trial by an impartial jury, without whose unanimous consent he ought not to be found guilty.

Art. 22. That no man ought to be compelled to give evidence against himself in a criminal case.

Art. 23. That no man ought to be taken or imprisoned or disseized of his freehold, liberties or privileges, or outlawed, or exiled, or in any manner destroyed, or deprived of his life, liberty or property, but by the judgment of his peers, or by the Law of the Land.

Art. 24. That slavery shall not be re-established in this State; but, having been abolished, under the policy and authority of the United States compensation, in consideration thereof, is due from the United States.

Art. 25. That excessive bail ought not to be required, nor excessive fines imposed, nor cruel or unusual punishment inflicted by the Courts of Law.

Art. 26. That all warrants, without oath or affirmation, to search suspected places, or to seize any person or property, are grievous and oppressive; and all general warrants to search suspected places, or to apprehend suspected persons, without naming or describing the place, or the person in special, are illegal, and ought not to be granted.

Art. 27. That no conviction shall work corruption of blood or forfeiture of estate.

Art. 28. That a well regulated Militia is the proper and natural defence of a free government.

Art. 29. That Standing Armies are dangerous to liberty, and ought not to be raised, or kept up, without the consent of the Legislature.

Art. 30. That in all cases, and at all times, the military ought to be under strict subordination to, and control of, the civil power.

Art. 31. That no soldier shall, in time of peace, be quartered in any house, without the consent of the owner, nor in time of war, except in the manner prescribed by Law.

Art. 32. That no person except regular soldiers, marines, and mariners in the service of this State, or militia, when in actual service, ought, in any case, to be subject to, or punishable by Martial Law.

Art. 33. That the independency and uprightness of Judges are essential to the impartial administration of Justice, and a great security to the rights and liberties of the People; wherefore, the Judges shall not be removed, except in the manner, and for the causes, provided in this Constitution. No Judge shall hold any other office, civil or military or political trust, or employment of any kind whatsoever, under the Constitution or Laws of this State, or of the United States, or any of them; or receive fees, or perquisites of any kind, for the discharge of his official duties.

Art. 34. That a long continuance in the Executive Departments of power or trust is dangerous to liberty; a rotation, therefore, in those Departments is one of the best securities of permanent freedom.

Art. 35. SEC. 52. The General Assembly shall not appropriate any money out of the Treasury except in accordance with the following provisions:

Sub-Section A: Every appropriation bill shall be either a Budget Bill, or a Supplementary Appropriation Bill, as hereinafter mentioned.

Sub-Section B: First. Within twenty days after the convening of the General Assembly (except in the case of a newly elected Governor, and then within thirty days after his inauguration), unless such time shall be extended by the General Assembly for the session at which the Budget is to be submitted, the Governor shall submit to the General Assembly two budgets one for each of the ensuing fiscal years. Each budget shall contain a complete plan of proposed expenditures and estimated revenues for the particular fiscal year to which it re-

lates; and shall show the estimated surplus or deficit of revenues at the end of such year. Accompanying each budget shall be a statement showing: (1) the revenues and expenditures for each of the two fiscal years next preceding; (2) the current assets, liabilities, reserves and surplus or deficit of the State; (3) the debts and funds of the State; (4) an estimate of the State's financial condition as of the beginning and end of each of the fiscal years covered by the two budgets above provided; (5) any explanation the Governor may desire to make as to the important features of any budget and any suggestion as to methods for reduction or increase of the State's revenue.

Second. Each budget shall be divided into two parts, and the first part shall be designated "Governmental Appropriations" and shall embrace an itemized estimate of the appropriations: (1) for the General Assembly as certified to the Governor in the manner hereinafter provided; (2) for the Executive Department; (3) for the Judiciary Department, as provided by law, certified to the Governor by the Comptroller; (4) to pay and discharge the principal and interest of the debt of the State of Maryland in conformity with Section 34 of Article III of the Constitution, and all laws enacted in pursuance thereof; (5) for the salaries payable by the State under the Constitution and laws of the State; (6) for the establishment and maintenance throughout the State of a thorough and efficient system of public schools in conformity with Article VIII of the Constitution and with the laws of the State; (7) for such other purposes as are set forth in the Constitution of the State.

The Governor shall deliver to the presiding officer of each House the budgets and a bill for all the proposed appropriations of the budgets clearly itemized and classified; and the presiding officer of each House shall promptly cause said bill to be introduced therein, and such bill shall be known as the "Budget Bill." The Governor may, before final action thereon by the General Assembly, amend or supplement either of said budgets to correct an oversight or in case of an emergency, with the consent of the General Assembly by delivering such an amendment or supplement to the presiding officers of both Houses; and such amendment or supplement shall thereby become a part of said budget bill as an addition to the items of said bill or as a modification of or a substitute for any item of said bill such amendment or supplement may effect.

The General Assembly shall not amend the budget bill so as to affect either the obligations of the State under Section

34 of Article III of the Constitution, or the provisions made by the laws of the State for the establishment and maintenance of a system of public schools, or the payment of any salaries required to be paid by the State of Maryland by the Constitution thereof; and the General Assembly may amend the bill by increasing or diminishing the items therein relating to the General Assembly, and by increasing the items therein relating to the judiciary, but except as hereinbefore specified, may not alter the said bill except to strike out or reduce items therein, provided, however, that the salary or compensation of any public officer shall not be decreased during his term of office; and such bill when and as passed by both Houses shall be a law immediately without further action by the Governor.

Fourth. The Governor and such representatives of the executive departments, boards, officers and commissions of the State expending or applying for State's money, as have been designated by the Governor for this purpose, shall have the right, and when requested by either House of the Legislature, it shall be their duty to appear and be heard with respect to any budget bill during the consideration thereof, and to answer inquiries relative thereto.

Sub-Section C: Supplementary Appropriation Bills:—Neither House shall consider other appropriations until the Budget Bill has been finally acted upon by both Houses, and no such other appropriation shall be valid except in accordance with the provisions following: (1) Every such appropriation shall be enbodied in a separate bill limited to some single work, object or purpose therein stated and called herein a Supplementary Appropriation Bill; (2) Each Supplementary Appropriation Bill shall provide the revenue necessary to pay the appropriation thereby made by a tax, direct or indirect, to be laid and collected as shall be directed in said Bill; (3) No Supplementary Appropriation Bill shall become a law unless it be passed in each House by a vote of a majority of the whole number of the members elected; and the yeas and nays recorded on its final passage; (4) Each Supplementary Appropriation Bill shall be presented to the Governor of the State as provided in Section 17 of Article II of the Constitution and thereafter all the provisions of said Section shall apply.

Nothing in this amendment shall be construed as preventing the Legislature from passing at any time in accordance with the provisions of Section 28 of Article III of the Constitution and subject to the Governor's power of approval as provided in Section 17 of Article II of the Constitution an appropriation bill to provide for the payment of any obligation of the State of Maryland within the protection of Section 10 of Article I of the Constitution of the United States.

Sub-Section D: General Provisions:—First. If the Budget Bill shall not have been finally acted upon by the Legislature three days before the expiration of its regular session, the Governor may, and it shall be his duty to issue a proclamation extending the session for such further period as may, in his judgment, be necessary for the passage of such bill; but no other matter than such bill shall be considered during such extended session except a provision for the cost thereof.

Second. The Governor for the purpose of making up his budgets shall have the power, and it shall be his duty, to require from the proper State officials, including herein all executive departments, all executive and administrative offices, bureaus, boards, commissions and agencies, expending or supervising the expenditure of, and all institutions applying for State moneys and appropriations, such itemized estimates and other information, in such form and at such times as he shall direct. The Governor may provide for public hearings on all estimates and may require the attendance at such hearings of representatives of all agencies, and of all institutions applying for State moneys. After such public hearings he may, in his discretion, revise all estimates except those for the legislative and judiciary departments, and for the public schools as provided by law.

Third. The Legislature may, from time to time, enact such laws not inconsistent with this Section, as may be necessary and proper to carry out its provisions.

Fourth. In the event of any inconsistency between any of the provisions of this Section and any of the other provisions of the Constitution, the provisions of this Section shall prevail. But nothing herein shall in any manner affect the provisions of Section 34 of Article III of the Constitution or of any laws heretofore or hereafter passed in pursuance thereof, or be construed as preventing the Governor from calling extraordinary sessions of the Legislature, as provided by Section 16 of Article II, or as preventing the Legislature at such extraordinary sessions from considering any emergency appropriation or appropriations.

If any item of any appropriation bill passed under the provisions of this Section shall be held invalid upon any ground,

such invalidity shall not affect the legality of the bill or of any other item of such bill or bills[1].

SEC. 54. No county of this State shall contract any debt, or obligation in the construction of any railroad, canal, or other work of internal improvement, nor give, or loan its credit to or in aid of any association, or corporation, unless authorized by an Act of the General Assembly, which shall be published for two months before the next election for members of the House of Delegates in the newspapers published in such county, and shall also be approved by a majority of all the members elected to each House of the General Assembly, at its next session after said election.

SEC. 55. The General Assembly shall pass no law suspending the privilege of the writ of *habeas corpus*.

SEC. 58. The Legislature, at its first session after the ratification of this Constitution, shall provide by law for State and municipal taxation upon the revenues accruing from business done in the State by all foreign corporations.

SEC. 59. The office of "State Pension Commissioner" is hereby abolished; and the Legislature shall pass no law creating such office, or establishing any general pension system within this State.

The Judge of the Court of Appeals from the city of Baltimore shall be elected by the qualified voters of said city at the election of judges to be held therein, as hereinbefore provided; and in addition to his duties as Judge of

the Court of Appeals, shall perform such other duties as the General Assembly shall prescribe. The jurisdiction of said Court of Appeals shall be co-extensive with the limits of the State, and such as now is or may hereafter be prescribed by law. It shall hold its sessions in the city of Annapolis, on the first Monday in April, and the first Monday in October, [on the second Monday in January, the first Monday in April and the first Monday in October]* of each and every year, or at such other times as the General Assembly may by law direct. Its sessions shall continue not less than ten months in the year, if the business before it shall so require; and it shall be competent for the judges temporarily to transfer their sittings elsewhere upon sufficient cause.

SEC. 15. Four of said judges shall constitute a quorum; no cause shall be decided without the concurrence of at least three; but the judge who heard the cause below shall not participate in the decision; in every case an opinion, in writing, shall be filed within three months after the argument or submission of the cause; and the judgment of the court shall be final and conclusive; and all cases shall stand for hearing at the first term after the transmission of the record.

SEC. 16. Provision shall be made by law for publishing reports of all causes argued and determined in the Court of Appeals, which the judges shall designate as proper for publication.

17. There shall be a Clerk of the Court of Appeals, who, after the expiration of the current term of the present incumbent, shall be appointed by and shall hold his office at the pleasure of said Court of Appeals.[1]

deem advisable. It shall also be the duty of said Judges of the Court of Appeals, as soon after their election as practicable, to devise and promulgate by rules or orders, forms and modes of framing and filing bills, answers and other proceedings and pleadings in equity; and also forms and modes of taking and obtaining evidence, to be used in equity cases; and to revise and regulate, generally, the practice in the Courts of Equity of this State, so as to prevent delays, and to promote brevity and conciseness in all pleadings and proceedings therein, and to abolish all unnecessary costs and expenses attending the same. And all rules and regulations hereby directed to be made shall, when made, have the force of law until rescinded, changed or modified by the said judges or the General Assembly.

Part III—Circuit Courts.

SEC. 19. The State shall be divided into eight judicial circuits, in manner following, viz.: The counties of Worcester, Somerset, Dorchester and Wicomico,* shall constitute the First Circuit; the counties of Caroline, Talbot, Queen Anne's. Kent and Cecil, the Second; the counties of Baltimore and Harford, the Third; the counties of Allegany, Washington and Garrett,† the Fourth; the counties of Carroll, Howard and Anne Arundel, the Fifth; the counties of Montgomery and Frederick, the Sixth; the counties of Prince George's, Charles, Calvert and St. Mary's, the Seventh, and Baltimore city, the Eighth.

SEC. 20. A court shall be held in each county of the State, to be styled the Circuit Court for the county in which it may be held. The said Circuit Courts shall have and exercise, in the respective counties, all the power, authority and jurisdiction, original and appellate, which the present Circuit Courts of this State now have and exercise, or which may hereafter be prescribed by law.

SEC. 21. For each of the said circuits, excepting the eighth, the second, the third (and) the sixth and the seventh, there shall be a chief judge and two associate judges, to be styled judges of the Circuit Court, to be selected or appointed as herein provided, and for the second circuit, the third circuit, (and) the sixth circuit, and the seventh circuit, there shall be a chief judge and three associate judges to be styled judges of the Circuit Court, to be elected or appointed as herein provided. And no two of said associate judges, for any of the said circuits, except the third and sixth and seventh circuits shall, at the

time of their election or appointment or during the term for which they may have been elected or appointed, reside in the same county. If two or more persons shall be condidates for associate judge in the same county in any of the circuits, except the third and sixth and seventh circuits, that one only in said county shall be declared elected who has the highest number of votes in the circuit. In case any two candidates for associate judge in any of the circuits, except the third and sixth and seventh circuits, residing in the same county shall have an equal number of votes greater than any other candidates for associate judge in the circuit, it shall be the duty of the Governor to order a new election for one associate judge; but the person residing in any other county of the circuit and who has the highest number of votes shall be declared elected. The said judges shall hold not less than two terms of the Circuit Court in each of the counties composing their respective circuits, at such times as are now or may hereafter be prescribed to which jurors shall be summoned; and in those counties where only two such terms are held, two other and intermediate terms, to which jurors shall not be summoned; they may alter or fix the times for holding any or all terms, until otherwise prescribed, and shall adopt rules to the end that all business not requiring the interposition of the jury shall be, as far as practicable, disposed of at said intermediate terms. One judge in each of the above circuits, including the second, the third (and) sixth and seventh circuits, shall constitute a quorum for the transaction of any business; and the said judges or any of them may hold special terms of their courts, whenever in their discretion the business of the several counties renders such terms necessary. The additional associate judge for the third circuit elected in accordance with the terms of the Constitutional Amendment heretofore submitted and adopted shall be subject to the same constitutional provisions, hold his office for the same term of years, receive the same compensation and have the same powers as are herein provided for the other associate judges in the third circuit.

The additional associate judge for the second circuit herein provided for shall be a resident of Cecil County, shall be appointed by the Governor after the expiration of six (6) months after the adoption of this amendment and shall serve until the first general election for members of the General Assembly that shall be held in said circuit subsequent to the adoption of this amendment, at which election his successor shall be elected by the qualified voters of Caroline, Cecil, Kent, Queen Anne's, and Talbot Counties, constituting the second circuit. The judge so appointed shall be subject to the same constitutional provisions, receive the same compensation and have the same powers as are herein provided for the other associate judges in the

second circuit, and the judge so elected shall be subject to the same constitutional provision, hold his office for the same term of years, receive the same compensation and have the same powers as are herein provided for the other associate judges in the second circuit.

The additional judge for the sixth circuit herein provided for and elected by the qualified voters of Federick and Montgomery Counties at the 1938 election in accordance with the terms of the Constitutional Amendment heretofore submitted and adopted shall be subject to the same constitutional provisions, receive the same compensation and have the same powers as are herein provided for the other associate judges in the sixth circuit and his successors shall be appointed and/or elected in accordance with the constitutional provisions relating to judges. The Chief Judge may be elected from either Frederick or Montgomery Counties, but when the Chief Judge is elected from Frederick County one of the associate judges shall be a resident of said county and the two remaining associate judges shall be residents of Montgomery County and when the Chief Judge is elected from Montgomery County one of the associate judges shall be a resident of said Montgomery County and the remaining two associate judges residents of Frederick County. In case any candidate or candidates for associate judge at any judicial election held in the sixth judicial circuit shall receive sufficient votes to cause such candidate or candidates to be declared elected, but the election of such candidate or candidates would cause more associate judges than herein permitted to reside in any county of said circuit, then and in that event only that candidate or those candidates, as the case may be, residing in said county in the order of the votes received shall be declared elected whose election would provide the permitted number of associate judges from said county and the candidate or candidates, as the case may be, residing in the other county, and not similarly disqualified, who shall have the next highest number of votes in said election shall be declared elected. If, by reason of such a condition or by reason of an equal vote for two or more candidates a sufficient number of associate judges duly qualified as to residence as above set out should not be elected at any election in said sixth judicial circuit, then it shall be the duty of the Governor to order a new election for such unfilled office or offices.

The additional associate judge for the seventh circuit herein provided for shall be appointed by the Governor immediately after the adoption of this amendment and shall serve until the first general election for members of the General Assembly that shall be held in said circuit subsequent to the adoption of this amendment, at which election his successor shall be

elected by the qualified voters of Prince George's, Charles, Calvert and St. Mary's Counties. No member of the General Assembly of 1939, otherwise qualified, shall be ineligible for appointment or electon as such associate judge by reason of his membership in the General Assembly. The judge so appointed shall be subject to the same constitutional provisions, receive the same compensation and have the same powers as are herein provided for the other associate judges in the seventh circuit, and the judge so elected and his successors shall be subject to the same constitutional provisions, hold office for the same term of years, receive the same compensation, and have the same powers as are herein provided for the other associate judges in the seventh circuit. No two of the associate judges for the seventh circuit shall at the time of their election or appointment or during the term for which they may have been elected or appointed reside in the same county, except in Prince George's County, in which county two of said associate judges for the said circuit shall reside at the time of their appointment or election and during the term for which they may have been appointed or elected unless the chief judge of said circuit shall already reside in said county, in which event only one of said associate judges shall reside in Prince George's County and Prince George's County shall at all times have two resident Judges and no more, such Judges to be either the Chief Judge of the Sventh Circuit and one associate Judge or two associate Judges of said Circuit. In case any candidate or candidates for associate judge at any judicial election held in the seventh judicial circuit shall receive sufficient votes to cause such candidate or candidates to be elected, but the election of such candidate or candidates would cause more associate judges than herein permitted to reside in any county of said circuit, then and in that event only that candidate or those candidates, as the case may be, residing in said county in the order of the votes received shall be declared elected whose election would provide the permitted number of associate judges from said county and the candidate or candidates, as the case may be, residing in some other county, and not similarly disqualified, who shall have the next highest number of votes in said election shall be declared elected. If, by reason of such a condition or by reason of an equal vote for two or more candidates a sufficient number of associate judges duly qualified as to residence as above set out should not be elected at any election in said seventh judicial circuit, then it shall be the duty of the Governor to order a new election for such unfilled office or offices.

SEC. 22. Where any term is held, or trial conducted by less than the whole number of said Circuit Judges, upon the decision or determination of any point or question by the

court, it shall be competent to the party against whom the ruling or decision is made, upon motion, to have the point or question reserved for the consideration of the three judges of the Circuit, who shall constitute a court in *banc* for such purpose; and the motion for such reservation shall be entered of record during the sitting at which such decision may be made; and the several Circuit Courts shall regulate, by rules, the mode and manner of presenting such points or questions to the court in *banc*, and the decision of the said court in *banc* shall be the effective decision in the premises, and conclusive, as against the party at whose motion said points or question were reserved; but such decision in *banc* shall not preclude the right of appeal or writ of error to the adverse party in those cases, civil or criminal, in which appeal or writ of error to the Court of Appeals may be allowed by law. The right of having questions reserved shall not, however, apply to trials of appeals from judgments of Justices of the Peace, nor to criminal cases below the grade of felony, except when the punishment is confinement in the penitentiary; and this section shall be subject to such provisions as may hereafter be made by law.

SEC. 23. The judges of the respective Circuit Courts of this State and of the courts of Baltimore city, shall render their decisions in all cases argued before them, or submitted for their judgment, within two months after the same shall have been so argued or submitted.

SEC. 24. The salary of each Chief Judge and of the Judge of the Court of Appeals from the city of Baltimore shall be three thousand five hundred dollars, and of each Associate Judge of the Circuit Court shall be two thousand eight hundred dollars per annum, payable quarterly, and shall not be diminished during his continuance in office.****

SEC. 25. There shall be a Clerk of the Circuit Court for each county, who shall be elected by a plurality of the qualified voters of said county, and shall hold his office for six years from the time of his election, and until his successor is elected and qualified, and be re-eligible, subject to be removed for wilful neglect of duty or other misdemeanor in office, on conviction in a court of law.[1] In case of a vacancy in the office of Clerk of a Circuit Court, the Judges of said court shall have power to fill such vacancy until the general election for Delegates to the General Assembly, to be held next thereafter, when a successor shall be elected for the term of six years.[2]

**** By the Act of 1927, Chapter 235, the salary of the Chief Judges was increased to eleven thousand five hundred dollars, and each Associate Judge to eight thousand five hundred dollars.

[1] Amended by Article XVII, Section 7.

Part V-A—People's Courts.

41-A. There is hereby created a People's Court of Baltimore City. Said Court shall consist originally of a Chief Judge and two Associate Judges; the number of such Judges may thereafter be increased or decreased by the General Assembly by law but no such decrease shall affect the term of any Judge then in office or his right to stand for election for further terms as hereinafter provided. The Judges of said Court shall have the qualifications prescribed by Section 2 of this Article and shall have practiced law in the City of Baltimore for a total period of at least five years; shall hold office subject to the provisions of Sections 3 and 4 of this Article with regard to retirement and removal from office; and shall receive from the Mayor and City Council of Baltimore City such compensation as shall be fixed by law by the General Assembly, which shall not be diminished during continuance in office.

The Governor shall appoint to said Court, to take office on the first Monday of May, 1941, one Associate Judge for a term expiring December 31, 1942, one Associate Judge for a term expiring December 31, 1944, and a Chief Judge for a term expiring December 31, 1946; and, upon the creation of any additional office on said Court by increase in the number of Judges pursuant to this Section, shall appoint an Associate Judge for such term, not exceeding eight years and expiring on the thirty-first day of December immediately following a Congressional election, as the law creating such office shall prescribe. If any vacancy occurs during any such original term, the Governor shall appoint a successor to serve for the remainder of such term. After the expiration of said original terms, the terms of office of said Court shall be for eight years from the expiration of the preceding term, and shall be filled as follows:

(1) Any incumbent Judge of said Court shall be eligible, at the Congressional election immediately preceding the expiration of his period of appointment or term, for election or re-election to succeed himself (a) for a full term of eight years, except as provided in (b) hereof; or (b) for the unexpired remainder of the current eight year term, if his appointment will expire before the end of such term. No person other than an incumbent Judge shall be eligible for election to said Court.

(2) Whenever a vacancy shall occur on said Court from any cause the Governor shall appoint to said Court a Judge who shall hold office under such appointment until the thirty-first day of December immediately following the first Congressional election occurring six months or more after the date of his appointment. No Judge of said Court, who has stood for election to succeed himself and not been elected, shall thereafter be ap-

pointed to said Court, and no Judge of said Court, who has failed to stand for election when eligible, shall be appointed to succeed himself.

(3) In order to qualify for election or re-election an incumbent Judge shall file with the Supervisors of Elections of Baltimore City not later than thirty days before the date of the applicable election a certificate signed and duly acknowledged, stating the basis of his eligibility and the term or remainder of term for which he is eligible for election. Thereupon, the name of such Judge, together with a statement of the term or remainder of term for which he is eligible, shall be placed upon the ballot to be used in said City in such election, with no party designation whatever and with no opposing candidate, with space provided to permit any voter to cast his vote for or against the continuance in office of such Judge; if the votes cast for the continuance in office of such Judge represent a majority of all the votes cast for or against his continuance in office, such Judge shall hold office for the unexpired remainder of the term or for the full term of eight years, as the case may be.

Unless his office shall have been abolished pursuant to this Section, each Judge of said Court shall continue to hold office after the expiration of his period of appointment or term until a successor shall qualify. As used in this Section, "Congressional election" means any of the biennial elections at which members of the House of Representatives are regularly chosen.

Said Court shall have such jurisdiction (which may be made exclusive as to any class or classes of civil cases in Baltimore City), with such right of appeal, therefrom, and the Chief Judge and Associate Judges thereof shall have such powers and duties, as the General Assembly shall prescribe from time to time by law. The Judges of said Court shall have full power to regulate by rules the administration, procedure and practice of said Court; such rules shall have the force of law until rescinded or modified by said Judges or the General Assembly. Unless otherwise provided by law, (1) all powers granted by this Section or by law to said Court or the Judges thereof as a body may be exercised by a majority of the Judges thereof, and (2) said Court shall not be a Court of Record.

There shall be a Chief Constable of said Court, who shall perform therein the duties prescribed for Clerks of Court by Section 10 of this Article and such other duties as shall be prescribed by law or by rule of said Court. Such Chief Constable shall be appointed, in the manner hereinafter prescribed, by the Judges of said Court; and such Chief Constable shall appoint, in the manner hereinafter prescribed, all original, subsequent and additional constables and clerks employed pursuant

to this Section, and shall supervise and direct the work of all such constables and clerks. There shall be appointed originally fourteen such constables and sixteen such clerks; the number of either may, on the joint recommendation of said Court and said Chief Constable, be increased by the Mayor and City Council of Baltimore City; no vacancy in the position of any constable or clerk, however, arising, shall be filled by said Chief Constable unless the Judges of said Court and said Chief Constable shall expressly find that the filling of such vacancy is necessary for the efficient operation of said Court. The positions of said Chief Constable and of all such constables and clerks shall be positions in the Classified City Service of Baltimore and the provisions of the Charter of said City with respect to said City Service are hereby expressly made applicable thereto, provided that, the Chief Constable at the time this amendment becomes effective shall continue and remain in said position and immediately become a member of said Classified City Service of Baltimore; all such positions shall be classified by the City Service Commission and all appointments, promotions, transfers, re-instatements, and removals with respect to such positions shall be made only in accordance with the provisions, rules and regulations of said Classified City Service in force from time to time. Such Chief Constable and all of such other constables and all such clerks shall receive from the Mayor and City Council of Baltimore City such compensation as said Mayor and City Council shall prescribe. Such constables and clerks shall perform such duties as may now or hereafter be prescribed by law or rule of Court.

After adoption of this Section no constable shall be appointed by the Mayor and City Council of Baltimore City pursuant to Section 42 or Section 43 of this Article IV, but constables in office upon the adoption of this Section shall hold office for the remainder of their terms, and the constables first appointed under this Section shall take office at the expiration of such terms.

41-B. The General Assembly shall have power by law to establish a People's Court in any county, or any part thereof, incorporated city or town in this State, except Baltimore City, and to prescribe and from time to time to alter (1) the number qualifications, tenure, and method of selection of the Judges of any such Court, and their powers, duties and compensation, except that the term of office or compensation of any Judge shall not be reduced during his continuance in office; (2) the jurisdiction of any such Court (which may be made exclusive as to any class or classes of civil cases in such county, or any part thereof, city or town) and the right of appeal therefrom; (3) the number, qualifications, tenure, method of selection, duties,

and compensation of all constables, clerks or other employees for such Court; and (4) all other matters relating to such Court. At said election the ballot shall contain the names of said nominees in alphabetical order without any indication of the source of their nomination, and shall also be so arranged as to permit the voter to vote for or against the creation of said charter board, but the vote cast against said creation shall not be held to bar the voter from expressing his choice among the nominees for said board, and if the majority of the votes cast for and against the creation of said charter board shall be against said creation the election of the members of said charter board shall be void; but if such majority shall be in favor of the creation of said charter board, then and in that event the eleven nominees of the City of Baltimore or five members in the county receiving the largest number of votes shall constitute the charter board, and said charter board, or a majority thereof, shall prepare within six months from the date of said election a charter or form of government for said city or such county and present the same to the Mayor of Baltimore or President of the Board of County Commissioners of such county, who shall publish the same in at least two newspapers of general circulation published in said the City of Baltimore or county within thirty days after it shall be reported to him. stitution and Public General Laws of this State, and any Public Local Laws inconsistent with the provisions of said charter and any former charter of said the City of Baltimore or county shall be thereby repealed.

SEC 2. The General Assembly at its first session after the adoption of this amendment shall, by Public General Law, provide a grant of express powers for such county or counties as may thereafter form a charter under the provisions of this Article. Such express powers granted to the counties and the powers heretofore granted to the City of Baltimore, as set forth in Article 4, Section 6, Public Local Laws of Maryland, shall not be enlarged or extended by any charter formed under the provisions of this Article, but such powers may be extended, modified, amended or repealed by the General Assembly.

thereto. Provided, however, that the charters of the various counties shall provide that the County Council of the counties shall not sit more than one month in each year for the purpose of enacting legislation for such counties, and all legislation shall be enacted during the month so designated for that purpose in the charter, and all laws and ordinances so enacted shall be published once a week for three successive weeks in at least one newspaper published in such counties, so that the taxpayers and citizens may have notice thereof. This provision shall not apply to Baltimore City. All such local laws enacted by the Mayor of Baltimore and City Council of the City of Baltimore or the Council of the Counties, hereinbefore provided, shall be subject to the same rules of interpretation as those now applicable to the Public Local Laws of this State, except that in case of any conflict between said Local Law and any Public General Law now or hereafter enacted, the Public General Law shall control.

SEC. 4. From and after the adoption of a charter under the provisions of this Article by the City of Baltimore or any county of this State, no Public Local Law shall be enacted by the General Assembly for said city or county on any subject covered by the express powers granted as above provided. Said amendments shall be published by said Mayor of Baltimore or President of the County Council once a week for five successive weeks prior to said election in at least one newspaper published in said city or county.

SEC. 6. The power heretofore conferred upon the General Assembly to prescribe the number, compensation, powers and duties of the County Commissioners in each county, and the power to make changes in Sections 1 to 6, inclusive, Article XI of this Constitution, when expressly granted as hereinbeforep rovided, are hereby transferred to the voters of each county and the voters of the City of Baltimore, respectively, provided that said powers so transferred shall be exercised only by the adoption or amendment of a charter as hereinbefore provided; and provided further, that this Article shall not be construed to authorize the exercise of any powers in excess of those conferred by the Legislature upon said counties or city as this Article sets forth.

2. Leonard Calvert commissioned by his brother, Cæcilius Calvert second Lord Baltimore and first Lord Proprietary of Maryland,—1633; given instructions as "Deputy Governor" November 13, 1633 (Calvert Papers, i. 131); arrived in Maryland with colonists March 25, 1634; recommissioned April 15, 1637 (3 Md. During absences from the Province he left the following persons in charge of the government: April 1, 1638 (he went to Virginia for a short time), Mr. John Lewger, the Secretary (3 Md. Arch. Coun. 71, Lewger had been left in charge of affairs at St. Mary's when Calvert went to Kent Island in February, 1637-8, 3 Md. Arch.
