THE SUPREMES—Cindy Birdsong, Mary Wilson, Jean Terrell

What ever happened to Diana Ross? And what about the Supremes—do they still make records? Either question would indicate not the usual lack of concrete evidence surrounding a "has been" or even a "might be" entertainer; instead, such a question would only indicate someone's been out of touch. Almost a year has passed since their history-making split at the apex of their reign as the world's number one female singing group, and Diana Ross and the Supremes, Motown's most glamorous superstars, have continued to illuminate the astral realm of entertainment, but with twice the brilliance that dazzled the world before.
