WORCESTER COUNTY PLANNING AND ZONING COMMISSION

The grant of a permit or approval of this subdivision shall not constitute a representation, guarantee or warranty of any kind by Worcester County or by any official or employee thereof of the practicability, buildability or safety of any proposed use, and shall create no liability upon the County, its officials or employees.

Any approval by the Department of the Environment of any sewer or water system or suitability therefore is based upon State and County standards existing as of the date of approval. Such standards are subject to change and a building permit may be denied in the future, in the event current standards cannot be met as of the date of application for such permit. The approval shown hereon is not sufficient approval for a building permit.

Worcester County does not guarantee the development or construction of any amenities shown on this plat. All such amenities shall be the responsibility of the owner and developer of this subdivision.

The following streets, roads, widening strips, amenities and improvements are hereby offered for dedication to the County Commissioners for Worcester County. A 10' wide strip across the front of LOT # 3 & 4 and the adjoining roadways are offered in dedication for the future widening of BACK CREEK ROAD.

Acceptance of such offer may take place at any time by appropriate act of the County Commissioners. The County Commissioners are in no way required to accept such offer. The offer may not be withdrawn without the consent of the County.

WORCESTER COUNTY PLANNING COMMISSION DATE

LOT 3 FOREST CONSERVATION LAW STATEMENT

In accordance with Subtitle IV, Section 1-403(b)(23) of the Natural Resources Article of the Worcester County Code of Public Local Laws, this minor subdivision located in the A-1 and C-1 zoning Districts as defined in the Worcester County Zoning and Subdivision Control Article is exempt from the County's Forest Conservation Law since the proposed lot contained within its boundaries a building, structure or use of land that required a zoning or building permit and existed as of July 29, 1994, if the subdivision does not result in any cutting, clearing, or grading of a forest; and it is not a resubdivision of a lot previously subdivided as an exemption pursuant to this subsection. Furthermore, any future approval of this land for a regulated activity shall be subject to the County's Forest Conservation Law.

ENVIRONMENTAL PROGRAMS

Lot 3 is approved with existing water and sewage facilities as shown. This does not indicate that the quality of these systems has been evaluated. The 10,000 sq. ft. sewage reserve area must remain free of buildings, easements, right-of-ways and any other permanent or physical objects and be reserved for future sewage disposal. Also any future changes to these systems first requires an evaluation and permit from ENVIRONMENTAL PROGRAMS.

Lot No. 4 of the plot shown hereon is hereby approved for individual sewage and water systems in accordance with Department of the Environment Regulation 26.04.02. Soil evaluations were completed based on existing elevations. Any alterations of elevation or changes in grade are prohibited without prior approval of this office.
