Deltas set banquet on Founder's Day

by Lula Jones Garrett

Epsilon Sigma chapter of Delta Sigma Theta Sorority will hold forth at a banquet in the Sheraton-Belevedere Hotel on January 24th.

The occasion will be the annual observation of Founder's Day...and, incidentally, they are expecting several of the founders to attend. They have garnered Miss Sheila Sinclair, psychiatric social worker, of India, who is presently at Johns Hopkins, as speaker.

Other items at the planning stage include the entertaining of the Chit-Chats (club) of this city by the Philadelphia chapter in the Quaker City on the 23rd.

The local chapter, by the way, has a new member, Mrs. Emma Jones, who replaced Marian Greenow, who has withdrawn from membership.

Also in the making are induction of daughters in Washington and in New York.

New in town is a chapter of the National Smart Set Clubs. An organization of lovely young women along the Eastern Seaboard.

Alice Pinderhughes is heading the newly organized chapter here. Sub-rosa officers are Iris Mapp, recording secretary, Jacquelyn Watts, corresponding secretary, and Dorothy Wood, treasurer.

Also in the chapter are Mabel Byrd, Kay Carter, Doris Cole, Bertha Forte, Louise Gilham, Ruth Jennifer, Margaret Mason, Doris Moore, Sarah Newton, Theodosia Stokes, Helen Queen and Gladys Johnson.

Friday night the girls met with Bertha Forte for a combination business meeting and party at which time they celebrated their new status as Smart Setters.

Other chapters are in Boston, New York, North and South Jersey, Philadelphia, Washington and Roanoke.

PARTY PRATTLE: The fabulous Martiniques (those charity-minded girls who do such a bang up job for the Home for the Blind) held their Evening in Paris affair during the holidays...and had a ball!

Teri Del Rio and Company provided intermittent entertainment, and the music was the groovy offerings of Sherman Lewis' Pyramids.

They didn't play, however, until they had sent a whacking donation to the Home before Christmas.

Holding forth were Victorine Q. Adams, Helen Tucker, Hester Greenway, Alma Perry, Irene Harris, Justine Chandler, Serena Forehand, Myrtle Thompson and Beatrice Smith.

At a meeting this week with Mrs. Thompson as hostess, the group covered an unusual range of topics. Among the past: tabled plans for a spring dance, for a February marriage of their seventh year, and turning to charity as their main endeavor.

The Postal Wives entertained their husbands at a gala party an evening back, and followed, of course, the present crate, a strong Madison line. Spouses Hughes Cain and Elsie Street did the calling.

There were fairly mountains of food prepared by the Wives, who, with that project over, have turned their attention to the celebration of their first anniversary on Feb. 22.

At the party were: Doris Street, Audrey Highsmith, Doris Wilson, Yolanda Proctor, Mae Harris, Audrey Simpson, Edith Dowdell, Modestine Cox, Bernice Walker, Marie Brown, Dorteseen Newton, Theodosia Stokes, Helen Queen and Gladys Johnson.

The entire staff of the Department of Sociology at Morgan, along with 30 senior students, in the research in sociology class joined Dr. Clifton Jones, acting head of the department in the YWCA survey this week.

Aiding with the survey and its evaluation will be Dr. Hermon Dregs, professor of sociology, Robert Derbyshire, instructor in sociology and Melville Pugh, assistant professor of sociology at Morgan.

"Accidental" was the Medical Examiner's ruling in the death of Nathan Roundtree, 2, on Dec. 27 at Provident Hospital.

Traces of thallium, a chemical used in some formulas of rat poison, were found in the victim's system.

His sister, Angela, recovering from the same symptoms at Johns Hopkins Hospital.

Although the boy died almost three weeks ago, the cause of death was not determined until Monday of this week following an autopsy.

ANGELA WAS taken to Hopkins Hospital last Thursday for treatment by her parents, Mr. and Mrs. Curtis Roundtree, when she began losing hair and having difficulty with her legs.

Alerted by the earlier death of her brother, Hopkins physicians determined that Angela also had thallium poisoning and were able to treat her before the dosage proved fatal.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved completely. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where doctors' observations were confirmed over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called *Preparation H*.® Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

Little girls like to run— but some of them can't

Deborah Dyson, daughter of Mr. and Mrs. Howard Dyson, 2902 Oakford Rd. is a very feminine little girl. She likes bows in her hair, and she loves pretty dolls whose hair she can brush and curl.

But Deborah also likes to do the things other little girls do, like jump rope and play hopscotch.

And since Deborah had a paralytic polio attack this past September, the outlook for hopscotch has been poor.

Deborah has been a patient at Children's Hospital since this past autumn with her right leg and back muscles affected. One of three children in her family, Debbie was only six years old in July and just starting school when tragedy struck.

She is lucky in one thing, though, and that is that the March of Dimes is providing her with the patient care so essential to her recovery.

And this is why Deborah and her whole family are so solidly behind the New March of Dimes campaign being held this month.

Its success determines whether there will be sufficient funds for the care of some 300 patients now under the care of the National Foundation in Baltimore City, alone, or whether there will be money for continued research on the cause and eventual cure of arthritis and birth defects which take their greatest toll among children.
