REDEVELOPMENT AREA — This sector in Northwest Baltimore is being presented today (Friday) to the Baltimore Urban Renewal and Housing Agency for approval as the next redevelopment area to be known as "Project One." Boundaries are Laurens St. on the north; south of Park Ave. to Mosher; west on Mosher to Bolton, St.; south on Bolton to Dolphin St.; west on Dolphin to Madison Ave.; north on Madison to Lanvale St.; west on Lanvale to McCulloh St., and north on McCulloh to Laurens.

—Renewal plans

(Continued from Page 1)

and McMechen is to be park space.

7. A NEW school and playground are planned in the area between the 1600 block of McCulloh St. and Eutaw Pl., with the school between Madison Ave. and Eutaw Pl., and the playground between Madison and McCulloh.

AMONG SOME of the institutions in the Project One area which may or may not be disturbed by this planned redevelopment are:

1. Bolton Hill Elementary School No. 15, Park Ave. and Laurens St.

2. Sidney Lanier Elementary School No. 14, Linden Ave. and Wilson St.

3. Hiram Grand Masonic Lodge home, 1205 Eutaw Pl.

4. Payne Memorial AME Church, Madison Ave. and Laurens St.

5. Monumental Elks Home, Madison Ave. and McMechen St.

6. Douglas Community Church, Madison and Lafayette Aves.

7. Mt. Calvary of the Pentacostal Faith Church, 1202 Eutaw Pl.

8. Cortez Peters Business School, 1208 Eutaw Pl.

9. Federal Post No. 19, Veterans of Foreign Wars, Madison Ave. and Mosher St.

10. Masonic Temple, McCulloh and Mosher Sts.;

11. Booker T. Washington Jr. High School, Lafayette Ave. and McCulloh St.

8. McMechen St. will be widened to a dual highway between Madison Ave. and Bolton St. — future plans are to extend this widening east to Mt. Royal Ave., and west to Pennsylvania Ave.;

9. The 1600 block Linden Ave. will be closed from Dolphin St. to Wilson St., and a shopping center erected in the area;

10. Traffic will be re-routed so as to create a residential super-block pattern, that is closing some streets to set up four - block squares in the area — three on either side of Eutaw Pl.;

11. The plan calls for the closing of both Madison Ave. and Linden Ave. to traffic between Laurens and Dolphin streets.

Wilson St. will be closed off from McCulloh east to Park Ave. Mosher St. will be closed from McCulloh to Bolton.

Lanvale will be closed from Madison Ave. to Bolton.

East - west traffic would have to travel on either Laurens, McMechen, Lafayette or Dolphin, between McCulloh and Park.

The net result of the plan would be to create six "super - blocks" which would actually be four square blocks turned into one enormous block.

12. There are to be a number of street parks in the closed streets, similar to the John St. Park.

ALL OF this has been estimated to cost $9,635,711, of which $7,406,783 will come from Federal funds.

The remaining $2,408,928 is to come from a local bond issue.

If approved by the BURHA agency today, the plans to to the Board of Estimates, and then to the national Urban Renewal Agency for approval.

DEADLINE for submitting the plans to the national agency is March 28.

If the plans meet approval all along the line, including that of the City Council after Federal okey, work should begin on Project One in mid-1961, Mr. Moyer stated.

Further planning in the area immediately surrounding this project sector have not been developed, but are certain to come — and likely follow the same pattern.

Mr. Moyer said there was in the planning stage, but not yet specifically located, a new major traffic artery north and south somewhere between Pennsylvania Ave. and McCulloh St.

Approximately 60 per cent of the homes in Project One are scheduled for rehabilitation.

The owners will be expected to improve their properties to meet Urban Renewal standards — and will be subject to enforcement codes if they do not do so voluntarily, Mr. Moyer revealed.

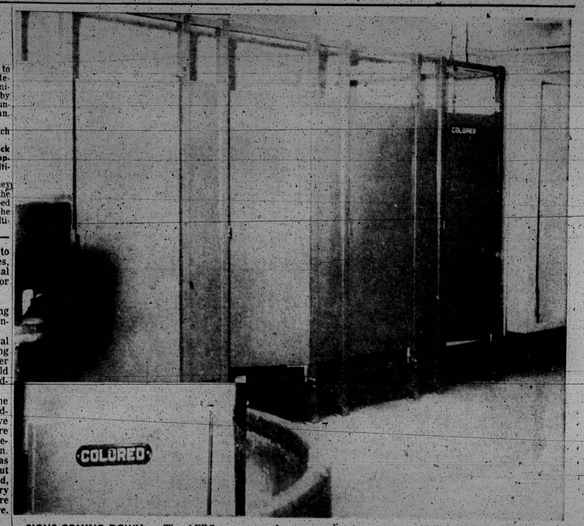
Two youths get maximum terms

Two youths were sentenced to maximum terms in the Reformatory for Males in Criminal Court late Wednesday by Judge Anselm Sodaro for an unarmed street robbery on Jan. 16.

Sentenced to ten years each were:

Richard Dennis, 17, 2500 block W. Pratt St., and Celest Lumpkin, 17, 2500 block W. Baltimore St.

Assistant State's Attorney James McAllister said the youths attacked and robbed Jesse Dilworth, 57, of $30 as he stepped from a bus at Baltimore St. and Calvarton Rd.



SIGNS COMING DOWN — The AFRO was assured this week that signs designating race of person to use certain restroom facilities at the Bureau of Water terminal on Druid Park Dr. at Fulton Ave.

Racial sign in shop restroom to come down

"We are not interested in segregating anybody. If they want the sign down, it will be taken down in a couple days.

"We 'inherited' it and since no one complained about it, we haven't bothered to take it down."

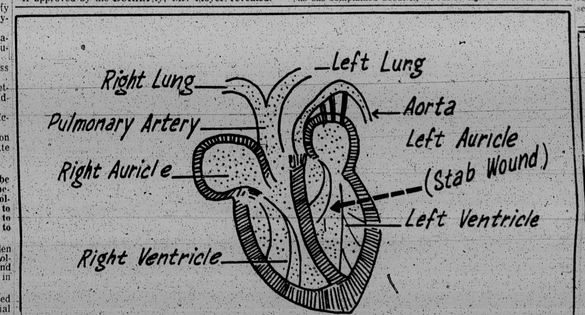
D. H. Goldberg, deputy water engineer, Bureau of Water Supply, was commenting on a racial sign in the restroom of the bureau's shop at Fulton and Druid Hill Aves.

Mr. Goldberg said:

"If 150 workers, assigned to booth-like toilets in the Park the shop, only one was colored. Terminal Building' restroom, signs got there in the first place.

The sign, on one of eight "I suppose the white workers regarded 'colored,' while the other wanted it that way. But that seven were unmarked. was before my time. Now, nobody pays any attention to it."

Explaining how the "colored" sign got there in the first place, Mr. Goldberg said:



THE HUMAN HEART

THE HEART — In this sketch of the human heart, the area of the left ventricle where Mrs. Melba Price suffered a stab wound is indicated by dotted lines. The right ventricle pumps blood into the arteries running to the lung, the left ventricle into those running to the bodily tissues. The walls of the left ventricle are strongest of all since it must pump blood throughout the entire body.

—'Died twice'

(Continued from Page 1)

of her heart and that with each beat, blood was forced through the opening.

The puncture was sustained in a section where the strongest pumping action of the heart takes place.

The left ventricle is responsible for supplying oxygenated blood for the entire body.

Mrs. Price's condition was complicated by the fact that a branch of one of the coronary arteries was also penetrated.

AS A RESULT, the wound caused a muscle to collapse in that section of the heart served by a vessel.

Under normal circumstances the same result (collapsing of a muscle) could have been produced by a heart condition.

The patient's heart stopped the second time and her blood pressure dropped to zero while she was in the operating table.

In order to save Mrs. Price's life, Dr. Change made an incision in the chest cavity which had filled with blood and massaged the heart.

This was done after the wound had been sewed up and the chest drained and closed.

MRS. PRICE was on the critical list for two days following the operation.

According to her doctors, she should be able to go home next week or the week following.

Mrs. Price, a shy thin youthful looking matron, describes her recovery as a "miracle" and declares: "I owe my life to God and Dr. Chang. Without their help, I wouldn't be here".

Mrs. Price said she remembers nothing after she was stabbed by an intruder who invaded her home.

"When I came to (in the hospital) I thought I was going into the operating room. They told me I had already been" she stated.

Mrs. Price is the mother of two grown children.

DR. CHANG, who attributes the successful operation to "teamwork," was assisted by Drs. Moises Traiman of Peru.

Dr. Traiman is also a resident surgeon.

Dr. James Hopkins, chief of thoracic consultant surgery was on stand-by duty and assisted other doctors completed the team.

They were Drs. Alvaro Porturas and Leoncio Kiskilevich of Peru and Luis Queral of Cuba.

Two nurses, a nurse's aide, two orderlies, a lab technician and a X-ray technician assisted the doctors.

Althea hired by baking firm

CHICAGO (ANP) — Former Wimbledon and U.S. women's singles tennis champion Althea Gibson was hired by the Ward Baking Company, "in a position of considerable responsibility" and assumed her new duties Tuesday, March 1.

The announcement that Miss Gibson had joined the company in what is believed to be a staff position, was officially announced at a luncheon at the Palmer House Hotel here Wednesday.

Meanwhile, it was not immediately known how the new position will affect Miss Gibson's status with the Harlem Globetrotters. At present she is playing a series of tennis matches against Karol Fageros of Miami while touring with the Trotters.

She reportedly is receiving $65,000 for the exhibitions which were expected to run for several months.

Medical authorities recognize that there are 5 major symptoms of the common cold; stuffiness, achiness, fever, constipation, and general "sick feeling." Only the time-tested and proven cold medicine, Fahrney's No. 666, has "one ingredient" product, advertised for "colds" can possibly do this job on a "general" symptom, through a significant medical, developed and marketed exclusively for the treatment of colds ... and not for any other ailment.

666 IS A SPECIAL COMBINATION PRODUCT
666 is a dependable, proven combination of medicinal ingredients, which are used by many doctors in their prescriptions. It is especially designed to give fast, positive relief from all colds symptoms ... not just one or two, as is more effective in the treatment of colds, because it hits more symptoms than any "general" product. That is why 666 is guaranteed. It's got to work ... or the thousands of families who depend on 666 ... and see what real relief can be had, feels begins in twenty-days ... liquid or tablets. Take no substitute ... the same fast relief is in both.
