EEOC job slated for new check

The Board of Estimates returned to the City Service Commission for re - vamping Wednesday the position of employment opportunity education and research assistant with the Baltimore Equal Employment Opportunity Commission.

The Board made these suggestions:

1. That qualifications for the position be lowered, due to the almost certain inability to find an applicant at its authorized

2. Make the position a part-time one, at perhaps three days a week.

This is the position that has long been authorized at EEOC, but never filled.

Shortly after a previous Board of Estimates authorized the job a few years ago, there came a municipal job freeze, preventing further city hirings.

THE PRESENT Board of Estimates abolished the position of assistant executive secretary at EEOC this year, a $5,880 a year job, and granted this new position instead.

Murray Abramson, who held the assistant post, will have first crack at the new position — in that he is being carried as unemployed on City Service records, and a ruling gives this first preference.

It was because of Mr. Abramson, an ally of James H. (Jack) Pollack, Fourth District political leader, who has been on the outs with the present Administration, that the EEOC assistant secretary post was abolished, according to reliable sources.

Then again, Mr. Abramson drew considerable unfavorable attention when he insisted on holding the job and also serving as a House of Delegates member from the Fourth District.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers was a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne*) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository or ointment form* called *Preparation H.* Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.
