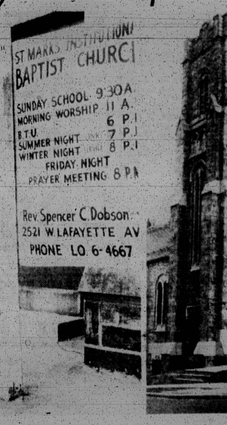
THE AFRO LOOKS... AT BALTIMORE....

How They Worship....



DREAM COME TRUE is St. Marks Institutional Baptist Church located at Lafayette Ave. and Bentalou St. In left panel, the pastor, the Rev. Spencer C. Dobson, looks over the church announcement board. At right, an exterior view of the handsome church building.

A handful Christians built St. Mark's Institutional

A handful of earnest Christians put their heads together four years ago and a new church was born.

St. Marks Institutional Baptist Church, Bentalou and Lanvale Sts. came into being from the idea that a new church, a church with an extensive program was needed.

The man primarily responsible for it all is the Rev. Spencer Dobson, the present pastor.

The Rev. Mr. Dobson, former pastor of the First Baptist Church in Pimlico, with his sons and several other faithful persons pooled their finances and created St. Marks at its present home.

Those who contributed and were: the Rev. Mr. Dobson, the Rev. Howard Dobson, the Rev. Vernon Dobson, Irvin, David and Spencer Dobson Jr.; George and Anna Straughn; Lawrence and Mary Thomas; James and Louise Smith; Mrs. Florence White, Mrs. Mamie Thomas, Mrs. Susie Mae Hall, Mrs. Mae Barnes, Mrs. Frances Dobson, Mrs. Essie Eyles, Wrigley and Eleanor Robinson.

SPEAKING OF the beginning of the church, the Rev. Mr. Dobson said:

"It was a struggle for a while. We didn't have much money, all we really had was the will; but we finally got the church financed and then we knew we were on the way."

The church membership is small, only 280 but every member is active. They believe in their church and its purpose, and they support it.

"The building was obtained at the cost of $30,000 and after three years, a balance of approximately $35,000 is outstanding.

The church, this week, is celebrating its fourth anniversary with sermons from several outstanding ministers. The anniversary services will climax with Family Day on April 24.

Although only four years old, the church was nearly all of the organizations of any Baptist church in the city.

There is the Deacon Board, the Trustee Board, two choirs, Missionary Society, Pastor's Aide, church committee, Usher Board, Flower Circle, a Sunday School, a Baptist Training Unit, and the Young matrons.

One of the unusual features of the church, and a part of the educational program is a five - day nursery school which enrolls 43 pupils and employs four supervisors including Mrs. Anna Straughn, RN, head of the school.

OF FUTURE PLANS for their much desired educational program, the Rev. Mr. Dobson said.

"We would eventually like to acquire facilities for training nurses, and someday we hope to build a convalescent home.

"When we first started the church, we had originally planned to offer several vocational programs, but since we have Carver High School just up the street there is no need for us to do so.

THE ST. MARK'S Church is a huge stone structure which covers nearly an acre of land at the corner of Lanvale and Bentalou Sts.

It has two floors. The church proper which seats approximately 500 is above a basement floor which houses facilities for Sunday School classes, and the nursery school.

The main auditorium is furnished with mahogany pews and pulpit furniture. Behind the pulpit is a mahogany chair left which has behind it a hand carved mural of The Last Supper.

The windows, imported from Italy, have designs signifying the birth, crucifiction and resurrection of Christ.

The floor is completely covered with a grey carpet. The walls are painted pastel shades of brown and cream.

WHAT ARE other future plans for the church? Says the Rev. Mr. Dobson:

"We want to be able to do more ministerial work. In the future we want to build a community recreational center for our children.

"We are also planning to build a place other than the church for our nursery school.

"And last but not least, we are going to try to build up our membership, bring more community people into the church.

Gov. Tawes proclaims Arbor Day

Today (Friday, April 8) is Arbor Day in Maryland, and Gov. J. Millard Tawes, deeply interested in forest conservation, urges: "If possible, participate in the miracle of planting a tree."

The text of the governor's proclamation follows:

"Whereas those who plant trees enjoy the satisfaction and the privilege of participating in one of nature's miracles; and whereas trees give charm and color to the landscape, beautifying plots and acres and providing comfortable shade;

"And, whereas from forests we produce wood and paper and help conserve soil and water and animal life; and whereas without trees it would be difficult for civilization to exist and America has awakened to the danger of denuding forests in its urge to build;

"And, whereas man has devised sciences of control, protection and replacement of woodlands, — all essential in preserving the miracle of earth's abundance;

"Now, therefore, do I proclaim April 8, 1960, as Arbor Day in Maryland recognizing the importance of trees in the life of humanity, and I urge that our people, young and old, observe the day by study and discussion of forest conservation and if possible by participation in the miracle of planting a tree."

How They Work

MISS MARY SHEPPARD X-rays a patient's hand

Meet Miss Sheppard—pretty X-ray technician

A pretty young lady who knows all about X - ray equipment and technology is this week's subject of "How Baltimoreans Work."

She is charming Miss Mary Sheppard of Philadelphia who lives here at the Madison Ave. YWCA, an X-ray technician at Provident Hospital.

Miss Sheppard has been employed at Provident three years — six months of that time serving an internship and the remaining part of the time as a registered technician.

Her job primarily involves X ray patients, and developing the X-ray film.

* * *

ARE THERE dangers connected with her work?

"There is actually no danger if the proper precautions are taken, and certain rules and regulations are adhered to," says Miss Sheppard.

She explained that the X-ray pictures are taken behind a lead lined wall, and lead lined clothing is often used.

* * *

THE ATTRACTIVE young lady with a pleasing personality speaks thusly of her work:

"It's a wonderful profession. I like working with people, it gives me a feeling as though I'm doing something constructive — something for the good of mankind."

* * *

MISS SHEPPARD attended West Philadelphia High School, Morgan State College for two years and the Franklin School of Science and Arts where she took her x-ray technology training.

In 1957, she came to Providence to complete her internship. She liked Provident and Baltimore so well, she decided to stay.

Her working hours are from 8 a.m. to 4 p.m. and in her spare time she reads fiction novels, attends movies, and occasionally she swims or goes dancing.

As for her plans for the future, she says,

"I have no other plans, but to stay in Baltimore and continue working here at Provident."

She said she has no plans for being married anytime in the future.

MISS SHEPPARD attends Madison Ave. Presbyterian Church.

Her advice to other young persons considering the field of X-ray technology, is:

"First have a keen interest in the work, then pursue it."

She said some of the most important subjects needed to complete the course are anatomy, physiology, chemistry and physics.

Carver High has 5th clinic on business

"When men of this caliber take time from their busy schedule to come and help high school students understand something about the business world, something good is happening in Baltimore," said Edgar M. Byng, moderator.

He was speaking at the fifth annual Business Clinic at Carver this week.

The clinic, sponsored by the Business Education Department, was held Tuesday and Wednesday.

Panel participants included Donald Dattavan, personnel manager of the Federal Reserve Bank; Robert F. Brooks, Mutual Benefit Life; Mrs. Cathleen Troupe, buyer for Hochschild Kohn; Mitchell Spitz of Wilkins Industries and Sons, textile manufacturers; Melvin Roy, consultant for the Department of Employment Security and Mr. Ewing, assistant director, Baltimore Urban Renewal and Housing Agency as moderator.

On Wednesday, the Business Education students were grouped into teams and each team visited one of the businesses represented at the Clinic. Dolores McLellan was recorder for the Sears Roebuck Co., and Atma Mae Mosley for the Mutual Benefit Society. Hayes Tillman for the Sears Roebuck; and Patsy Edwards for the Department of Employment Security.

Mrs. Kathleen Troupe, fabric buyer for Hochschilds, and Mr. Spitz of the Skinner Textile, exhibited fabrics.

SENIOR BUSINESS student, Walter Sallee, president of the Future Business Leaders of America, headed the officers for the installation of new members. It was noted that Carver has a state officer in Gloria Thomas.

Mrs. Rhoda Burdell, Miss Pat Paris and Samuel Newton, teachers in the Department, guided students who put on a skit depicting all three divisions of the Business Education Department, Clerical, Distributive Education and Stenographic.

Dr. Saul M. Perdue, principal, in his closing remarks, advised the students that every day new avenues of employment are opening for young people but they must be prepared both personally and professionally in order to meet competition in our community.

During the program, David Glenn, Urban League Lindsay Scholarship recipient was presented a plaque "For Outstanding Unselfish Work in the Field of Human Relations."

THE LESLIE BALLS at home on Caton Ave.

Caton Ave. home is paradise for them

The Leslie Balls who reside at 3504 Caton Ave., have their ideal house, for a young couple to grow in and raise a family.

The row house is attractively set off by a porch and features three bedrooms upstairs and a garage under the house.

The front porch offers ample space for play and the backyard is just enough for the children's days out doors. If the weather is wet or cold, they can play indoors in a large basement recreation room.

All the rooms are spacious with wide windows which lend themselves to experiments in decorating.

The Balls have two children, Dorenda, age 4, and Leslie Jr., age 6 ½, who is a first grade pupil at the nearby Elementary School No. 71.

They expect another child early in April. Mr. Ball is an aluminum company worker.

* * *

THE FAMILY attends New Mt. Zion Baptist Church where Mr. Ball's uncle, the Rev. Daniel Ball, is pastor.

The Balls have been married seven years. Mrs. Ball is known among neighbors and close friends as Patricia and is a typical housewife with her home, her hobbies.

The Balls admit they are just beginning in homemaking since they just purchased their home less than three months ago.

With "just enough" furnishings to serve them for the time being, they plan to add pieces gradually as the pocketbook allows so that they can enjoy growing in their home.

THE LIVING room is ideal for the plan. An exceptionally large room, it is connected to the dining room by a wide arched doorway to form a gracious living-dining area.

The walls, deep forest green in color also lend themselves to decorative ideas.

The kitchen is large and set off by cabinets and closet around the wall.

Doors lead to the outside and down to the basement from the kitchen.

The bedrooms are reached by an attractive stairway from the living room. All woodwork is white. The two baths, one upstairs and one downstairs, are tiled.
