FACT, FUN AND FANCY.

— Never communicate your affairs to one who seems anxious to learn them.

— The Confederates are very pushing people—especially with the bayonet.

— When is an ox not an ox?—When it is turned into a meadow.

— Moving for a new trial—courting a second wife.

— The cheapest of Lawyers—keeping one's own counsel.

— It is said that the Federal soldiers catch and eat all the frogs they can, to make themselves nimble in the legs.

— However high house-rents may be, you can always at least have one room at command—the room for improvement.

— The mind is like a trunk. If well packed, it holds almost everything; if ill packed, next to nothing.

— Why is an author the most peculiar of animals? Because his tale comes out of his head.

— Some women paint their faces and then weep because it doesn't make them beautiful. They raise a hue—and cry.

— The man who ate his dinner with the fork of a river, has been endeavoring to spin a mountain top.

— "There, now," cried a little girl, while rummaging a drawer in a bureau, "there, now, gran'pa has gone to Heaven without his spectacles."

— "I say, boy, stop that ox." "I havn't got no stopper, sir." "Well, head him, then." "He's already headed, sir." "Confound your impertinence—turn him." "He's right side out already, sir." "Speak to him, you rascal, you." "Good morning, Mr. Ox."

☞ The Chicago Post of the 6th instant, takes New England to task in the following manner:

"The silly talk of the New England manufacturers, that the agricultural interests paid but a small portion of the tax, was unworthy of the Senate. The fact is, this war has been a godsend to the people of New England. Protected by an outrageous tariff from all foreign competition, they have had a rich harvest since the war commenced. There is not a manufacturing company in New England that will not realize from 10 to 20 per cent. on its capital stock for the year ending the 1st of June. This is not confined to any one branch of industry, but includes all branches of manufacture. In the sale of cotton fabrics they now have a monopoly, and for twenty years there has not been such an amount of work done as has been done during the year just closed. The advantages reaped by New England from the war are not confined to the mere profits in dollars and cents upon the vast supplies it has sold, but it has enjoyed the more than equal advantages of having had full employment in its factories for all its population. New England with her factories closed, and New England with her factories opened, even if not making profits, are very different. It is hard to impeach the loyalty or patriotism of any people; but, judging of the present by the past, it may not be extravagant to suppose that, if this war had had the effect of closing all the factories and stopping all the mills in New England, there would come up a cry from that section in favor of peace."

The Chester Hogs.—The well deserved celebrity attained by this breed, renders any information in regard to its origin particularly interesting to the farmer.

The pure Chester Pigs, says Marshall Morris, of Philadelphia, are believed to have originated at least thirty years ago, by crossing a Bedfordshire boar, imported into Chester county, with the best stock of that county. By careful selections and breeding, their valuable characteristics have become established, so that they may now be considered a distinct breed. They are known by their pure white color, great length and depth of carcass, small head and offal parts, capacity for growing to a large size, quiet habits, and easy feeding and fattening. They are estimated to make a pound per day till two years old, and have been killed weighing over 900 lbs. When put up to fatten, they often gain 2 to 3 lbs. per day, for which many instances could be cited. They are invariably found to be well larded inside, and are emphatically The Farmer's Hog, keeping fat while growing, and can be fed off readily at any age.

Disinherited.—Mr. G. W. Rives, son of Wm. C. Rives, of Virginia, passed through this city on Monday evening, en route for Washington city. Mr. Rives has resided for some years in the State of Illinois, and when the war broke out he became a very prominent opponent of rebellion. In consequence of this he recently received a letter from his father, who is quite wealthy, announcing that he (the father) had disinherited the son for the reason that he had determined that no traitor and abolitionist should ever have the benefit of his wealth. This information is derived from the younger Mr. Rives' own lips.—*Wheeling Intel.*

TO THE FARMERS AND PLANTERS OF THE SOUTH.

FOWLE & CO.'S
Soluble Phosphated Peruvian
GUANO,

The Best, Cheapest and most Permanent

FERTILIZER

Ever Offered to the Agriculturist.

Approved by Prof. Campbell Morfit,

ONE of the most eminent Chemists of America, as the most reliable and efficient combination of *Phosphatic and Ammoniated Guanos* yet offered in a really soluble form. It is composed of No. 1 *PERUVIAN AND SOMBRERO GUANOS*, of direct importation from the Chincha and Sombrero Islands, and is warranted *free from all impurities.*

This Fertilizer has been severely tested, in comparison with Peruvian Guano, by many of the most successful and intelligent farmers of Virginia and Maryland, from whom we have received numerous letters and certificates of approval. We submit the following extract from Prof. Morfit's report upon the Soluble Phosphated Peruvian Guano, viz:

"*The above analytical results express a high value for this Fertilizer, and indicate that the formula for its preparation is founded upon sound principles of agricultural economy and efficiency. Though replete with the indispensable elements of a fruitful soil, the relative proportions are so skillfully adjusted as to promote their mutual action, and render it a most profitable manure, adapted for crops generally, without distinction as to kind.* CAMPBELL MORFIT.

Copies of the above-named documents, together with Prof. Morfit's Analysis, and other interesting matter, will be found in our pamphlets and circulars, showing that our Fertilizer is far better adapted to general use than Peruvian Guano alone, besides being

SIXTEEN PER CENT. CHEAPER.

The Sombrero Guano before its combination with the Peruvian, is rendered immediately soluble by a process recently discovered and peculiarly our own. The value of Peruvian Guano presented in this modified and improved form, can hardly be over-estimated.

We continue to keep on hand our usual supplies of *PERUVIAN AND SOMBRERO GUANO, of unbounded importation*, which we offer at lowest market rates.

WOODWORTH'S

COMPOUND TOILET & WASHING SOAP

Patented March 13th, 1860.

THE subscriber having purchased of Mr. Woodworth the Patent Right for Montgomery county, Md., for his IMPROVED SOAP, now offers for sale

Family Rights.

Also, SOAPS of every description manufactured by his process.

The subscriber has tested this soap thoroughly, and can, with confidence, recommend it to the citizens of Montgomery county. It is decidedly the

Cheapest and Best Soap

that has ever been made, and at the same time the mode of manufacturing the simplest that has ever been discovered. It can be made in TEN MINUTES. Any one can heat over the fire a quantity of water, and turn the same into the best Toilet or Washing Soap. It is made without any offensive smell. There is no lye nor grease used, being made entirely from chemicals. It has been analyzed by some of the best chemists, and found to contain nothing that will injure the most delicate fibres, or the skin.

This soap has been used by thousands of families for the last six months, and it is universally preferred to any other, wherever it is known, both for its superior quality as a washing and toilet soap, and for the great economy there is in using it, being cheaper by

Several hundred per cent.

than any other soap known. Every family should possess it, and needs only to be known to be sought after by every household and laundress in the land.

☞ The chemicals for its manufacture can be obtained at any Drug Store, at a very trifling expense.

FAMILY RIGHTS, or any of the Soaps, can be obtained of the subscriber. Any one purchasing a family right, and are dissatisfied after giving the soap a fair trial, can return it. He will, if required by the person purchasing a right, make some of the soap.

PERRY TRAIL,
dec 7—tf Rockville, Md.

ROCKVILLE, Dec. 4th, 1860.

Mr. Trail: The specimens of soap you gave me, I caused to be thoroughly tried, and found them to be all you represented. I have never seen any soaps to equal them, both for their superior quality, and for the great economy there is in using them. I cheerfully recommend them to the public. A. F. BOSWELL.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals—viz:

1. *The London Quarterly* (Conservative.)
2. *The Edinburg Review* (Whig.)
3. *The North British Review* (F. Church.)
4. *Blackwood's Edinburg Magazine* (Tory.)

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily journal, and the ponderous tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific and theological character, we urge them upon the consideration of the reading public.

The receipt of *Advance Sheets* from the British publishers gives additional value to these reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

HARNESS, COLLARS,
WHIPS, BROAD GEAR, &c.

ever offered in the State of Maryland, outside of Baltimore city—made up of the best leather, (tanned by the old process,) and by the best workmen. My stock consists in part of the following articles:

☞ 91 Saddles; 40 Riding Bridles; 36 Blind Bridles; 120 Collars; 4 Dozen Wagon Whips; 41 Setts of Fine Harness; 16 Setts of Breechen and Side Plates, from four to six inches wide; 14 Setts Front Gear, from four to ten inches wide; all of which we will sell to prompt-paying customers on six months' time, without interest.

I will also MAKE TO ORDER any article in my line of business at the shortest notice, and deliver it to any part of the State, free of charge, and if not as ordered, no sale.

As I do not compel any one to take when does not suit them, so persons in want of any thing in my line of business will do well to give me a call before purchasing, as I have never failed to please any reasonable man, and am determined to sell cheaper than the same articles can be bought for any where in the State. Don't forget the place, as you are sure to get a good article, at a low price.

All persons advertise that they have the best articles and sell the cheapest, but all we ask is a trial from one and all.

☞ I will pay 6 CENTS PER LB. FOR HIDES, delivered at J. B. Nezi's, Neelsville Montgomery county, Md., in Saddlery, at cash prices.
