Civil War fete

for equality, and

3. To remind America that the very purposes of the Civil War are yet unrealized 100 years later.

* * *

DR. BENJAMIN QUARLES, professor of history, Morgan State College, and authority on the Civil War, addressed the meeting, attended by 1,100 persons.

Recounting the role of colored Americans in the War Between the States, Dr. Quarles, author of "The Negro in the Civil War," said:

"Colored Americans had a threefold role in the Civil War. He was one of the major causes, a symbol, of the war's goals — to give America a new birth of freedom," he said, adding:

"Although the war was intended to pressure the Union, by 1863, it had taken on a dual purpose — also extending the boundaries of human freedom."

Dr. Quarles hastened to point out that colored Americans not only had a passive role, but an active one.

"A quarter of a million Colored Americans in the North acted as a whip and spur to the Lincoln administration. They prodded mayors, governors and congressmen.

"Nearly four million were active in the South. Many still in slavery, supported the Confederacy."

* * *

THOUSANDS escaped and joined the "Stars and Strips. Dr. Quarles declared. Ex-slaves became such proficient spies, the speaker stated, that an Illionis captain, Henry Forbes declared:

"We receive our most reliable intelligence through colored slaves."

More than one hundred and eighty thousand ex - slaves served in the Union Army while another 29,000 manned war ships comprising one-fourth of the total navy, Dr. Quarles told the audience.

Mrs. Ruby Hurley, NAACP regional director, reminded the gathering of goals yet unreached, although the struggle has gone on for a century.

* * *

THE MASS meeting, was described by daily papers as a protest meeting.

NAACP official disagreed and said it was rather an integral part of the overall celebration, spotlighting facts an events other celebrations were determined to omit.

The meeting was held at the Emanuel AME Church, pastored by the Rev. B. J. Glover, staunch fighter for equality.

The church was chosen, sponsors said, because it was the site of the first insurrection against slavery. There, Denmark Vesey, launched the first real fight against slavery, they pointed out.

The site was later used as an underground railroad, leading many slaves to freedom.

Mrs. Williams and Joseph N. Dempsey, vice chairman, N. J. Commission, attended.

Student sitdowners, carrying placards proclaiming the unending fight for equality, marched and sang freedom songs.

Following this gathering, which told "the real truth why the Civil War was fought," the homefolk celebration was dampened by torrential rains.

ing my feelings on such a matter."

He added that Mr. Roberts isn't the first colored person to apply.

Comprised of former members of the 23 - member jury panels, which usually have at least one colored person, the association is lily-white.

* * *

THE CHAIRMAN said the press was barred from the meeting because "we wanted the members to say what they wanted without fear of publicity."

He denied Mrs. Ramsey was ejected as reported, but said she was, unofficially asked to leave after violating instructions of the president, Mrs. Helen J. Janine.

Announcing her resignation, Mrs. Ramsey said:

"I don't care to belong to a group that purports to be a grand jurors assocation, and yet refuses to admit a reputable juror because of the color of his skin."

Mrs. Thompson, condemned the action thusly:

"I am disturbed and concerned that a reputable and dedicated citizen such as Mr. Roberts should have been turned down for such a reason."

Mrs. Janne and Mr. Roberts could not be reached for comments.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain
New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.
In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.
And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months!
In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years standing.
All this, without the use of numbing anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.
This new healing substance is offered in suppository or ointment form called Preparation H®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.

Hagerstown timetable

HAGERSTOWN, Md. — The racial exclusion policy of Howard Johnson's Restaurant two miles South of here has been under fire since 1959 when the restaurant refused to serve a group of school teachers who were motoring from St. Louis to a sorority meeting in Washington.

Since then Gov. J. Millard Tawes, Dr. Carl Murphy, Rabbi Murray Saltzman of Hagerstown, and William C. Rogers Sr., chairman, Maryland Commission on Interracial Problems and Relations, and others have been at work trying to persuade the restaurant to desegregate its facilities.

Here is a timetable of the events that culminated Monday with the lowering of color bars at the restaurant.

Aug. 3, 1960

F. Weldon Young, a St. Louis, Mo. engineer, and his wife were denied service at the restaurant while motoring to Washington on a vacation trip.

Mr. Young wrote to Dr. Murphy.

Oct. 27, 1960

Dr. Murphy referred the matter to Governor Tawes.

* * *

Nov. 10, 1960

Thomas B. Finan, Secretary of State, answered the letter for the Governor, saying:

"The Governor and I both concur that the incident at Howard Johnson Restaurant is most regrettable and we are today referring this matter to the Maryland Commission on Interracial Problems and Relations.

Nov. 21, 1960

Douglas B. Sands, executive secretary of the Commission on Interracial Problems, acknowledged receipt of the Governor's letter and promised to advise Dr. Murphy "of whatever settlement is made of this matter."

Jan. 3, 1961

William C. Rogers, Sr., chairman, Md. Commission on Interracial Problems and Relations, wrote Gov. Tawes:

"... I am happy to inform you that the matter which you referred to this commission in your letter of Nov. 10, 1960, has been settled satisfactorily.

"The Howard Johnson Restaurant in Hagerstown has agreed to make its facilities open to colored on a equal basis with all other patrons."

Jan. 9, 1961

Rabbi Saltzman advised the AFRO that the restaurant matter "has been settled satisfactorily."

March 9, 1961

Dr. William Fitzjohn, charge d'affaires for Sierra Leone, Africa, and his driver were denied service at the Howard Johnson Restaurant near Hagerstown.

April 3, 1961

The incident in which the African diplomat was refused service came to the attention of the U.S. State Department in Washington. The State Department apologized to Dr. Fitzjohn and asked the restaurant chain to explain its policy.

April 10, 1961

The Howard Johnson Restaurant near Hagerstown desegregated its facilities (again).

OPEN TO ALL — This Howard Johnson Restaurant on Route 40 just south of Hagerstown, Md. dropped its color bars Monday. A waitress at the restaurant refused to serve an African diplomat on March 9. The State Department learned of the incident last week, intervened, and as a result the management desegregated the facility.

(Continued from Page 1)

tuary column had been desegregated.

Hager said:

"For years we printed the names of colored persons who died in capital letters to distinguish them from the whites. But five or six years ago, we started using the same king of headlines for all deaths . . . now you can't tell the colored from the white."

METROPOLITAN Hagerstown has a total population of 55,000. It has 1,650 colored citizens, three precent of the population.

You can walk for blocks in downtown section without even seeing a colored person.

Credit for improving race relations in the city and in Washington County goes to an interracial committee spearheaded by Rabbi Murray Saltzman. The committee, which operates without fanfare, and without a name, has made some progress in improving job opportunities for colored persons and in speeding desegregation of schools and lunch counters.

A colored leader and member of the committee is the Rev. L. E. Dorsey, a Methodist minister, who lives at 130 W. Bethel St.

"Through the years Hagerstown has had a good reputation in race relations, but on some things we are asleep."

The Rev. Mr. Dorsey said the restaurant incident "really shook up this town."

Exclusive!

Dr. William Fitzjohn, Sierra Leone charge d'affaires to America, has been appointed High Commissioner to London, the AFRO has learned exclusively.

Dr. Fitzjohn figured prominently in a racial snub case last week when the U.S. State Dept. apologized for a Hagerstown, Md. Howard Johnson restaurant which had refused to serve the African diplomat.

He will be replaced by Dr. Cauiker, who will be ambassador to the United States from Sierra Leone.
