Clark's Ammoniated

Dissolved Bone.

It is the Best Paying Article In the Market.

READ THE FOLLOWING:

I have tried Clark's Dissolved Bone on my corn this year, and am much pleased with the result. I also used a higher priced article and find Clark's the superior fertilizer for corn. W. H. REID.

Langley, Fairfax co., Va., Aug. 1, 1871.

I have used Clark's Ammoniated Dissolved Bone beside other higher priced fertilizers, and consider it the best now manufactured.

R. W. MILLER.

Fall's Church, Va., Aug. 2, 1871.

MR. O'NEALE—I used Clark's last year, and am much pleased with it. I put it on some potatoes, leaving one row without any. Where I applied Clark's I got a good yield of *fine* potatoes, but on the row where I used none, I got no potatoes. I consider it a genuine article, and shall use it again.

Very respectfully, JOHN PEGREY.

Fair's Church, Va.

I like Clark's Dissolved Bone better than anything I ever used. I used it with several others, and find it the best. I shall never use any other as long as I can get it.

ROBT. WALKER.

Alexandria co., Va.

I tried Clark's beside several others, and find it equal to any. It is a good thing.

ALFRED LEIGH.

Fairfax co., Va.

I used Clark's on late potatoes last year, and got finer potatoes than where I used Peruvian Guano and Bone.

THOS. J. PEACOCK.

Fairfax co., Va.

I have used Clark's alongside of ——, and like it very much, and can recommend it as a superior article. I shall use it in future. It pays. WM. HUDDLESON.

Tennallytown, D. C., Aug. 23, 1871.

I have used Clark's Dissolved Bone side of several others, and think it the best I ever planted on corn. I made some of the finest corn I ever saw with it last year. I intend to use it in future. W. S. OLIVER

Prospect Hill, Fairfax co., Va., Aug. 23, 1871.

I find Clark's an elegant fertilizer; have used it on corn and wheat, and like it better than any other. A. H. C. DARNE.

Ask those who have used it. It is genuine. Every package warranted. Go and examine before buying.

"EXCELSIOR!"

1872. 1872.

Composed of 800 pounds of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in Sulphuric Acid,) Potash and Soda,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable FERTILIZING PROPERTIES of Bones, in fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating Farmers after THIRTEEN years experience in testing it side by side with other popular fertilizers, that an application of 200 pounds of Excelsior is equal to from 200 to 250 pounds of any other fertilizer or guano offered for sale, and in reality fully 100 to 200 per cent. cheaper.

Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade marks, and resort to other *dishonest* means to sell their worthless compounds.

To prevent imposition, all are to be seen bearing our fac-simile signature across the engraving, and CLARK & MILLER in RED LETTERS. All others are counterfeits.
