To the Voters of the City and County of Baltimore.

HAVING been encouraged by many of my friends in the city and county, to offer myself as a candidate to be put in nomination for the office of *SHERIFF*, at the ensuing election, I hope it will not be deemed improper thus early to signify my intention, and to solicit the patronage of my friends generally, and the voters of the city and county at large.

Those who have not a personal knowlege of me, will, on enquiry, find that I have been bred to business, and have been conversant in mercantile transactions from early life—Should my fellow citizens think proper, at the expiration of the time of the present sheriff, to bestow on me the office, I trust my conduct therein will be such as will give satisfaction, if a diligent attention and a faithful discharge of the duties thereof, are capable of doing the same.

100 Dollars Reward

FOR apprehending negro ROBBIN, who ran away from Dorsey's Forge, near the city of Baltimore, on Wednesday the 1st ultimo, a very black fellow, about 30 years of age, 6 feet high, short curly hair, which he very seldom combs; rather of a thin visage, has a good set of teeth; broad shouldered and tapers gradually downwards: his right leg formerly has been very sore and retains the scar on the shin bone. Indeed they have both been very sore; but the right much worse than the left. He is fond of strong drink, and after drinking is very apt to stammer or stutter when he speaks, though he speaks low and slow. He has been accustomed to working in the Forge, and is not a bad fineryman, and can handle iron tolerably well. His clothing when he went away was, a country mixed fulled cloth jacket, a pair of new ditto breeches, a pair blue fulled stockings, osnabrig shirts, coarse shoes and hat; but as he is a notorious, artful villain, he will probably change his dress and obtain a pass.

I will give the above reward including what the law allows, for apprehending and securing said fellow, and reasonable expences if brought home.

ALLEN DORSEY, *Manager*

N.B. The said fellow took with him a light mixed cloth coat, a yellow jacket, and a pair of striped pantaloons.

Baltimore and Ann Arundel

BRIDGE COMPANY.

NOTICE IS HEREBY GIVEN, That the commissioners, appointed by law, for opening subscriptions for a Capital Stock of Nine Hundred Shares, of One Hundred Dollars each Share, for the purpose of building a Bridge across the River Patapsco, at the place where the Lower Ferry is now kept, called Portland, in Baltimore county, over said river into Ann Arundle county—Will proceed to open subscriptions, at the house of Mr. WM. EVANS, in the city of Baltimore, on MONDAY, the 30th day of July next, and continue open for three days, from 10 o'clock, A. M. until 3 o'clock, P. M. in each day; and at the counting-house of JOHN MUIR, esqr. in the city of Annapolis, on the same days and hours above mentioned—and the said subscription shall remain open for those three days at the above respective places, and if it should happen that more than the stipulated number of Shares should be subscribed for on the above three days, then the Commissioners are to apportion them among the subscribers, by deducting from the highest subscriptions until they are reduced to the proper number; or if more persons subscribe than there are shares, then the Commissioners are to cast lots to decide to whom they shall belong. But if the shares should not be all subscribed on the above three first days, then the Commissioners will again open the subscriptions on Monday the 6th day of August next, at the aforesaid places and now in the city of Baltimore, and city of Annapolis, and permit any person or persons, bodies corporate or otherwise, to subscribe for any number of shares, until the whole number of nine hundred shares is completed, and then the commissioners will issue receipts to whom the shares may belong, mentioning therein the receipt of 5 dollars, in part of their subscription, which must be paid in cash, on each share, at the time of subscribing; the other payments will be called for by the directors chosen from the stockholders as the bridge expenditure require, agreeably to the terms and conditions expressed in the law.

The Commissioners beg leave to remark, that for the satisfaction and information of the public, they have had the road run by Mr John Boulding, his attested plat of which is lodged at Mr Evans's, whereby it will appear, that the distance from Mr. Evans's tavern, in the city of Baltimore, to the Ferry landing, at Portland, is 2¼ miles and 70 perches, from thence across the river is ¼ of a mile and 41½ perches, and from the foot of the contemplated bridge on the Ann Arundle side of the river, in a streight line to Snowden's bridge, at the Furnace, where it intersects the present Federal road, is 16 3-4 miles and 6½ perches, and this over remarkably level, dry, even country—Thus we shall be enabled to travel from Baltimore to Washington, the Federal City, [illegible] miles, besides the great superiority [illegible], where the present road is generally estimated at 65 miles.

Those natural advantages, added to a liberal law and charter of incorporation to this Bridge Company, by the legislature of Maryland, at their last session, who viewed it as of the utmost importance to the interest of the city of Baltimore and Ann Arundle county, as well as to the public in general, must assuredly prove a productive fund to the stockholders.

Dr. MACE'S

ANTI-BILIOUS TINCTURE & HEALTH-PRESERVING PILLS

FOR preserving health in general, and especially for preventing the diseases of warm climates and warm seasons, such as the cholera morbus, dysentery or flux and lax, sickness of the stomach and overflow of bile, ague and fever, bilious or yellow fever, liver complaints, bilious pleurisy, bilious head ache, and jaundice or yellowness of the skin and eyes.

It is here asserted with confidence, and without the least fear of a contradiction, by the use of these medicines, that they are the best remedies for *curing* as well as preventing, bilious complaints of all kinds. A detail of many cases might be given to prove this assertion, but the following, which are taken from real facts, it is hoped will be sufficient:

E. M had been afflicted with a bilious complaint six years, so that every summer he was forced to take large doses of mercury, or else be confined to his bed. By the remedies here recommended he has been restored to a good state of health during the summer and fall. The ague and fever with which he was formerly affected very often has entirely left him.

F M. was afflicted with jaundice or bilious yellowness, and was perfectly relieved in 10 days by the same means.

G A had been for a long time subject to jaundice and bilious fever in the highest degree. His face and eyes were very yellow, and he was much swelled in the body. He had tried many remedies recommended by physicians and others, but without any benefit. He was, however, soon cured by the remedies given in the above cases.

I. T had been for a long time afflicted with a bilious complaint. He had applied to different physicians, and had taken the usual remedies recommended in such cases. He also took a journey to the springs All, however, were useless. By the same remedies taken by the above mentioned patients he was completely relieved in four days.

M P. a young lady, was affected for a long time with a bilious yellowness of the skin and whites of the eyes with other *particular* complaints, (for which the Tincture is a certain remedy.) She had consulted a physician and had taken many remedies in vain, but was completely relieved by the same medicines as the above.

S. P. another young lady, in the same condition, was cured in the same manner.

B. S. had been subject to bilious complaints for a long time, and had taken the medicines generally recommended in such cases to no purpose, but was restored to health in a short time by the above mentioned remedies.

B. B. was affected with a bilious fever in a violent degree. He had severe pains in his head, back and limbs with a sick stomach and yellowness of the skin and eyes, attended with a high fever. He took a tea spoonful of the tincture every hour or half hour until better, and then every two hours, together with the pills, and in very few days was entirely restored to health.

The Anti-Bilious Tincture and Pills have been taken by many in this city with the greatest benefit that could be expected, to whom reference for further satisfaction may be made if necessary. On the Eastern shore of this state, so far famed for bilious complaints the reputation of these medicines is established upon the most solid foundation The inventor of them has not yet known of a single instance in which they have not been taken with all the advantage which could be expected. Every day they are coming more in demand, while their credit is increasing in the same degree Neither the tincture nor pills contain any mercury, or any dangerous medicine whatever; they are composed of simples entirely, and are perfectly innocent. These medicines are found, when taken for the prevention of summer and fall diseases, to carry off the bile in a gradual manner as it increases and thereby hinder its coming to excess. When taken for the cure of bilious diseases, they carry the bile away very speedily, but without any inconvenience; increase the strength of the stomach and occasion a good appetite, by which the patient is soon restored to health and spirits

The price of the tincture is one dollar by the bottle, and of the pills half a dollar by the box: wholesale purchasers are supplied with both at a dollar, which makes a generous allowance for retailing. Sold at No. 21, Fell's street, Fell's Point.

The inventor of these medicines recommends them upon principles which he will not hesitate to avow upon a proper occasion He detests a character of a Nostrum-monger, nor would he willingly ape the Mock-doctor of Moliere.

A PHENOMENON,

Which the European and American newspapers have probably spread throughout the United States, that enthusiasm which was produced in Paris, Philadelphia and New-York, by the experiment of the INVISIBLE WOMAN; and which would formerly have acredited the inventor for witzard.

The habitation of the Invisible Woman, is a box about 5 feet long and 1 foot square, glazed with glass, so that the view of the spectators is clear through; it is suspended by a small chain and perfectly isolated; from thence she answers any question put to her by the spectators:—she will mention the form or colour of any thing presented to her; she blows, and finally does not differ in any degree from another person, but by her invisibility.

If it was necessary to give a more splendid account of this experiment, the proprietor could relate many pages, wrote by the most learned men, on the subject; but it will be sufficient he conceives to repeat a paragraph extracted from the Philadelphia Gazette and Daily Advertiser, (Dec 18, 1803)—it follows:

"This astonishing production was discovered about 12 months ago in Paris, by the present proprietor and there exerted and resisted the most elaborate enquiry of numerous philosophical gentlemen. In this city we are informed it has already drawn the attention of several members of the philosophical society; but hitherto no correct conjecture has been formed as to the agency by which the effect is produced."

Though it is deemed, that what has already been said, is enough to excite the curious and learned, yet it is further added, that the author of this discovery is a father of a family, cast by the late St Domingo events, into distress, and left with no other hopes, but the exhibition again of this his invention, which he offers with great respect and solicits public patronage from philanthropic and benevolent Americans.

☞ Periods of exhibiting, are every day in the week, (Sundays excepted) from 9 o'clock in the morning until 12 and from 5 till 9 in the evening, at the above mentioned place.

*** Price of admittance, for grown persons, half a dollar—children half price.
