WHEN YOU FINISH READING YOUR AFRO PASS IT along TO A FRIEND

Leaders air views on race relations

Local radio listeners, Monday night, were given a seldom heard view on America's "Number One Problem —race relations:

For one hour Monday, WBAL Radio presented "Conscience of the Minority," where local, national, and internationally prominent colored citizens aired their views on race relations in America.

The panel, including educators, clergymen, a diplomat, civic leaders, and college students agreed on these major points, among others:

* * *

1. ENEMIES of this country, especially Communists are benefitting by the poor races.

2. Communists cannot exploit colored Americans, they exploit the violence and hate generated by segregationists, opposed to granting first class citizenship to all Americans.

3. Freedom Riders, despite opposition, will succeed in achieving their goals.

4. All groups, though their methods differ, are working for one common goal — true democracy.

5. No businesses, especially those in Baltimore, are free of segregation when it comes to employing colored workers.

6. In addition to employment, colored citizens encounter discrimination in housing, education, religion and community living.

7. Although progress is slow, the problem of race relations can be solved in our time."

* * *

HEADING THE list of participants in the "Conscience of the Minority," moderated by Paul Shields of WBAL, was Dr. Ralph Bunche, under secretary of the United Nations.

Dr. Bunche was asked if the reported world - wide effects of the violence showered on Freedom Riders were exaggerated. He said:

It is not. The world is acutely conscious of it. It is enviable, because America is regarded as a world leader. It is looked to for guidance from all nations of the world, whose population is two - thirds non - white."

Calling this country an "international fish bowl," Dr. Bunche declared:

"All that colored citizens are asking the white man is that he realize they want first class citizenship."

OTHERS ON the panel were:

Dr. Turman L. Templeton, executive director, Baltimore Urban League; Dr. Lillie M. Jackson, president, Maryland Branches of NAACP; Dr. Martin D. Jenkins, president, Morgan State College; David Glenn, executive secretary, Equal Employment Opportunity Commission;

Dr. Isiah Karriem, leader of the Muslims; the Rev. Marion Bascom, pastor, Douglas Memorial Community Church; James Hite, principal, Cherry Hill Junior High School; Mrs. Flossie Dedmond, teacher, Coppin State Teachers College, and William Boucher, president, Baltimore Neighborhoods, Inc.

Also Miss Lilly C. Lewis, David Vaughn and Clifton Henry, Morgan students, active in the students' sit-in protest movement.

Mr. Glenn said the biggest problem in Baltimore is to get employers to adopt a policy of merit and qualifications in filling jobs.

"No business in Baltimore has a policy where merit is the key for employment," he charged.

* * *

MR. BOUCHER, whose organization is concerned with stabalizing neighborhoods, said real estate dealers are still capitalizing on prejudice and ignorance by using blockbusting techniques, which have been outlawed.

"Realtors play on panic, fear and prejudice when colored families move into former all - white neighborhoods."

He added that no neighborhood in Baltimore is closed to colored families if money is no question.

Dr. Jackson, asked if the NAACP, by its campaign to achieve equality, generates hate and violence of segregationists, declared:

"The NAACP's campaign for rights is one of love, not hate; peace, and not violence."

Does the organization's fight impedes progress? she was asked.

"God helps those who help themselves," she declared.

* * *

THE PROGRAM, which will be repeated 9:10 p.m. Saturday, July 1, was opened with excerpts from an address by Atty. Gen. Robert F. Kennedy.

Charles LaMason, public relations director, WBAL Radio Division, said the program received widespread interest.

(Continued from page 1)

of police orders, and that 41 others have been transferred to the state penitentiary at Parchman. The first arrests were made May 24 and the others have followed at frequent intervals. More than 40 of those arrested are free on appeal bonds.

* * *

CHARLES B. Oldham, national chairman of the Congress of Racial Equality, which has sponsored most of the freedom rides, charged in St. Louis that white women in the Hinds County jail are being mistreated.

He said 14 of them are confined in a single cell, 13 by 15 feet in size, and are forced to sleep on the concrete floor because there are no beds in the cell.

* * *

CHARLES R. OLDHAM, Freedom Riders left Montgomery, Ala., on Wednesday for Jackson, Miss., after getting coffee in paper cups in the white waiting room of the Montgomery Trailways bus terminal.

The group, consisting of three white and three colored members, seated themselves at the white lunch counter. The white manager snatched the bus ticket out of the hand of each rider to see whether it was an out-of-state ticket.

He then ordered colored waitresses to serve the group coffee in paper cups. Normally coffee is served at the counter in china mugs.

The bus which brought the riders into Montgomery was met by police patrol cars about 15 miles outside of Montgomery and followed into the terminal, where there was a crowd of 400 to 500 whites who were kept at a distance by at least 60 uniformed policemen, firemen and other officials.

* * *

ON WEDNESDAY also, the breach of the peace statute under which Freedom Riders are being arrested in Mississippi was challenged at Federal District Court in Biloxi.

Attorneys William M. Kunstler of New York City and Jack Young of Jackson, argued on an American Civil Liberties Union motion in behalf of Miss Elizabeth P. Wyckoff, a white New York free lance writer.

Miss Wyckoff was arrested on June 2 with a group of other Freedom Riders at Jackson when they entered the all-white waiting room of the bus terminal.

She was sentenced to four months in jail and a $200 fine. The jail sentence was suspended. Because the fine was not paid, she was jailed to work it off at $3 per day.

The habeas corpus petition argued that the breach of the peace ordinance was being unconstitutionally applied because it denied Miss Wyckoff her liberty without the due process of law guaranteed by the Fifth and Fourteenth Amendments and freedom of speech and assembly guaranteed by the First Amendment.

It further pointed out that Miss Wickoff would have served out the 66 days required to pay off the fine before an appeal could be heard in the state courts.

—Frank Reeves

(Continued from page 1)

cently. Amid laughter, he continued his address in a serious vein, mentioning his interest in the group at whose invitation he appeared.

* * *

THE NOMINATION also scuttles reports that John B. Duncan, recorder of deeds, would be named to the position.

This is not the first time Mr. Reeves has been the center of a historic event. In May of last year, he was elected as the District's Democratic National Committeeman, thus becoming the first colored member of the National Committee from the District.

* * *

MR. REEVES first became a widely known public figure as a leading attorney in the desegregation of schools in northern Virginia.

A graduate of Shaw Junior High School and Dunbar High, Mr. Reeves holds a degree in law from the Howard University Law School and is a member of Howard's Board of Trustees.

* * *

BORN IN MONTREAL, Canada, Mr. Reeves is a long time resident of the District and has been active in District Democratic affairs since 1948.

Former minorities adviser to President Kennedy, he has been on leave from the law firm of Reeves, Robinson and Duncan since the presidential campaign.

He and his wife, the former Elizabeth Walker, live at 3034 New Hampshire Ave., NW. Their children are Deborah, 8, and Daniel, 6. Mrs. Reeves is a speech instructor at District Teachers College and also serves as a consultant in speech to Howard University.

Mr. Reeves served on the staff of the now defunct Office of Price Administration and on President Truman's Committee on Fair Employment. He entered private law practice 15 years ago.

(integration)."

Mrs. Janne said she did not know why only 51 of the reported 350 to 400 members participated in the voting.

She attributed the defeat of the applications to the 23 persons who have advocated the organization drop its color bars.

"This pressure group has agitated and aggravated other members," she declared.

* * *

MRS. DONALD B. THOMPSON, one of those spearheading a policy change, had this comment on Mrs. Janne's statement:

"It's an old line."

Mrs. Thompson said the vote was cut and dried. "It was a beautiful setup," she added.

The pack of the vote, voted for admitting Dr. Fair brought his wife along, who voted against it.

"This canceled out his

According to Mrs. Thompson, before considering the membership of Mr. Roger and Dr. Fair, the group first acted on the application of a white man, whom she described as a "poor candidate."

* * *

"WHEN THEY turned him down," she said, "this gave them a perfect alibi to reject the others."

Mrs. Thompson confirmed reports that her faction of the group is the target of segregationists ex-jurors.

"When we attend the meetings, you can cut the hostility with a knife."

Cleaning plant explosion claims second victim

The Paul Brothers cleaning pant blast of June 12 claimed another life Tuesday when Mrs. Bessie Steele, 36, 1525 Bond St., died at Lutheran Hospital of burns received in the explosion.

Mrs. Steele was admitted to the hospital two weeks ago suffering first, second and third degree burns over her entire body.

ON SATURDAY of last week, Mrs. Norma Gordon, 29, of 718 N. Mount St., died at Provident Hospital of burns received in the blast.

One other person of the seven injured, is still in the hospital. She is Mrs. Viola Gatling, 122 Perlman St., reported improved in Lutheran on Wednesday.

Four others, Mrs. Doris Stokes, 3016 Lyttleton Road; Mrs. Lena Powell, 2112 Garrison Blvd.; Mrs. Lula Grimes, 2502 W. Lanvale St.; and John W. Joyner, 101 N. Payson St., were all treated on the same day of the explosion and released from the hospital.

Northwestern District police and fireman said the explosion was caused by a basement water heater.

* * *

A NATIVE of Rocky Mount, N.C., Mrs. Steele was the daughter of the late Wilbert and Rose Emma Wallace of that city.

Mrs. Steele came to Baltimore in 1946, working first as a domestic. In 1953 she began working for the cleaning plant and was there eight years at the time of her death.

She was married to the late George Steele, Winston-Salem, N.C., who died in 1959.

Survivors include a daughter, Mrs. Anna Pearl Ford, a stepson, Jesse Mangrum; four sisters, Mrs. S. Bel Hayes, Mrs. Pauline Wesson, Mrs. Rosa Mae Vick, and Mrs. Annie Catherine Howard, all of Rocky Mount.

Other survivors include two brothers, Edward Wallace; and Lee Wallace; a stepsister, Mrs. Lila Mae Smith, and two grandchildren.

Funeral services will be held Monday at Waters AME Church at 1 p.m.

NAACP official to picket here

The chairman of the National NAACP Youth Work Committee said Wednesday that he will picket with the Baltimore Chapter Saturday at the Baltimore Gas and Electric and C and P Telephone Companies.

James Blake, 18, of Charleston, S.C., explained that picketing of public utilities that discriminate in hiring is a "national movement" of his group to break down these policies.

Mr. Blake was on his way to New York for a meeting of the national committe.

THE CHAIRMAN who is a Morehous College philosophy student said he counts two arrest to his credit as a freedom fighter.

His first arrest occurred in April of 1960 for participating in sit-ins at the Kress 5 and 10 Store in Charleston. A more recent arrest occurred just two weeks ago when he was apprehended as the leader of 13 others who tried to play in the Elizabeth Teidman Municipal Park in Charleston.

In the last arrest he was charged with trespassing on city property and interfering with an officer in the line of duty. The first charge was dismissed but he was fined $100 for the second charge.

The Charleston group plans to test all municipal parks and playgrounds that refuse to admit colored persons, he explained.

Mr. Blake said he foresees a change in the racial policies of the South because of repeated sit-ins and the work of the Kennedy administration in the field of civil rights.

Multiple housing appeal withdraws

An appeal before the Board of Municipal and Zoning Appeals to permit the housing of six families at 2324 Callow Ave. was withdrawn Tuesday.

Among the cases scheduled the coming Tuesday, beginning at 1 p.m. in Room 231, City Hall, are requests to house 16 roomers at 2206 E. Cold Spring Lane and to erect a double-face electric sign on a c'eaning establishment at 1136 W. North Ave.

Baltimore Area Homemakers Get Real Break!

FRIGIDAIRE "BEST BUYS" SALES DRIVE LAUNCHED HERE

BALTIMORE DEALERS PLEDGE ALL-OUT EFFORT TO BACK FRIGIDAIRE'S HUGE "BEST BUYS" SALES DRIVE!

Special Sales Events Due Now For Every Dealer, Every Area

The Frigidaire Division of General Motors announces a remarkable new program for the Baltimore area. Dealer sales quotas have virtually been doubled in a concentrated drive to introduce more and more Baltimore families to the convenience and quality of Frigidaire appliances.

Dealers have responded enthusiastically. They predict the program will be the most exciting and successful event in appliance sales history.

Each Frigidaire dealer has been assigned a sales quota which he must meet on Frigidaire Refrigerators, Freezers, Washers, Dryers, Ranges and Air Conditioners.

In order to meet their quota dealers will be offering these appliances at unusually low prices. Watch for the Frigidaire dealer's sales-quota-drive specials in your area.

Frigidaire appliances are your very "Best Buys" anytime, but with the special low price tags being featured during the sales drive, they're even better than ever!

Take advantage of this opportunity to put a genuine Frigidaire appliance in your kitchen, and save money at the same time!

PARTNERS IN QUALITY

At Frigidaire, "quality" is an important word. It's the essential ingredient in every Frigidaire appliance. It's your assurance that when you buy a Frigidaire appliance, you're getting the finest that can be made. "Quality" is an equally important word to the Baltimore area Frigidaire dealers pictured here. They are partners in quality with Frigidaire . . . a partnership that offers you the best appliances and appliance service that money can buy, at prices you can afford to pay.

FRIGIDAIRE WASHER'S AUTOMATIC SOAK CYCLE, BIG WASHDAY BOON

School's out, or soon will be for the entire Murray family. Mr. Clifton S. Murray is principal of P.S. No. 119 in Baltimore. Mrs. Murray teaches Kindergarten at Rutland Elementary No. 149. With her busy teaching schedule, Mrs. Murray relies heavily on her Frigidaire automatic washer and dryer to keep up with her lively "homework."

Frigidaire has designed a special automatic soak cycle for the exclusive Baby Care Washer which makes it possible to get even the most heavily soiled clothes immaculately clean.

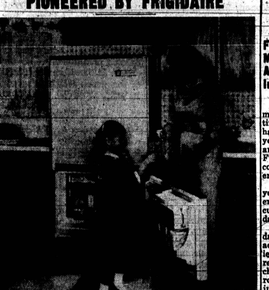
Things like baby's diapers, dad's work clothes or the children's play clothes come out bright, fresh and clean as can be.

As you know, heavily soiled clothes need to be soaked first in order to loosen up the dirt so the washing action can get all of it out. The Frigidaire automatic soak cycle is designed and timed exactly right to give you the proper amount of soaking for maximum soil removal.

When it comes to quality features that help do the job better, you can look to Frigidaire to lead the way. No short cuts, no skimping in Frigidaire appliances. Only top-quality craftsmanship and engineering will do for Frigidaire, more dependable appliances to you.

During this special Frigidaire sales drive here in Baltimore, you have a chance to own the Frigidaire—at "Best Buy" prices.

FROST-PROOF REFRIGERATOR PIONEERED BY FRIGIDAIRE



This lucky young lady is too young to know much about defrosting refrigerators. But her mother remembers what a sloppy, messy, time-consuming job it was. Now, thanks to her Frigidaire Frost-Proof Refrigerator-Freezer, the nuisance of defrosting is a thing of the past. The exclusive Frigidaire Frost-Forbidder actually stops frost before it can form in the freezer section.

Frigidaire was well aware that women just plain disliked the tedious job of defrosting a refrigerator. With all the technical skill and know-how at their command, Frigidaire tackled the problem of frost formation and licked it for all time.

In 1958 Frigidaire marketed the world's first truly Frost-Proof refrigerator. Homemakers all over the country hailed the breakthrough. This important new advance in refrigerator engineering put an end to the chipping and dripping, slipping and slopping of defrosting.

The Frigidaire Frost-Proof system does more than just eliminate defrosting. The famous Frost Forbidder, a Frigidaire exclusive, actually stops frost from forming in the food freezer section.

This remarkable Frigidaire Frost-Proof Refrigerator-Freezer was a Frigidaire first and remains a Frigidaire exclusive.

Other Frigidaire "firsts" include the Hydrator, Cold Control and the Quickube Tray.

The Meter-Miser is still another Frigidaire exclusive. It's the most efficient, dependable mechanism ever developed for producing more cooling for less current.

No one knows refrigerators like Frigidaire. There are 19 different Frigidaire Refrigerators to choose from. One of these models is sure to suit your needs and budget exactly.

Now is the time to select the Frigidaire Refrigerator de-

QUALITY AT ALL-TIME HIGH BEST VALUE FOR YOUR MONEY

Frigidaire Gives You More For Your Appliance Dollar in 1961

Frigidaire appliances offer you more today than at any other time in history. Although prices have risen sharply in recent years, prices of Frigidaire appliances have not. In fact, many Frigidaire appliances actually cost less today than they did several years ago.

For example, twenty-three years ago a 10-cubic foot refrigerator cost you more than a 15 cubic foot refrigerator costs today.

Yet look what you get in today's Frigidaire refrigerator in addition to more space. Convenience features like Frost-Proof refrigeration, spacious freezer chests, king-size Hydrators, roomy storage doors to name just a few.

Extra value is yours to enjoy in all Frigidaire appliances. You get the finest insulation; beautiful, durable porcelain enamel or Dulux enamel finishes; doors with an airtight magnetic seal; parts that are welded together into a strong lasting unit. It can be said that Frigidaire appliances run better, last longer with fewer service calls because they are skillfully engineered and expertly crafted from the finest materials.

Now, during this special Baltimore sales drive, you can own one or more of these genuine Frigidaire appliances at special money-saving prices. Don't miss out on this great opportunity.

Check your Frigidaire dealer for his particular sales-drive "Best Buy!"

OVEN-CLEANING A CHORE NO MORE

Old-fashioned oven-cleaning is probably the most intensely disliked of all household chores. And no wonder. It's sheer drudgery. Bending, stooping, twisting and turning to get at all oven surfaces is hard, dirty, tiresome work.

While Frigidaire hasn't completely eliminated oven-cleaning, they have made the job a hundred per cent easier to do. The remarkable Pull 'N Clean Oven pulls out like a drawer for the easiest cleaning possible.

When it's pulled out, you can reach in through the open top and get at every square inch—even those hard-to-get at back corners—without pain or strain.

What's more, you can see what you're doing at all times, so there won't be any "misses." It's one of the greatest appliance advances in years.

Now's the time to get your Frigidaire Range with the exclusive Pull 'N Clean Oven. It's being featured at your Frigidaire dealer during the spectacular Baltimore sales drive, at money-saving "Best Buy" price.

FRIGIDAIRE WASHER RATED NO. 1 IN TEST

The United States Testing Co., Inc. rates the Frigidaire Washer No. 1 for all-round performance.

The official report No. 74446 dated December 8, 1960, found the 1961 Frigidaire Washer to be the best of 6 leading brands of automatic washers tested.

Scientifically controlled laboratory tests proved that considering soil removal, lint removal, dryness of spin, automatic care of wash and wear fabrics, simplicity of use, flexibility, washing time, and amount of water and current used, for overall performance the Frigidaire Automatic Washer was best.

Frigidaire washers are designed differently in order to give you top washday results. The exclusive, patented 3-ring Pump Agitator bathes even deep dirt out without beating, gets your clothes clean, gently, without blades.

During the special Frigidaire Baltimore sales drive, you'll find it easier than ever to own a true Frigidaire quality automatic washer . . . at "Best Buy" price.

HOW TO FIND A REAL BARGAIN IN APPLIANCES by Sylvia Buffington

Baltimore women are good shoppers. You know real value and aren't taken in simply by low price tags.

That's one reason you're sure to be pleased with this big Frigidaire sales drive. It combines quality with low prices.

As a guide to value, here are a few tips on what to look for in a new appliance.

1. Be sure it has the latest styling. When you buy an appliance its yours to live with for years to come. It's on display in your kitchen for your friends and guests to see. The style trend today and for the future is the trimly squared-off style. Avoid dating your kitchen with the "round-shouldered" look.

2. Be sure you get the latest in time- and work-saving convenience features. For example, be sure to check the Frigidaire Frost - Proof: Refrigerator - Freezer. Thanks to the exclusive Frost Forbidder, it never, never NEVER needs defrosting.

3. Be sure the appliance you buy is big enough to serve your needs for years to come, especially if you have growing family. The initial investment might seem high at first, but when you spread the extra cost over many years of use, you'll find it costs only pennies a day.

4. Make sure your refrigerator has built-in quality. Check the shelves. Are they sturdy? Or do they wobble or sag? Are they finished off? Is the vegetable compartment plastic or finished with more durable porcelain enamel?

Do the doors shut solidly?

And remember, a good salesman will be happy to demonstrate to you the "hidden" quality features of any appliance. So don't hesitate to ask him.

5. The price of an appliance includes many things besides the product itself. Among these are delivery, normal installation, product service within the warranty, credit privileges, etc. Its important, therefore, to check all these elements with your dealer before you buy.

We're proud of our Frigidaire dealers. They have been carefully selected to give you the very best service possible.

These are just a few things to keep in mind when you go appliance shopping. Perhaps the most useful tip of all is to see your Frigidaire dealer now while the Baltimore sales drive is on. You'll get real value and quality —famous Frigidaire Value and Quality—at "Best Buy" price.

Why Shoppers Look For "That Frigidaire Touch!"

Buying a major appliance for your home is an important purchase. It's a family investment which must be made carefully and thoughtfully. That's why people shop around before deciding. They compare brands and weigh the differences in cost, features, appearance and the like. They want to be certain that the appliance they buy will give them good service over a long period of time.

For these reasons people have come to look for "That Frigidaire Touch" when they buy refrigerators, freezers, kitchen ranges, washers, dryers and air conditioners. They know if the appliance they buy has "That Frigidaire Touch," they are getting something a little big "extra" for their appliance dollar. Extra convenience features, better styling; more skillful craftsmanship and engineering . . . all add up to "That Frigidaire Touch." You'll find and appreciate it in every Frigidaire appliance.

To make sure you get the full benefit of "That Frigidaire Touch," make sure the appliance you buy bears the familiar and genuine Frigidaire symbol.

Mrs. Melvina Jackson, who works with the Maryland Children's Center, was completely captivated with the beauty of Flair by Frigidaire. She was especially interested to learn that although Flair has all the good looks of a built-in range, it can be installed in just a matter of minutes without the need for any costly remodeling.

Lennie Moore Beats The Heat

Lennie Moore, right half back with the Baltimore Colts, gives a few football pointers to his four-year-old son, Leslie. When Leslie grows up he wants to follow in dad's footsteps and become a gridiron star here too.

Frigidaire Room Air Conditioners are especially popular in Baltimore.

Young-thinking families with modern viewpoint on comfort and convenience want compact units with fast cool-down and big cooling power. They especially want easy, "do-it-yourself" installation. They also insist on good looks, quiet operation and a minimum of simple control dials.

You get all of these benefits in this fine new line of Frigidaire Room Air Conditioners.

To simplify selection, Frigidaire offers three groups: "bedroom," "living room," and "multi-room" models. Just decide what part of the house you want air conditioned, then select from within that group.

Frigidaire Room Air Conditioners are designed for easy installation in standard double-hung windows. Also, for thru-the-wall, and most jalousie type windows.

In addition to offering you the most advanced features, Frigidaire Room Air Conditioners offer you the ultimate in beauty. They are finished in a lovely Silver Sand Beige, that blends beautifully with any interior color scheme.

The time to get your Frigidaire Room Air Conditioner is now. The Baltimore sales drive is on. You'll never get better values.
