No. 5.
INTERESTING.
THE lamentable state in which the physical art stands at this day with respect to the Venereal Disease, cannot be better described than it is in Dr Bell's preface to his treatise. He says, that "although much information may be obtained from *two works* just published on this complaint as well as *some other* recent ones, there is STILL much left for others to elucidate." He goes on and says, "such is the effect of his EXPERIENCE and OBSERVATION, that *further advantages* are *daily accruing* from the labours of individuals *in this disease*, as well as almost every other." Here then is a confession from a candid, worthy, and respectable surgeon, founded on "experience and observation," that "further advantages are daily accruing from the labours of individuals;"—if so, who can claim so great a portion of praise as Dr Solomon, whose labours have been indefatigable, and who has at a great expence brought the Anti Impetigenes to perfection, and into universal use and request? In venereal cases it has not its equal for certainty, safety, and efficacy—*mercury* may perhaps be opposed against it, but the *Anti-Impetigenes* enters the lists willingly, for upon the wreck of this destructive mineral its fabric is erected, strong, firm and lasting! Men of character, liberality and education, possessing public confidence as clergymen of unsullied reputation, have recommended numerous objects of those cruel diseases, the *Scrofula, King's Evil, Scurvy*, &c. to Dr. Solomon, to whom this wonderful remedy was applied with the most unbounded success, and those who were reduced to the very jaws of death by mercury and the *Venereal Disease*, have been snatched from destruction and restored to their relations and friends with renovated health and vigor, and those bones which were almost starting through the skin, are recovered with flesh, firm and healthful! Such are the virtues of the Anti-Impetigenes, and such are its wondrous effects upon the human body! the antidote to mercury, and the purifier of the blood and lymph.
Pamphlets on its efficacy containig a great number of surprising and well attested cures, delivered gratis.
☞ The above valuable medicine is sold genuine by Messrs. WARNER & HANNA, at 3 dollars per bottle, with ample directions for its use.

MONEY.
A PERSON just immediately engaged in business, and having a few hundred dollars by him, would be glad to employ them in any manner where he could find his interest concerned—he would have no objection to join some one in a speculation in a small shipment to the West Indies, and from having some knowledge of those parts, and correspondence there, could probably point out a market, and articles, where some advantage might be made. The intent of the advertiser is merely to employ a small sum where he can derive a benefit from it. Any one inclined to apply to this seriously, will address a line for W. W. to be left at this office, with name and abode which will be attended to and an interview appointed.
