that the discovery of its advantages, if any it possess should result from their own penetration, discriminations will not be attempted. Appropriated at Sag Harbor, a village which in a slow progression has yet some distance to advance before it meets its probable point of elevation, the exhibited premises will embrace although not perhaps an extensive yet a certain increase of valuation."—*Bee.*

From the BALANCE.

NO serious and attentive reader can look on a page of YOUNG'S "*Night Thoughts,*" without finding a striking and excellent moral lesson. The following lines have been read and quoted until they are familiar to almost every person; still they may be again quoted and again read, and they will still be found to furnish new food for reflection:

"*The bell strikes* One. *We take no note of time*
"*But from its loss. To give it then a tongue*
"*Is wise in man. As if an angel spoke,*
"*I feel the solemn sound. If heard aright,*
"*It is the* Knell *of my departed hours.*
"*Where are they? with the years beyond the flood.*
"*It is the signal that demands dispatch.*"

A clock, morally considered, is, perhaps, one of the most useful monitors that the genius of man can furnish. Look at it—you behold the progress of time. Hear it strike—you are told another hour is gone. What is the age of man? At best but a few years. Years are composed of days—days of hours—hours of minutes—minutes of seconds. Man's life is made up of seconds—a single second is all that separates him from eternity! Look at yonder clock! How fast these seconds succeed each other! How rapidly they come and go! Yet every one that passes shortens life. Therefore, man, be diligent.

VENERIAL COMPLAINTS.

AS Dr. WARNER's practice has been very extensive both in public (and private, daily experience convinces him of the propriety of his method of removing the venereal disease, in preference to any medicine vended or known in Baltimore. He has removed the most desperate cases with care and dispatch, after the failure of some of the ablest physicians both in Europe and America. Complaints of the urinary passages and debility thereof, from various causes and accidents, removed in the shortest possible space of time.

—As there are persons from various causes cannot personally apply, it may be necessary to inform them, they may be releived from a description of their complaint.

Dr. W. warrants a cure in all cases. Masters of vessels and travellers may have their medicines so prepared that a safe, effectual and expeditious cure may be effected, without the east restriction in drink or diet.

N. B. Dr. Warner has removed from Cumberland Row to Conway street, next door to the corner of Howard street, opposite the Rev. Mr. Otterbein's, near the Dutch church.
