NEW LINE,

PHILADELPHIA AND BALTIMORE PACKETS for the accommodation of passengers and transportation of goods, by the way of the old Court House Point, on Elk River, New Castle, on the Delaware.
The public are respectfully informed, that on SUNDAY NEXT, the 14th instant, a new, convenient, and expeditious line of Packets and Stages, will commence running between the cities of Baltimore and Philadelphia, where passengers will be accommodated in a very superior stile.
A Packet, with elegant accommodations will leave Bowly's wharf, Baltimore, at nine o'clock every day in the week, Saturday excepted, and with a favourable wind, will arrive at the Court House Point in five hours, at any rate in the course of the same day—where good stages, with careful and experienced drivers, are provided for the conveyance of passengers to New Castle. A packet will leave New Castle, for Philadelphia, immediately after the arrival of the passengers, which, with a favorable wind, will arrive in three hours and a half:—And it is *positively* conditioned, that no unnecessary delay shall take place, to prevent expediting the trip.
A Packet will leave Paul Beck's wharf, the next below Market-street wharf in Philadelphia, for New Castle, every day in the week, Saturday excepted, and on the arrival of passengers at New Castle, they will be immediately sent on to the Court House Point, where a Packet will always be ready to receive and convey them to Baltimore. The subscribers have erected good and substantial wharfs and warehouses at the Court House Point and New Castle, for the reception of goods, and have appointed competent persons to receive and forward them as soon as possible; and they have established public Houses at the same places, where passengers can be accommodated with Fish, Crabs, and Wild Fowl, when in season, and every other delicacy which a rich, fertile, and highly cultivated country will afford—and need be under no apprehensions of detention from low tides in either the Delaware or Chesapeake Bay—the landing on Elk River is 7 to 8 miles below French-town, and the navigation to the wharf sufficiently good for ships of 300 tons; in New Castle they possess the same advantages, having 16 feet water directly along side the wharf.
The importance of thus *shortening* the distance on the *Elk* River must be obvious to every traveller.
The subscribers think it almost unnecessary to make any comments on the advantages of this line, over every other yet established—they flatter themselves that their packets will be found superior in point of accommodations and sailing, to any others in the United States: The four packets in the Chesapeake Bay, are commanded by the four old captains, that formerly sailed the French-town Packets, viz. Trippe, Taylor, Ferguson and Owens, who are all interested; and those in the Delaware, are commanded by careful and experienced men. The Road from the Court House Point to New Castle, is through a beautiful level country, and can be travelled at all seasons of the year in 4 hours or less. Passengers travelling by this route can frequently be landed in either Philadelphia or Baltimore, on the night of the same day, that they leave either place.
It may not be amiss to inform those unacquainted with this route, that a packet left Philadelphia on Sunday last, and arrived at New Castle in three hours and twenty minutes; the passengers were conveyed from thence to the Court House Point in four hours, and had they been disposed to come on to Baltimore, they could easily have arrived, there in five hours—making the passage through in twelve hours and twenty minutes. It is not to be expected that impossibilities can be performed; such passages can only be made when the wind is favourable—They have also provided waggons for the conveyance of goods to and from New Castle, and the Court House Point, and can always deliver them either in Philadelphia or Baltimore, as soon as any other line of packets. The subscribers do not wish to undertake any other establishment of this kind, but they only wish to do justice to their own—and by their assiduity and attention to merit a share of the public patronage. For freight or passage apply to the captains on board, or to
