Charleston, Dec. 19.

Captain Campbell, of the schooner Mary, from Monte Video, left that place on the 23d October. He informs us, that the city of Buenos Ayres was taken by the British under General Beresford. It has been retaken by the Spaniards after a long but ineffectual resistance, in which a considerable part of the British troops were killed, and that the rest had surrendered as prisoners of war. This took place about the middle of August. Sir Home Popham still remained with his squadron in the River La Plata. In his correspondence with the Governor of Montevideo, he had signified his intention of keeping the place at the rigorous blockade. In his last letter, he allowed a certain vessels seven days to leave the port, allowing them to sail either in ballast or with that part of their cargoes which they had brought into that port; at the expiration of which time, all vessels attempting to enter, or leave that port would be captured.

Three queens were in the vicinity of the field of carnage during the battle of Jena, viz. the empress, queen Josephine, of France; queen Louisa Augusta Wilhelmina Amelia, of Prussia; and queen Hortense Eugenia, of Holland. The queen of Prussia is of the same family of Charlotte, of G. Britain. The French empress is in her 46th year; the Prussian queen in her 31st; and the queen of Holland in her 24th year. *Lond.
