Park proposed on old Provident site

The purchase of the present Provident Hospital site for a park or recreation center will be recommended to the City Council Monday. The suggestion will be made in the form of a resolution offered by Councilman Maurice J. Sopher (4th D.).

Mr. Sopher's resolution asks that the Baltimore Urban Renewal and Housing Agency the Department of Recreation and Parks acquire this property for such redevelopment, when it is vacated by the hospital.

A site for the new Provident has been selected on a plot of 20 acres on Liberty Heights Ave., between Ocala Ave. and the Ashburton Filtration Basins.

Mr. Sopher's resolution points out that the present old building is the 1500 block Division St. is far unsuited for any other usage.

* * *

ALSO TO allow it to remain for a time boarded up when vacated would be hazardous to the area as well as an eyesore, and just to demolish the building would serve no particular purpose.

"This is a densely populated area," Mr. Sopher stated. "In view of the fact that this site is in the Mt. Royal-Fremont Urban Renewal Area, the erection of a park or a recreation center there would be an excellent service to the residents of the area."

Two ordinances to facilitate the erection of a new 300-bed Provident on the Liberty Heights site were placed before the City Council the past Monday.

Matching city and state funds of $240,000 each have already been authorized to aid in its construction.

A citizens committee is currently soliciting the additional funds which will be required.

Firm hired to solve transportation problem

Metropolitan Transit Authority officials announced Thursday they had employed a New York firm of engineers to study, develop and design an adequate and balanced transportation system for this area.

This is to be done in these two phases:

1. A short-term study to disclose and measure the area's immediate needs for the most efficient use of what is presently available, including the conversion of the Nos. 8 and No. 15 street car lines to buses.

2. A longer study to formulate a program for long-range improvements to public mass transportation for the next 15 to 20 years, with full consideration given to the needs of Baltimore, Anne Arundel, Howard, Carroll and Harford Counties, as well as the city.

The New York firm named to develop this program is that of Parsons, Brinckerhoff, Quade and Douglas, engineers.

TRANSIT AUTHORITY officials issued this statement Thursday:

"We anticipate no difficulty in obtaining the approval of the Housing and Home Finance Agency for our project, which means that two-thirds of the cost will be borne by Federal funds and one-third by local funds.

"Our Authority believes, enthusiastically, that we have taken a proper, necessary and progressive step toward solving the problems of the present and to anticipate the needs of the future.

"We feel confident that we will have the complete support of our public officials and the residents of the entire state, all of whom will benefit by the success of our undertaking."

Taxpayers criticize city's CD program

The Civil Defense Organization, the Civic Center Commission and the city councilmen themselves were soundly criticized by citizens Tuesday afternoon at a hearing before the City Council.

The occasion was the traditional Taxpayers Day — a day set aside for citizens to air their views before the Council on proposed items in the city's new budget.

The civil defense program bore the brunt of the criticism. Budget recommendations list a total of $297,000 for this agency, with the city's share amounting to $179,300, which is $37,400 more than allotted by for the current year.

Mrs. Caroline Ramsay, unsuccessful Republican Candidate for Congress in the Seventh District, said flatly:

"I believe the program is a hoax."

Arguing against the concept of the fallout shelter program, she stated:

"The effect on children is disastrous. We've raising a generation that has the concept of a garrison state. Lets stand above ground in the sunshine and fight for what we believe."

HOWARD H. MURPHY, representing the Baltimore chapter of the Committee for a Sane Nuclear Policy, was another highly critical of the civil defense program.

"The proponents of bomb shelters suggest we find peace of mind in bleak holes in the ground, where we would cringe in a state of fear and futility," Mr. Murphy stated.

"In any large metropolitan area a nuclear attack would turn these primordial caves into nothing but mass burial vaults. The only shelter against a nuclear war is a workable peace."

He said later:

"I'm not saying there might not be a possibility some people would be saved by shelters. In outlying areas, far from main targets shelters might afford some safety. But in large urban areas this would hardly be possible.

"Our own Gen. (Richard D. Prather (CD director) admits his inability to know what he would do in case of an attack.

"I would, therefore, agree that before any money is appropriated for this year's civil defense budget, that the whole matter of civil defense be reviewed."

MR. MURPHY pointed out that some 500,000 worth of medical supplies, cooking equipment, cots and communication equipment are still stored in warehouses at Prettyboy and Liberty reservoirs.

Hyman A. Pressman, militant civic-minded attorney, criticized the councilmen for continuing to allow funds for completion of the Civic Center, rather than place such uncompleted work up for competitive bidding, as the City Charter requires.

Mr. Pressman also charged the councilmen with a "brazen salary grab," by approving an ordinance increasing pay for councilmen and the Board of Estimates members.

Authors among the more than 50 citizens present voiced protests against the proposed new property tax rate, which is expected to add anywhere from four to eight cents to the present $3.91 per $100 assessment.

The Council began closed sessions on the budget Wednesday.

Rooftop chase nabs suspect

Responding to a burglar alarm at Robinson's Drug Store, 2100 block of Pennsylvania Ave., early Saturday morning, three policemen captured and held a suspect for investigation of attempted burglary.

The man was found on a roof in the 2100 block of Pennsylvania Ave. At least one man escaped.

The policemen fired three warning shots as they chased the men over the roof tops.

Police reported that the would-be burglars used a 20-foot ladder to enter the second floor and they forced open the first floor door leading to Robinson's Drug Store.

Opening the door tripped the alarm; said the police.

The police discovered a crowbar, 67 cartons of cigarettes and $1.23 in coins near the door.

OUR MOTHER

What is home without a mother?
All things this world may send.
But when we lost our darling mother,
We lost our dearest friend.
The rolling stream of life rolls on,
But still the vacant chair
Recalls the love, the voice, the smile
Of our mother who once sat there.
