ALFALFA
The Profitable Hay Crop

Yields Four to Six Cuttings a Year of Easily Cured and Most Nutritious Hay Wonderful Increases in Yield Each Successive Year.

ALFALFA "GOLD" BRAND

"Its long, branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense magazine of fertility. As soon as cut, they begin to decay and liberate the vast reservoir of fertilizing matter below the plow, to be drawn upon by other crops for years to come."

Alfalfa seed sown during August or September will yield from four to six cuttings next season. Frequent cuttings thicken out the stock and make it stool out and grow off better.

Alfalfa ranks higher than Timothy in feeding value. In fact, it might be termed the clover and hay, as it is almost a complete food. I have experimented at times place the feeding value of Alfalfa hay at $20 per ton, as against Timothy hay at $12 per ton. This is the fact that Alfalfa will easily yield, on good land, 6 to 10 tons of splendid hay per year, shows what a valuable crop it is. Labels in the Western States place it well out in Alfalfa seed readily at from $100 to $300 per acre. The acreage of Alfalfa is increasing very largely all over the Middle and Southern States, our farmers are at last beginning to realize what a valuable crop it is. Alfalfa will succeed on any well drained good land, well enriched with lime and must be well and thoroughly prepared for best results.

It should never be used for pasture, it is too valuable as a hay producer to risk any from stock. A heavy application of lime is of decided benefit. Seed to from one half peck to a bushel per acre. Alfalfa is usually sown at the rate of 20 to 30 pounds to the acre. Our Alfalfa seed is the highest in strong germinating seed of the best and cleanest quality possible to procure.

We offer American Dry Land Non-Irrigated Alfalfa Seed, Belgiano's "Gold" and Fancy, 99.38 per cent. pure.

If you want the best field seeds of any kind, always insist on getting Belgiano's "Gold" Brand. EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night, if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair, last a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur at home, though, is troublesome. A easier way is to get the ready to use preparation, costing about 50 cents a large bottle, called Wyeth's Sage and Sulphur Hair Remedy. It is a mixture of sage and sulphur.

While this preparation darkens faded hair in a natural way, it does not make it sticky or sticky, it does not rub off, it does not leave a dandruff, it does not stain the skin, it does not rub off, it does not leave a sticky residue. It is not a dye. It is a natural hair tonic, and a beautifier, giving the hair a beautiful, dark, glossy, soft and luxuriant appearance. Wyeth's Sage and Sulphur Hair Remedy can be had at any drug store. It is not a dye. It is a natural hair tonic, and a beautifier, giving the hair a beautiful, dark, glossy, soft and luxuriant appearance. By darkening your hair with Wyeth's Sage and Sulphur nobody can tell, because it does it so naturally and evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.
