A PRAYER FOR PEACE.

(TO-MORROW IS PEACE DAY)

"O God, who hast made of one blood all nations of men to dwell on all the face of the earth, and who in thy Holy Word hast taught us that One is our Father, even God, and that all we are brethern. We pray thee in this dark hour of international strife that thou wilt open the eyes of the people and those who in thy Name are intrusted with the authority of government, to see and understand their right and true relation to thee and through thee to one another. Teach them by thy spirit that hatred and violence are not strength but weakness, that the true safeguarding of a nation is not to be found in weapons of war, but in those eternal principles which make for righteousness and truth and brotherhood and peace. Give to those who shall suffer in the war which is raging now the consolations of thy grace. Heal the sick, comfort the wounded, minister to the dying, and bind up the broken heart. Bring, we pray thee, to a speedy end this international strife, and hasten the time when peace shall flourish out of the earth, and all shall dwell together in unity and love, and war shall be no more. We ask it in the Name of Our Saviour, Jesus Christ. Amen."

Postmaster Burleson has recommended the supplanting of horses on rural routes by automobiles. Along with the recommendation goes a suggestion for an increase in the length of standard routes to 50 miles. The present length is 24 miles. The House Committee on Postoffices and Post roads incorporated these recommendations in a bill which it reported to the House proposing to pay rural carriers with automobile routes of 50 miles in length $1,800 per year for their services. The present pay is $1,200 with no allowance for horse hire or equipment. The additional $600 is put in the new bill for the purchase and maintenance of automobiles of the cheaper grade. Another recommendation is to put these routes outside of the civil service as star route carriers are now set.

It was feared that the oystermen might make some outward demonstration against the work of repairing the damage, but the workmen were not molested.
