Robinson fights Carver indifference

Carver coach Charlie Robinson is convinced he has an unseen rival to oversome as he prepares his football Cubs for today's (Friday) game with Southern High School.

Currently just a half-game out of a tie for the Marland Scholastic Association's B Division lead, the Carver eleven could blow it all if play is not up to par against the Bulldogs.

League - leading Edmondson is on top with a 5 - 0 record but is idle today as the Cubs, 4 - 0 to date, tangle with unpredictable Southern.

"I'M FACED with the problem of preventing a let-down," Robinson told the AFRO on the eve of his Bulldog clash. "The boys know that Southern lost to Mervo, a team we beat rather handily, and they saw where Curley, whom we whipped, 30-0, held Southern to a 0 - 0 tie.

"These facts, plus the tendency to look past an opponent they consider a soft touch to next week's game with Edmondson, are the things that have me worried. I've spent the whole week fighting a feeling of complacency that could be tragic to us."

The Cubs are fresh off a come - from - behind, 24 - 20 win over McDonogh, the 1962 champion, and may be inclined to think the job is done until they reach Edmondson. Robinson observed.

* * *

"BUT I know what an inand-outer can do to you on a good day.

"Southern didn't look like much against Forest Park and Archbishop Curley. But they were a lot better against Mervo, McDonogh and Edmondson than the scores indicate.

"In fact," the Carver mentor pointed out, "they were leading Edmondson, 8 - 6, in the third quarter and it wasn't until a couple of mistakes caught up with them in the fourth period that the game got out of hand."

MOST VALUABLE — Elston Howard, New York Yankee catcher, was voted the Most Valuable Player in the American League by the Baseball Writers Association Thursday. Howard, first player of his race to play for the Yankees also became the first colored athlete to win the coveted award in the Junior Circuit.

To Lighten Dark, Dull Skin

...a New Cosmetic Substance Has Been Found!

To lighten dark skin pigment itself required a new discovery—a new cosmetic substance. Now available in Palidia.

This greaseless, vanishing cream penetrates the skin. Here it reduces production of dark pigment by about half . . . while excess pigment naturally present is steadily carried away.

"Significant Lightening"

Now dark skin can be lightened! For dark skin is bound to lighten when dark pigment formation is reduced. On face or neck . . . hand spots or elbows. Or merely dull, muddy complexion. For Palidia really works.

Palidia acts with nature . . . gradually but steadily. Look for lighter skin in 4 to 8 weeks. And as skin lightens, it seems to bloom with a fresher, clearer look.

Palidia was found by West German scientists and clinically tested by American doctors. "Significant lightening" are the words they use in their reports. And now Palidia is produced in America by a trustworthy 43-year-old laboratory.

PALIDIA
BY MITCHUM
A lovely greaseless vanishing cream—used as makeup base and at bedtime.
$3.00 plus tax
