Sir:-

Your note rec<sup>d</sup>. I enclose you the only c. & d. of this land on record since 1835. It purports to give them in several tracts. I also enclose you some mem. of Mr Young, who has recently surveyed & leveled for these people. The point they desire to know is how high the crest of the dam can be raised above its present level without backing water on their neighbors; This is the only question between them. Please return enclosed paper when you finish with it. Respy S A Willcox
