COLE 8

Performance —and Economy

No other Eight yet produced has been able to approach the Cole in economy.

In actual miles per gallon of gas and oil—or in point of tire mileage the Cole Eight leads.

And no other car—*of any kind*—excels the Cole Eight in power, smoothness and consistent dependability.

It's a demon for work.

Let us show you by a demonstration just what the Cole Eight can do—how economical and easy it is to drive.

'Phone us today. We are always at your service.

WANTS BOYS TAKEN INTO RURAL HOMES TO ASSIST TILLAGE

ASKS FARMERS TO HELP CITIES

Crop Improvement Committee Makes Good Suggestions For Bigger Yields This Year.

Believing that reciprocal relations between residents of the cities and country will result in great improvement and enlargement of crops, through a plan of working boys from the cities, the crop improvement committee of the Baltimore Chamber of Commerce has sent out a letter to former branch members.

This letter contains the suggestion that boys be taken on the farms and given a taste of country life. Of course, farmers are not to expect that these striplings from the cities will be able tod a a man's work and it is hoped that any farmer so selfish as to believe this will not come forward, for such a man will do more harm than good.

As there is certain to be a big shortage this year of farm labor, it is believed the suggestions made will prove profitable to all, the necessity for big crops in America being the more apparent now that the country has entered the war against Germany. The letter sent out reads:

Fellow Marylanders and Others:

You all took an interest in the Home State Tour of the country boys last year and many of you recognized the efforts on the part of the city people to get in closer touch with the farmers of this State through interest in the Boys' and Girls' Clubs and Crop Improvement Work.

Just now, when this country is awakening to the call of preparedness and attention is being called by the government, both National and State, to the food supply of the Nation, we are glad to see the press and other agencies calling attention to back yard and thrift gardens and the raising of vegetables.

The note of warning regarding resources of Maryland as given by our good friend, Dr. Patterson, of the State Agricultural College, in the Baltimore Sun of March 31, calls attention to the lack of farm labor, and the necessity of more intensive farming rather than increased acreage at this time.

In view of withdrawal of young men into different departments of service under present emergency it behooves the farmers to use applied science in shape of Agricultural Machinery, which will overcome the labor proposition on the larger acreage.

The question of first cost of machinery to the farmer is a different proposition now, than heretofore, and same applies equally to Pennsylvania, Delaware, Virginia and West Virginia, for the farmers have the Federal Land Bank of Baltimore, located in the Fidelity Building on North Charles St., where they can borrow money for that purpose, provided they form themselves into local Associations, and we think with this advantage, some motor machinery for a community should be secured, and the work of plowing and seeding become co-operative in many sections and thus overcome scarcity of labor. The ground plowed and seed sown or planted by neighbors working together and systematically, and the same method during the season, and at harvest time.

When it comes to truck farming, gardening, and light work, which is necessary on a farm, we have suggestion to make.

Will not your old committee get together and canvass the farmers in your vicinity and find out if they will not take one or two city boys into their homes to assist in the light work, gardening, and making themselves useful this summer?

We think there are hundreds of boys in the city, who, if they had a chance to breathe good country air, eat good country fare, see the development of plant, animal and bird life, would look upon the work as a pleasure and not drudgery, and the hosts would feel they were helping to make men for the future, who might be drawn to the farm by their first taste of country life.

If you have Boys' Clubs in the section they should be glad to take an interest in the city greenhorns, and save them from home or city sickness.

"Many mickles make a muckle," so if this was done throughout the State, we think great advantage would accrue to entertainer as well as entertained, and increased results obtained.

Please discuss this with your neighbors and write result to Frank R. Kent, The Baltimore Sun, or the undersigned, with suggestions as to possibility of working out this project. A committee would be formed here to enlist the boys and attend their distribution.

We all have to do our "bit" just now and this might be a help to many, and an object lesson to the country at large.

Respectfully submitted,
J. COLLIN VINCENT,
T. MURRAY MAYNADER,
J. BARRY MAHOOL,
Crop Improvement Committee.

SOME MEN EXEMPT.

Plans are being drawn up at the War Department for exempting certain classes of men from active military service.

In addition to exempting, on the first call, married men and men with others directly dependent upon them, provision will also be made for exempting skilled workers in many industries.

Among the workmen so exempted probably will be skilled farmers.

Spring Colds Are the Worst

They lead to catarrh and pneumonia. They weaken the entire system and leave it unable to resist the sudden changes. They interfere with your digestion and lessen your activity. Neglected they soon become that dread disease known as systemic catarrh. Don't neglect them. It's costly as well as dangerous.

PERUNA Will Safeguard You

Have a box of Peruna Tablets with you for the sudden cold or exposure. Tone your system up with a regular course of the liquid Peruna, fortify it against colds, get your digestion up to normal, take care of yourself, and avoid danger. If you are suffering now begin the treatment at once. Give Nature the help she needs to throw off the catarrhal inflammation, and again become well.

Peruna has been helping people for 44 years. Thousands of homes rely on it for coughs, cold and indigestion. It's a good tonic for the weak, as well.

The Peruna Company,
Columbus, Ohio

Please Put It Back

You wouldn't intentionally leave the receiver off the hook at the end of a telephone conversation, but, intentionally or accidentally, it happens frequently.

This not only cuts your telephone completely off from the rest of the world, but, if you are on a party line, it cuts off every telephone on the line. The operator cannot ring on the line while the receiver is off the hook, neither can anybody on the line reach the operator, no matter how urgent the necessity may be.

8 *Automobile buyers are coming to appreciate the fact that there is vastly more actual service and actual automobile value to be obtained in a rebuilt high-grade car than in any new car which could be purchased at the same price.*

On the floor of our new used-car display room is the largest assortment of fine used-cars in the south. All of these cars are reliable and have been carefully inspected before being offered for sale.

We have used cars from $200 up and renewed cars which have been entirely rebuilt and repainted, from $600 up.

Write us a post card today and let us know about how much money you want to spend, we will then send you either our Used-Car Bulletin or our booklet on Renewed Cars. Mail the post card today.

To Merchants and Undertakers: We have many special high-grade chassis which could be built into delivery wagons, light trucks, etc., and will give better service than any new truck which you could buy at the same price. Prices $900 up.
