THE SUN FOR 1880.

THE SUN will deal with the events of the year 1880 in its own fashion, now pretty well understood by everybody. From January 1, until December 31 it will be conducted as a newspaper, written in the English language, and printed for the people.

As a newspaper, THE SUN believes in getting all the news of the world promptly, and presenting it in the most intelligible shape—the shape that will enable its readers to keep well abreast of the age with the least unproductive expenditure of time. The greatest interest to the greatest number—that is, the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read THE SUN; and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

In its comments on men and affairs, THE SUN believes that the only guide of policy should be common sense, inspired by genuine American principles and backed by honesty of purpose. For this reason it is, and will continue to be, absolutely independent of party, class, clique, organization, or interest. It is for all, but of none. It will continue to praise what is good and reprobate what is evil, taking care that its language is to the point and plain, beyond the possibility of being misunderstood. It is uninfluenced by motives that do not appear on the surface; it has no opinions to sell, save those which may be had by any purchaser with two cents. It hates injustice and rascality even more than it hates unnecessary words. It abhors frauds, pities fools, and deplores nincompoops of every species. It will continue throughout the year 1880 to chastise the first class, instruct the second, and discountenance the third. All honest men, with honest convictions, whether sound or mistaken, are its friends. And THE SUN makes no bones of telling the truth to its friends and about its friends whenever occasion arises from plain speaking.

These are the principles upon which THE SUN will be conducted during the year to come.

The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vigilance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the utterances of the press, the exciting contests of the Republican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election, to be held in November. Four years ago next November the will of the nation, as expressed at the polls, was thwarted by an abominable conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880? The past decade of years opened with a corrupt, extravagant, and insolent Administration intrenched at Washington. THE SUN did something toward dislodging the gang and breaking its power. The same men are now intriguing to restore their leader and themselves to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. THE SUN will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to expediency and right.

Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfast purpose to maintain the rights of the people and the principles of the Constitution against all aggressors, THE SUN is prepared to write a truthful, instructive, and at same time entertaining history of 1880.

Our rates of subscription remain unchanged. For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post-paid, is 55 cents a month, or $6 50 a year; or, including the Sunday paper, an eight page sheet of fifty-six columns, the price is 65 cents a month, or $7 70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separate at $1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

Hall's Vegetable Sicilian Hair Renewer

Is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

The World for 1880.

Democrats everywhere should inform themselves carefully alike of the action of their party throughout the country and of the movements of their Republican opponents. A failure to do this in 1876 contributed greatly to the loss by the Democracy of the fruits of the victory fairly won at the polls.

The year 1880 promises to be one of the most interesting and important years of this crowded and eventful century. It will witness a Presidential election which may result in reestablishing the Government of this country on the principles of its constitutional founders, or in permanently changing the relations of the States to the Federal power. No intelligent man can regard such an election with indifference. **The World**, as the only daily English newspaper published in the city of New York which upholds the doctrines of Constitutional Democracy, will steadily represent the Democratic party in this great canvass. It will do this in no spirit of servile partisanship, but temperately and firmly. As a newspaper **The World**, being the organ of no man, no clique and no interest, will present the fullest and the fairest picture it can make of each day's passing history in the city, the State, the country and the world. It will also hereafter, as heretofore, at accuracy first of all things in all that it publishes. No man, however humble, shall ever be permitted truly to complain that he has been unjustly dealt with in the columns of **The World**. No interest, however powerful, shall ever be permitted truly to boast that it can silence the fair criticism of **The World**.

During the past year **The World** has seen its daily circulation trebled and its weekly circulation pushed far beyond that of any other weekly newspaper in the country. This great increase has been won, as **The World** believes, by truthfulness, enterprise, ceaseless activity in collecting news and unfaltering loyalty to itself and to its readers in dealing with the questions of the day. It is our hope and it will be our endeavor that **The World's** record for 1880 may be written in the approbation and the support of many thousands more of new readers in all parts of this indissoluble Union of indestructible States.

Chronic Ailments.

The proper treatment of chronic cases of disease requires a thorough knowledge of physiology and pathology. Such knowledge is not attained by study alone but by years of experience. We have in this city a physician who has, during the last four or five years made many remarkable cures, and those treated say that for all forms of chronic disease no doctor in Baltimore is more competent and uniformly successful than Dr. UNDERWOOD, of No. 166 West Fayette street. He cures cancers without the use of the knife, and removes tumors by electriolysis. His electrical instruments are of the latest improvement, in fact one he has had manufactured with some improvements according to his own device. The doctor is a physician and a gentleman, and any one calling on him can depend on his judgment and skill.—*From Saturday Standard.*
