Added to the rural beauties, the shades and limpid springs of the place; he keeps a supply of proper bait and fishing tackle for those who are fond of such amusement.

He has already informed the public, that large parties can be accommodated at the Fish-House, by leaving directions at the Black Horse Tavern, head of Market street, and that 3 large boats are always in readiness for passengers. Perhaps it is unnecessary to repeat, that *Fresh Mackarel, Soft Crabs*, and all sorts of fish in their season, will always be found, in the nicest and most delicate state, with all kinds of *relishes*, &c. &c. with breakfasts, dinners, and suppers, for large or small parties, or individuals.

The convenience of such an establishment in a large city like this, can be readily appreciated, from the inconvenience which attends the want of it. Moved by this consideration, the subscriber informs the citizens of Baltimore, that he will immediately open a *general Intelligence Office*, at the corner of the Fish Market and Marsh Market, in the house lately occupied by George W. Moler, where he will provide him or her with means of procuring places for servants, and servants for places; of giving information respecting animals strayed; and of furnishing intelligence relative to rare and unusual articles of merchandize or traffic; together with such other articles of intelligence as interest the farmer coming to market, the citizen resident in town, or the stranger who may come hither by land or water.

ADVERTISEMENT.

The subscriber was invested with the care and tuition of Osborn Sprigg, a youth of about 16 or 17 years of age, 5 feet 10 inches high, very stout of his age and his utterance slow and cautious. He left my school some time in June last and I have strong reasons to believe by the persuasion of one John Kennedy, a native of New London cross roads in the state of Pennsylvania, where perhaps they now are. Kennedy was employed by me a short time as an assistant in the school, and they both left the city on the same day. Any person having knowledge of the place of residence of the said Osborn Sprigg will oblige addressing a line to me making it known, performing an act of the greatest humanity, inasmuch as it will enable his aged and tender parent to arrest him from inevitable destruction.

SAMUEL W. LEE,

Teacher, Green street, Old Town, Balt.

The editor of the Aurora will give the above advertisement eight insertions, and send his bill to this office.

LEE'S

Worm-Destroying Lozenges.

THIS Medicine, which is as innocent and mild as it is certain and efficacious in its operation, cannot injure the youngest infant, should no worms exist in the body; but will without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal diseases.

Among the symptoms attending worms, are disagreeable breath, especially in the morning—bad and corrupted gums—itching at the nose and about the seat—convulsions and epileptic fits, and sometimes privation of speech—starting and grinding of the teeth in sleep—irregular appetite, sometimes loathing food and sometimes voracious—purging, with slimy and fœtid stool—vomiting—large and hard belly—pain and sickness at the stomach—pains in the head and thighs, with lowness of spirits—slow fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Lee's Worm-Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

From the many cases of cure that daily come to our knowledge, we have selected the following:

Messrs. Michael Lee & Co.

Observing that my son, six years of age, was troubled with difficulty in breathing, (something frequently rising in his throat) restlessness at night, loss of flesh, &c. From those symptoms I was confident he had worms, and having procured a box of Lee's Worm-Destroying Lozenges, the first dose expelled twenty-three large worms, which gave him immediate relief—He now enjoys a good state of health, and I believe I can from experience say, that Lee's Lozenges are the most efficacious remedy for worms now in use.

THOMAS PETERS,

of the late firm of Peters & Johnson.

Baltimore, July 1, 1810.

Messrs. Mich. Lee & Co.

A child of Mr. Henry Grimes, near Mr. E. Betts's nail factory, was for upwards of 18 months miserably afflicted with sickness, which appeared to proceed from worms, the symptoms were restlessness at night, debility, pains in the legs, loss of flesh, &c. After having the advice of an eminent physician, and trying a variety of medicines without success, the afflicted parents were advised to try Lee's Worm-Destroying Lozenge, which expelled during the operation of the medicine, a great quantity of large worms, some of which measured 12 inches—the child now enjoys a good state of health.

Baltimore, June 8, 1809.

Messrs. Mich. Lee & Co.

You are at liberty to publish the astonishing cure performed by your Lozenges on my son, ten years old, who was afflicted with fever, pain in his side, and a continual headache, which reduced him so low that he was unable to sit up. One of my neighbors advised me to use your Lozenges which has had the happy effect of restoring him to a better state of health than he has enjoyed for several years, in the short space of 17 days.

JOHN KELLY,

Pitt-street.

Messrs. Mich. Lee & Co.

My son, five years old, has for some time past been very unhealthy, having fever, headache and loss of appetite. Hearing of the many cures performed by your Worm Lozenges, I was induced to give them a trial. The effect was beyond my expectation, as a large quantity of small worms was expelled; hundreds of them were alive for some time after.

JOHN KENNEDY,

Potter-street

Edward Higgins, South-street, Baltimore, administered Lee's Lozenges agreeable to the directions, to his child of 14 months old—the first of which expelled a worm measuring 20 inches long and near half an inch thick, the second dose expelled another 16 inches long and the same thickness, and a quantity of small worms mixed with slime, &c. The child enjoys a good state of health.
