to Mr. Hoover, King said:

"I have sincerely questioned the effectiveness of the FBI in racial incidents, particularly where bombings and brutalities against colored people are at issue.

"But I have never attributed this merely to the presence of Southerners in the FBI. This is part of the broader question of Federal involvement in the protection of colored citizens in the South and the seeming inability to gain convictions in even the most heinous crimes perpetrated against civil rights workers.

"It remains a fact that not a single arrest was made in Albany, Ga. during the many brutalities against the colored people. Neither has a single arrest been made in connection with the tragic murder of four colored children in Birmingham or in the case of the three murdered civil rights workers in Mississippi.

"MOREOVER all FBI agents inevitably work with local law enforcement officers on car thefts, bank robberies and other interstate crimes. It is difficult for them to function effectively in cases where the rights and safety of colored citizens are being violated by these same law enforcement officers.

"I will be happy to discuss the question with you at length in the near future. Although your statement said that you have attempted to meet with me, I have sought in vain for any record of such a request.

"I have always made myself available to all FBI agents of the Atlanta office and encouraged our staff and affiliates to cooperate with them in spite of the fact that many of our people have suspicions and distrust of the FBI as a result of the slow pace of justice in the South."

formerly held Membership in the Ku Klux Klan, and that Dr. Eaton's civil rights activities would prejudice the case in his mind.

In the motion for dismissal by Attorneys John J. Burney Jr. and George Rountree Jr., it was pointed out that the state had based its case entirely on the findings of Dr. Lumb and the opinions of two other pathologists, Dr. Milton Helpern, chief medical examiner of the City of New York and a Dr. Teabeau, associate professor of pathology at the University of Georgia, Augusta. The opinions of these two men were based on the report and findings of Dr. Lumb.

ATTORNEY BURNEY said the defense could prove that the "foreign material" which the state never identified was broken-down red blood cells and that the deceased was suffering from asthma and pneumonia.

After the judge's directed verdict of "not guilty," for lack of sufficient evidence to send the case to a trial jury, Defense Attorney, John J. Burney Jr., asked the Court for permission to make a statement in order to completely vindicate Dr. Eaton.

In his statement, Burney said that the two medical witnesses for the defense were standing by. The first, Dr. Geoffrey Mann, chief medical examiner for the Commonwealth of Virginia, was prepared to testify that the deceased, Miss Alma J. Frederick, died, in his opinion, as a result of a penicillin reaction as was originally certified by Dr. Eaton.

Also, he had discovered that the patient was an asthmatic and that she had an early pneumonia; and that the material which had been described as a "foreign material," even if such material had been injected, there was an insufficient amount present in the lungs to cause death.

THE SECOND witness was Dr. Frank Johnson, chief of the Basic Sciences Division of the U.S. Armed Forces Institute of Pathology in Washington, D.C. Dr. Johnson was prepared to testify that he had positively identified by three methods the "foreign material" cited by Drs. George Lumb, Dr. Milton Helpern and the Dr. Teabeau. Dr. Johnson was prepared to state that this material was broken-down red blood cells and not a "foreign material,' Attorney Burney said.

AT A PRESS conference following the trial, defense attorneys John J. Burney Jr., George Rointree Jr., and Robert R. Bond issued the following statement:

"At the time Dr. Eaton was indicted, we asked his many friends in New Hanover County and the State of North Carolina to withhold their judgment on the serious charges until Dr. Eaton could have his day in Court.

"Dr. Eaton has had his day in Court and has been found not guilty. We feel that we have had a fair and impartial trial and we feel that the facts point unerringly to his innocence."

Rev. Kearse asks Hoover to apologize

(See Page 1 Story)

In a telegram to FBI Director J. Edgar Hoover, the Rev. J. Logan Kearse of Baltimore, pastor of the Cornerstone Baptist Church, has called on Mr. Hoover to apologize for calling the Rev. Dr. Martin Luther King a "notorious liar."

The statement said:

"THE 4700 members of my congregation, and millions of citizens of the United States, deeply resent your characterization of Dr. Martin Luther King as 'a notorious liar.'

"Whether in the Albany, Ga. situation, or in any other, we know him as a man of high honor and of genuine personal integrity.

"Our long respect for you notwithstanding, we neither believe nor do we accept your statement which would establish him as a leader who articulates a position completely at variance with fact.

"You owe him, the nation and the world an apology.

"We hope you are big enough to offer it."

Sleeping motorist robbed, man held

"Well, you see, Your Honor, I'm a truck driver and I can sleep through anything," said Herman R. Dahmer, of Delaware, in Western Municipal Court Tuesday.

Mr. Dahmer was the prime witness in a case before Judge Robert I. H. Hammerman, in which the defendant, Joseph L. Sparrow, 20, 700 block Mt. Holly St., was charged with larceny.

"Sir, are you saying that while this man took these these things from your car you were right there sleeping" inquired the judge.

"Yes, Your Honor," Mr. Dahmer replied.

The complainant stated that when he awakened he found his wallet containing $150 in U.S. Currency missing plus a pair of shoes valued at $6.95; a tool box valued at 300.00 and various clothing valued at $100.

* * *

MR. DAHMER stated that while returning to Delaware he became sleepy and had pulled over to the curb to take a nap when the incident occurred.

The defendant was arrested at the scene by Eastern District Patrolman Anthony Filipiak, who also awakened Mr. Dahmer.

"Well this whole thing sounds a little strange to me but I'll send it to the grand jury," Judge Hammerman declared.

Sparrow was committed in lieu of $1,000.

Shiloh gets third pastor in 62 years

The Rev. Harold A. Carter of Lynchburg, Va. will become the third pastor of Shiloh Baptist Church, Lanvale St. and Fremont Ave., on Sunday, Dec. 20.

The Rev. Mr. Carter succeeds the Rev. J. Timothy Boddie, who died last year after serving as pastor of the church for 21 years.

The new minister is now pastor of the Court Street Baptist Church in Lynchburg.

After graduating from Alabama State College, Montgomery, in 1956, the Rev. Mr. Carter attended Crozer Theological Seminary in Chester Pa., where he earned his divinity degree in 1959.

In the summer of 1963, the 28-year-old clergyman took further graduate studies at the Hebrew University in Jerusalem, Israel.

He is presently an instructor in Old Testament Studies at Irginia Seminary and College in Lynchburg and acts as Sunday School expositor on the local television station.

He and his wife, Weptanomah, are the parents of a daughter and a son, aged two and three. Mrs. Carter is an elementary school teacher.

* * *

THE REV. Mr. Carter accepted the call after being recommended by the board of deacons and approved by the officers and members.

Shiloh was founded on George St. and Perkins Ave. in 1902 by the Rev. Whit W. Allen, who served as its first pastor.

CORE: the cutting edge of the Negro revolt
"From its inception in Chicago in 1942 CORE has adhered to what it calls the principle of 'nonviolent direct action.' Yet CORE pickets have blocked access to banks and public buildings, dumped garbage on public highways and thrown themselves in front of bulldozers.
"We're much more militant than Macolm X," CORE's national director James Farmer says in this week's Saturday Evening Post. "We're activists."
Does CORE's theory of "nonviolent action" really work for the best long-term interests of the Negro or does it do more harm than good?
