Sears, Roebuck planning new Glen Burnie store

Sears, Roebuck and Co. today announced plans to open a third major retail store in the greater Baltimore area in the spring of 1966. It would be the first store opened by Sears in this area in over eight years.

The new full-line department store will be in Glen Burnie, on the western side of Governor Ritchie Highway (Rt. No. 2), approximately a half mile south of the Baltimore Beltway.

The Sears site will also provide access from Burwood Ave. a side road connecting Ritchie Highway.

The announcement came from M. F. Holcomb, general manager of Sears Baltimore area retail stores.

• • •

SEARS HAS leased a 22-acre tract owned by Baltimore attorney Max. R. Israelson. Exclusive leasing agents for the Sears project are Strauss, Greenberg and Co., a Philadelphia based realty firm, and George R. Rucker Co. of Alexandria.

Another 82,000 sq. ft. of stores will be developed on property contiguous with the Sears tract.

Commenting on Sears action Mr. Holcomb said: "Our Company is delighted to announce this important addition to the Baltimore family of Sears stores. During the past several years we have observed enormous growth taking place in the Southern suburbs of Baltimore, particularly Anne Arundel County.

"For some time we have been seeking an ideal location to serve Sears customers living in this broad and expanding area.

"The site we have finally decided upon would seem ideal and it is our intention to offer a store that in terms of overall appearance, merchandise assortment, and interior layout and design, is the equal of any our company has built in the East," he said.

• • •

THE NEW unit will contain nearly 155,000 sq. ft. in a one floor selling area, and will be surrounded by parking area for over 1,500 cars, Holcomb said.

In addition, there will be a separate automotive service center, totally enclosed, capable of servicing 20 cars at one time, Mr. Holcomb said the service center would occupy 30,800 sq. ft.

Site of the planned new store is about one mile south from the present Brooklyn Park Sears store at 5700 Governor Ritchie Highway. That unit, a hard lines, appliance, and auto motive store, was opened in 1955.

Mr. Holcomb said surrounding communities had simply outgrown the old store's capacity to serve the needs of area residents.

When the new Glen Burnie store is completed the present unit will be closed. The new store will be over eight times larger than its predecessor. The store is presently managed by F. E. Fisher.

• • •

THE NEW store would place particular emphasis on wearing apparel and home furnishings merchandise lines, Holcomb said. The Sears executive explained that a "broad and various" selection of these items would be offered in a "dramatic and colorful setting."

"Our new store will make possible many new promotions and opportunities for Sears employes in both our existing Brooklyn Park store and in other retail stores we operate in Baltimore," Mr. Holcomb said.

"Naturally, it will also provide jobs for hundreds of people in the area who will come to work at Sears for the first time."

Other stores in this area under Mr. Holcomb's direction are on North Avenue, and in Mondawmin Mall. In addition, the company operates Catalog Sales Offices at 40 West Shopping Center in Catonsville, Merritt Park Shopping Center in Dundalk, and York Ridge Shopping Center in Lutherville. The Service and Warehousing facilities are located at 1700 W. 41st Street.

The store faces out over Governor Ritchie Highway which can be seen in the lower left-hand corner. The smaller building to the left of the retail store is Sears 20 car Automobile Service Center.

Voting bill now has new draft

By WILLIAM THEIS

WASHINGTON (UPI) —A new draft of President Johnson's proposed Voting Rights Bill which would ease its impact on borderline areas was unveiled for members of the Senate Judiciary Committee Tuesday.

Both House and Senat committees hope to have the bill in shape for floor action by the end of this week. Senate Democratic Leader Mike Mansfield, Mont., said he plans to call it up for debate on Monday.

THE NEW DRAFT contains a section which would ease the bill's impact on areas where there have been "limited" devices used to make voter registration difficult for colored citizens and has been corrected locally.

It also outlawws a "test or device or poll tax" which the court finds has been used to deny or abrdige voting rights because of race or color. The court could not decide how long the test or tax should be suspended.

Another change revises the bill's "trigger" so that it applies to areas where less than 50 per cent voted last November in localities where more than 20 per cent of the persons of voting age are non-white.
