Congressman for fair housing law

By GEORGE W. COLLINS

At a time when many Baltimore City Councilmen are showing signs of withering in the fire of opponents to a fair housing ordinance, a New York U.S. congressman came to town to lodge a vigorous dissent. (Following a noisy public hearing on the Bill Wednesday, some city councilmen are predicting its defeat.)

Congressman James H. Scheuer (D., Bronx), speaking to 300 persons at the annual meeting of Baltimore Neighborhoods, Inc., Thursday night, called for a "bold, daring, and sweeping thrust" to abolish housing discrimination.

Mr. Scheuer, a member of the growing band of "new breed" lawmakers in Washington, declared that housing discrimination stymies the effort of the national administration to eradicate poverty and frustrates all efforts to eliminate segregation in housing, education, and public accommodations.

"Discrimination in housing, if allowed to go unchallenged, will threaten every other government effort to improve the condition of colored citizens," he declared.

"Equal opportunity in education and employment, the eradication of poverty, and other programs, become far harder to achieve against the backdrop of the racial ghetto," Mr. Scheuer told his listeners.

IN HIS PROPOSAL for sweeping action, the congressman called for immediate expansion of the Executive Housing Order issued in 1962 by President John F. Kennedy.

The present order, he pointed out only covers FHA and VA-financed mortgages and as such affects only 15 per cent of the housing market.

When the order is extended to cover conventional financing — and he predicted it will be —85 per cent of the housing supply will be covered, Mr. Scheuer said.

As further steps in abolishing what has been termed the nation's number one social problem, the lawmaker proposed passage of both local and state-wide legislation combined with a stepped-up war on housing bias by citizens groups, such as BNI.

Such organizations, he said, have and are performing an invaluable service in the fight on housing discrimination, but are in dire need of legislative backing in order to solve the problem.

"Voluntary action is preferable," he said, "but legislative decrees are necessary."

• • •

A BUILDER himself and a recognized expert on integrated housing Mr. Scheuer debunked the often repeated claim that housing laws will adversely affect the industry and community.

"Fourteen states and 27 cities have passed fair housing legislation, all of which has a wider range than Federal regulations. In every single case the results have been uniformly good," he declared.

Taking issue with some local councilmen and the Real Estate Board of Greater Baltimore, the congressman said that while a statewide law is preferable, the city should not wait:

"You have got to start somewhere," he said, "and work from there."

Russell T. Baker, president of REBGB, accepted for his organization BNI's first annual award for its role in seeking an extension of the Executive Order and persuading daily newspapers to drop racial designations in real estate advertising.

Vernon Cook not accused

Vernon Cook, 46, of the 1800 block Walbrook Ave., who was grabbed by police following an officer's fatal wounding of a teen-age yoker on Pennsylvania Ave. last Friday night, was trying to help the yoking victim and was detained merely as a witness.

Western District Officer James Lang stated in his report that when he came upon the scene he found two men hunched over the victim. One of the men, he said came at him with a knife and he fired one shot at him.

Lang reported that he "then grabbed the other man, known as Vernon Cook," and had another officer call for a wagon.

Cook, who had gone to the aid of the yoking victim, later gave a witness's statement and was not charged in any way in connection with the crime.

Brooke dampens legislators' zeal

BOSTON (UPI) — Atty. Gen. Edward W. Brooke Wednesday put a damper on plans to force the Massachusetts Crime Commission to identify the 28 state legislators it said shared in $138,000 from the Massachusetts Turnpike Authority.

"It would not be legal; it would not be ethical; it would not be in the best interests of justice," Brooke said.

The Commission, in its comprehensive report Tuesday concerning corruption in the state said 28 lawmakers and other officials shared a total of $468,000 from the Turnpike Authority.

Graduate program approved at MSC

Morgan State College's graduate program was highly commended in the evaluation committee report and completely approved by the Maryland Board of Education at its Wednesday meeting, W. Theodore Boston, assistant superintendent and director of Teacher Certification, announced today.

All present graduate programs will be brought under two degree titles, Master of Science (M.S.) and Master of Arts (M.A.).

Students already committed to the degree title (master of education, master of arts in teaching, master of social science and master of arts) will be allowed to finish under these titles.

Morgan will continue to offer graduate programs in elementary education, English, history and the social sciences.

The only difference is in the title of the degree. Dr. De Costa, dean of the graduate school, said.

He explained that there is a move afoot to decrease the proliferation in the title of degrees.

"This point of view has been discussed by the Morgan Graduate Council, the State Department and the Visiting Committee," he said. "Therefore, precisely, the Maryland Board has approved all of the existing programs, but in the future all the programs will be under the M.A. and M.S. degrees."

• • •

on Morgan State was submitted to the Maryland Board of Education by a three - member committee of faculty members:

Dr. Glenn J. Christensen, vice president, Lehigh University; Dr. Merle W. Tate, professor of education, University of Pennsylvania; and Dr. Putnam F. Jones, dean, graduate faculty, University of Pittsburgh.

This committee was employed by the Maryland State Department of Education to make the evaluation.

Bolivia bombing

LA PAZ, Bolivia, (UPI) — A wave of terrorist bombings swept La Paz. Heavy gunfire broke out in the capital.

First indications were that the cease-fire which ended the near-civil war between the Army and trade unionists had come apart.

Charges of dynamite, the leftist tin miners' favorite weapon, went off in at least four La Paz suburbs.
