COLLECTOR'S NOTICE.

THE subscriber informs the tax payers of Talbot county that he is prepared to receive their State and County Taxes for the year 1856. I hope they will be promptly paid, as I shall aim to close my collections within the time prescribed by law. The commissions paid for collecting the taxes are not sufficient to justify me in riding the county to make repeated calls on delinquents, therefore I shall expect tax payers to call on me at once, and settle their taxes. To enable persons to save the *four per cent* discount on their State tax, which they may do by paying their taxes during this month (September,) I shall be in Easton every Tuesday, at Trappe every other Saturday, beginning with to-day, and at St. Michaels when not on a cruise in other parts of the county. Mr. Charles Robinson, in Easton, will receive and receipt for taxes for me during any day in the week for the Easton, Trappe and Chapel Districts.

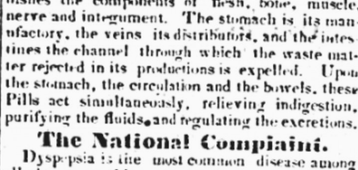
THE MEDICINE OF THE MILLION.
PHILOSOPHY AND FACT.



HOLLOWAY'S PILLS.

THE EXCITING CAUSE OF SICKNESS

The blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

The National Complaint.

Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS.

The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually curing Jaundice, Bilious Remittants, and all the varieties of disease generated by an unnatural condition of the organ.

BOWEL COMPLAINTS.

Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dyspepsia, Diarrhœa, Chronic Constipation, and other diseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

A WORD TO FEMALES.

The local debility and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.

Holloway's Pills are the best remedy, known in the world for the following Diseases:

Asthma	Fever and Ague	Piles	
Bowel Complaints	Female Complaints	Stone & Gravel	
Coughs Colds	Head-aches	Secondary Symptoms	
Chest Diseases	Indigestion		
Costiveness	Influenza	Venereal affections	
Dyspepsia	Inflammation		
Diarrhœa	Inward Weakness	Worms of all kinds	
Dropsy	Liver Complaints		
Debility	Lowness of spirits

INHALATION IN CONSUMPTION,

BRONCHITIS, LARYNGITIS, and other Diseases of the Chest and Throat, successfully treated by the inhalation of Medicated Vapors and Powders, by absorption and constitutional treatment, as practiced at the Stuyvesant Medical Institute, New York City.

The unprecedented success which has attended this method of treating diseases of the Lungs and Throat, has induced us to depart from our usual course, and avail ourselves of the columns of the press, in order to bring it to the knowledge of such as may be laboring under, or predisposed to such affections. The dawn of a brighter day has at length arrived for the Consumptive; the doctrine of the incurability of consumption having at length passed away. We have indubitable proofs in our possession that *Consumption in all its stages can be cured!* in the first, *by transformation of the tubercule into chalky and calcareous concretions;* in the third, *by cicatrices, or scars.* Those wedded to the opinions of the past may assert, that even now, Consumption is incurable; such are behind the age. To all, this great truth must be apparent viz: that the medicines inhaled in the form of Vapor or Powder directly into the Lungs, must be much more effective than that taken into the Stomach, where the disease does not exist. The advantage of Inhalation in Consumption and Throat Diseases is, that medicines in the form of Vapor are applied directly to the Lungs, where the disease exists; the stomach thus left free to aid in restoring health, by administering to it healthy life-giving food. *There is no case so helpless that Inhalation will not reach!* The means, too, are brought within the reach of all, the manner of administering the Vapors being so simple, that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the physician's efforts.

The inhaling method is *soothing, safe and speedy*, and consists in the administration of medicine in such a manner that they are conveyed into the Lungs in the form of vapor, and produce their action at the seat of the disease. Its practical success is destined to revolutionize the opinions of the medical world; and *establish the entire curability of Consumption.*

I earnestly appeal to the common sense of all afflicted with Lung diseases, to embrace at once the advantage of Inhalation, and no longer apply medicine to the unoffending stomach. I claim for Inhalation a place amongst the priceless gifts that nature and art hath given us, that "our day may be long in the land," *and as the only ark of refuge* for the Consumptive; a method not only *rational, but simple and efficacious.*

Such of the profession that have adopted Inhalation have found it *efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases*; in verity, a signal triumph of our ART over this fell destroyer of species.

NOTE.—Physicians wishing to make themselves acquainted with this practice, are informed that, our time being valuable, we can only reply, as to ingredients used, to such letters that contain a fee.

The fee in all cases of Pulmonary Affections will be $5.00, on receipt which the necessary medicines and instruments will be forwarded. The fee in other cases will be from $5 to $10. Applicants will state, age, sex, married or single, how long affected, if any hereditary diseases exists in the family, and symptoms generally. Let the name, town and State be plainly written. Postage for return answers must be enclosed. Letters when registered by the Postmaster, will be at our risk. All letters must be addressed to
