New Discovery Now Makes It Possible to Shrink And Heal Hemorrhoids Without Surgery
Stops Itch—Relieves Pain In Minutes
New York, N. Y. (Special) — A world-famous institute has discovered a new substance which has the astonishing ability to shrink hemorrhoids without surgery. The sufferer first notices almost unbelievable relief (a soothing from itching, burning and pain. Then this substance speeds up healing of the injured tissues till while it quickly reduces painful swelling.
Tests conducted under a doctor's observation showed relief so — even in cases of 10 to 20 years' standing. The secret is the new healing substance (Bio-Dyne®) — now offered in both ointment or suppository form called Preparation H®.
In addition to actually shrinking piles—Preparation H lubricates and makes bowel movements less painful. It helps to prevent infection (a principal cause of hemorrhoids).
Only Preparation H contains this magic new substance which quickly helps heal injured cells back to normal and stimulates regrowth of healthy tissue again. Just ask for Preparation H Ointment or Preparation H Suppositories (easier to use away from home). Available at all drug counters.
