"Skin was drying out...flaking...looked dull and gray. 'Vaseline' Petroleum Jelly helped make it soft and smooth...looked 100% better in a few days."
Mrs. Donald P. Rhyder, New York, N. Y.

Applied as a continuous film to hands, ankles, face, arms—when your skin needs more than cosmetic care—'Vaseline' Petroleum Jelly is the soothing answer. Helps dry, ashy-gray skin regain its normal look and tone. No other softeners, no skin cream, no skin lotion provides better moisture protection. Try it.

WHEN SKIN NEEDS MORE THAN COSMETIC CARE.

Woodford, Harris win 'firsts' in union vote

Arthur Woodford of the 4000 block of Grantley Road has become the first of his color to win election in the 30 - year history of Teamster Local 557 to a three - year term as business representative, the AFRO learned today.

Mr. Woodford is also a member of the United Brotherhood, an organization formed to promote brotherhood among all men which draws members predominately from Local 557.

"It was just like New Year's day for all of us when we heard the results of the elections," Haywood told the AFRO.

Mr. Barnes told of the determination of United Brotherhood members and other local workers in getting the new slate into office in the largest turn - out in Baltimore Local 557 history. More than 2200 votes were cast.

"We were instrumental in getting this new group in," Mr. Barnes said. He added that Mr. Woodford's election was also due to his popularity with many of his white co - workers as well as his being, "a wonderful fellow and devoted father."

• • •

MR. WOODFORD is a graduate of Frederick Douglas H.S. and began work in 1950 with the Mason - Dixon Truck lines and rose to the job of shop steward and checker until his swearing - in as union official at the Dec. 28 ceremony.

Mr. Woodford, his wife, Doretha and their six children are "very happy" with the AFRO.

Nathaniel Harris of Blackstone, Va. and graduate of Carver Vocational High, has been elected trustee of Local 557 in the Dec. 12 elections.

He was a former merchant seaman for 11 years, a teamster member for the past 10 years. Mr. Harris is currently president of the United Brotherhood, Inc. and was sworn into office at Temaster Hall Dec. 28 at 6000 Erdman Ave.

Others on the slate with Mr. Woodford and Mr. Harris for Local 557 include: Joseph Sabula, president; Calvin, Eisenberg, secretary - treasurer; and business agents Russell Southby, Raymond Meyers and Page Sharman.

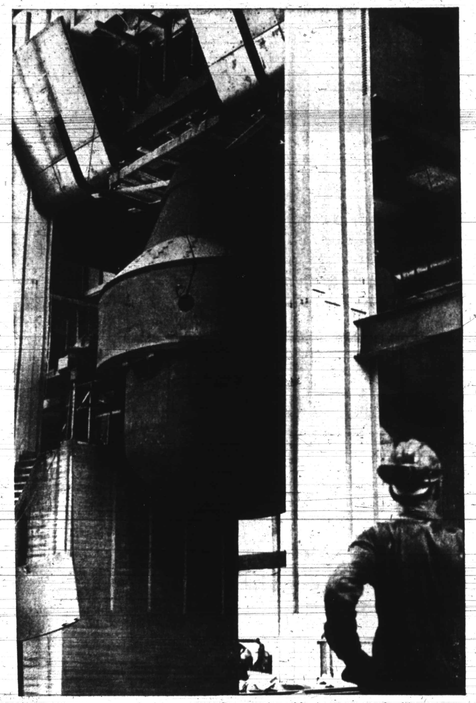
Bethlehem in Baltimore

A Special Report from Maryland's Largest Single Employer



Construction of basic oxygen steelmaking furnaces at the Sparrows Point plant is in the final stage.

FACILITIES: the nation's largest steel plant at Sparrows Point, just 12 miles from Baltimore . . . a major shipbuilding yard at Sparrows Point . . . two ship repair yards in Baltimore harbor.

WORK FORCE: about 34,000 people at peak operations.

PAYROLL: over $240,000,000 annually.

PRODUCTS: steel sheets, tinplate and blackplate, wire and wire products, pipe, plates, flanged and dished heads, reinforcing bars, welded-wire fabric . . . cargo and passenger-cargo ships, tankers, ore carriers, and naval auxiliaries.

THE FUTURE? It's bright! We are going ahead with continued modernization and expansion to attain the highest possible standards of efficiency and quality. To prove our point, we've listed just a few of the more important current plant improvements that will keep Sparrows Point the No. 1 steel plant in the nation.

CURRENT SPARROWS POINT PLANT IMPROVEMENTS

• **A $33 million basic oxygen shop**—Nearing completion are two 200-ton basic oxygen furnaces which can produce more steel than twelve open-hearth furnaces. They cut production time for a "heat" of steel from 8 to 10 hours to about 1 hour.

• **A new $11 million tinning line and new $3 million annealing facilities**—To increase the production of double-reduced or "thin" tinplate, so important for "tin" cans . . . for soft drinks, beer, and foods.

• **A new $34 million high-speed rod mill**—To be housed in a 90 x 700-ft building, this new facility will be able to produce more than 400,000 tons of high-quality steel rods annually.

• **Automatic controls and improvements to a number of rolling mills and other facilities**—To increase efficiency and keep Sparrows Point products competitive with the best in the nation.
