MARYLANDERS, RALLY!
VOLUNTEERS WANTED
FOR THE
1st Eastern Shore Regiment
OF
HOME GUARD.

I HAVE been authorized by the War Department at Washington to have enrolled and mustered into the service of the United States a Regiment of Infantry to act as a
HOME GUARD,
AND TO BE STATIONED ON THE
Eastern Shore of Maryland.

The purpose of the movement is to repel invasion, to preserve the peace and good order in our midst and to protect the rights of all, and aid in the enforcement of the laws.

As it has been asserted, with a view of defeating the movement, that the Administration intend ordering the troops away from home as soon as they are mustered in, I would remark that the Secretary of War expressly pledges that they "shall be stationed on the Eastern Shore of Maryland" and used only for "Home Protection." I state this fact for the benefit of those who are willing to do all they can for their country in its present peril, but whose circumstances are such as prevents their going abroad. The necessity of this movement must be apparent to every candid and considerate mind. We are already threatened by the enemies of the country. At any moment we are liable to have civil war in our midst. In times of Revolution no one can tell into what peril a single day may place us. It behooves us to prepare, and be ready for any emergency, ere it be too late. It is high time that Marylanders were armed and prepared to protect themselves against adventuring Rebels.

The time of Enlistment will be three years, or until the end of the War.

A COMPANY

consists, when full, of one Captain, Two Lieutenants, One First Sergeant, Four Sergeants, Eight Corporals, Two Musicians, One Waggoner, and Eighty-two Privates.

Each Company will select its own officers, subject to the approval of the War Department.

The Company will be mustered into service as soon as it numbers Eighty six men. But must afterwards be raised to One Hundred.

THE PAY

allowed for a Captain is Sixty dollars, four rations (or $30,00) per month and one servant.—Of First Lieutenant is Fifty dollars, four rations, per month and one servant. Of Second Lieutenant is Forty-five dollars, four rations per month, and one servant. Cadet, Twenty-four dollars per month. First Sergeant, Twenty dollars per month. Sergeant, Seventeen dollars per month. Corporal, Fifteen dollars per month.—Those officers who have no rations mentioned above in their pay, are allowed one ration, or nine dollars per month for board, and three dollars per month for clothing. The same allowances are also made to Privates.

Each soldier is entitled to a bounty of One Hundred dollars when discharged from service.

THE DISPOSITION OF THE TROOPS.

As many inquiries have been made concerning the disposition of the companies, I would remark that the Government pays each man for his full time, and assumes that he will give the whole of his time to the service. But it is the evident and written intention of the Government to afford security to the homes of us all. To accomplish this it would appear to be necessary to keep each company stationed in the neighborhood in which it was organized, as much as possible. Each company must be on muster every day. The whole force, it is contemplated, will be brought together at stated periods—say once in a month or oftener, as the exigency of the times and the public service may require. It is designated, I presume to let each company protect its own homes and neighborhood, in the main.

Such is the outline of the plan and its object. It will be modified as events and welfare of our people may demand. The details of the movement will be left to the commanding officer of the forces upon the Shore. For further particulars address, JAMES WALLACE,
Col. 1st Eastern Shore Regiment of Home Guard, Cambridge, Md. [sep 14-tf

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE AND SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarily withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache, arising from disordered stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
