TO THE PUBLIC.

THE subscriber would respectfully inform the public that he continues to keep on hand a supply of material for repairing FIREPLACES, building CHIMNEYS, and BRICKING GRAVES; and that besides attending to jobs of the kinds here mentioned, he will put up Grates, and head and foot Stones. He takes the opportunity of saying that as the merchants have now repudiated the credit system, he will be obliged to do the same; and therefore the Cash will be required as an indispensable condition to his doing any thing at all. He would take in payment for his work such articles as corn, wheat and meat at Baltimore prices. This would enable him to keep soul and body together in the absence of a currency.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."
Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.
One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
AYER'S
Compound Extract of Sarsaparilla,
the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE AND SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OR ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS AND BOILS, TUMORS, TETTER AND SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC AND MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,
are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.
Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache, arising from disordered stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.
So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Premiums and Reductions.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:
1. *The Landon Quarterly* (Conservative.)
2. *The Edinburg Review* (Whig.)
3. *The North British Review* (Free Church.)
4. *The Westminster Review* (Liberal.)
5. *Blackwood's Edinburg Magazine* (Tory.)

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground betwen the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away.—It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.
The receipt of **Advance Sheets** from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

"THAT STANDARD SHEET."

1862.

GREAT NATIONAL BANNER OF INTELLECT,
FOR
American Hearts and Homes!
THE
NEW YORK MERCURY,

A NEW YEAR WITH AN OLD FRIEND.

ON New Year's day of 1862, that world-renowned and unrivaled gem of American journalism, the peerless New York Mercury, entered upon the twenty-fourth year of the most brilliant career ever achieved by a paper. During the past year it has been the teacher, story teller, mentor, and oracle of two hundred thousand American Homes, from ocean to ocean—and from Quebec, in Canada, to Pensacola, on the Gulf of Mexico. Young and old, rich and poor, have reveled in its enchanting stores of wisdom, romance, art, poetry, and genial humor; and its praise is
"Familiar in their mouths as household words."
The noble patriot-soldier in his tent, too, has whiled away the tedium of camp life in the absorbing review of its
FORTY BRILLIANT COLUMNS,
finding in them a fascinating mental discipline known only to those who rally to the *Banner sheet of the Grand Army of American Intellect and Genius!*
In commencing a New Year, the proprietors of the New York Mercury can only say, that it shall be their aim to make their great family journal of American literature, for 1862, more brilliant and enchanting than ever, in its concentration of all the world's grandest and most beautiful specialities in healthful Romance, graceful Poetry, elegant and quaint Gossip, refining Knowledge, sparkling Humor, and entertaining News—until, like love, it
"—— rules the court, the camp, the bower,"
as it already rules the happy domestic fireside.
The editorial tone and National departments of the New York Mercury will continue true to that lofty spirit of patriotism which has made it a necessity of the people since the War began, and kept it in enthusiastic demand when other sheets were dying all around it for want of popular support.
Already the largest Literary Journal in the world, and famous as the focus of a thousand brilliant literary reputations, its programme for 1862 will be magnificent beyond all precedent.—The most celebrated pens of this country and Europe have been secured in its service, *at an outlay equal to the expense of more than one national government in the Old World!* and its novelettes, or continued stories, for 1862, will be the most splendid triumphs of elegant Fiction ever published. To these, too, the magic pencil of the greatest of American artists, Mr. Felix O. C. Darley, will lend the aid of pictorial art.
Our story, initiatory of the New Year, is a splendid national Romance, commencing in the New York Mercury of Saturday, January 4th, 1862, and entitled
The Rattlesnake:
OR,
THE REBEL PRIVATEER.

A TALE OF THE PRESENT TIME.
BY NED BUNTLINE.
It is the greatest Nautical Novelette since the days of Marryatt.

The New York Mercury is sold by all newsmen and periodical dealers in America. To subscribers, it is regularly mailed every Saturday morning, for $2 a year; three copies for $5; six copies for $9; eight copies for $12, with an extra copy, free, to the getter up of the club. Six months' subscriptions received. Always write plainly the name of your Post Office, County, and State. We take the notes of all specie paying banks at par. Payment must invariably be made in advance. ☞ Specimen Copies sent free to all applicants. Address all letters and remittances, post-paid, to
