Weigh your words after an accident

HARTFORD, Conn. (UPI) —There you are Jane Doe, toodling down the highway in the family buggy. There's a left and right away you stop, hop out and view a curled fender.

What should you do to protect your car and yourself?

JEAN KINKEAD, women's consultant to the Travelers Insurance Companies, lists the following simple rules to remember.

They are based on some things people do that they should not and other things they fail to do when an accident occurs.

Memorizing them will benefit you in two ways: you'll be protecting yourself and you'll make it simpler for the insurance firm to which you have been paying premiums to act on your behalf.

GET THE MAKE, model and year of the other car and the name, address and license registration number of the other driver.

Get the name, address and license number of the owner of the other car.

ADMIT NOTHING. If you say it's your fault, that's legally admitting liability. That statement takes it out of the hands of your insurance company.

Even if you declare that your insurance company will take care of it — you're still in trouble. Legally this means that your insurance company is no longer has to take care of it.

IF ANYONE has been injured, get medical help quickly and get the name of the doctor attending and the hospital that the injured are taken to.

Note as fully as possible the damage to your car and to the other car.

• • •

SECURE THE names, addresses and telephone numbers of the witnesses.

Get the name, badge number and precinct location of the police officer when he arrives.

Write down the location of the accident. Write down which side of the street you were driving on, the direction you were driving, whether or not your lights were on and whether you blew your horn.

• • •

WRITE DOWN the time and date on which the accident occurred.

If you are able, it is also wise to make a diagram of the streets, position of the cars involved. Include the weather and the conditions of the street or highway.

REPORT ALL the information you have noted to your insurance company and to the State Motor Vehicle Bureau within 48 hours.

Is all this information really necessary?

Miss Kinkead said the best evidence that it is rests in thousands of cases every year in which automobile insurance benefit are not because these protection points were neglected or forgotten.

SELF-SERVICE, PRE-PACKAGED MEATS CAN BE A PROBLEM!

You can see the top side of the meat but not the bottom.
So you wonder.
The steak looks good, but is the bottom all bone and fat?
It's a problem... a problem we've given a lot of thought.
We think we have the answer.
We have a policy.
We put the best side down.
The side you don't see is guaranteed to be equal to or better than the side you can see.
Simple? as ABC.
Effective? No more gamble.
Fair and square? Sure because "We Care."
Is this a good reason for shopping A&P? It's one of many.

Versatile raisin makes a fine pie

Raisins make a good nibbling food, but they have what it takes for more solid fare, as well.

You name it and this tasty small fruit has it for qualities that rate in salads, stuffings and sauces, puddings and pastries, cakes, cookies, hot-breads, pies, casseroles, compotes and virtually any other dish that needs a sweet, full-bodied fruit flavor to bring out its best qualities.

• • •

WITH RAISINS now a star attraction at many markets, food shoppers will have good reason to put several boxes into the shopping cart.

Prices are now unseasonably low, so by all means head for the raisin shelf the next time you're marketing. The high degree of natural sugar concentration and low moisture content of raisins impart outstanding keeping qualities.

• • •

TRY THIS delicious and attractive looking sour cream and raisin pie for a luncheon dessert or when entertaining:

Use 1 cup sugar, ½ teaspoon cinnamon, ½ teaspoon cloves, 2 eggs, beaten, 1 cup seedless raisins, 1 cup sour cream, salt, 2 tbsps. vinegar and a baked 9-inch pastry shell.

To prepare: Mix all ingredients, stirring until sugar is dissolved. Pour mixture into shell and bake at 350 degrees F. (moderate oven) 25 to 30 minutes.

BAKER PASTRY shells are made with 2¼ cups sifted flour, 1½ teaspoons salt, ⅔ cup shortening, and 4 to 6 tblsps. cold water.

To prepare: Sift flour with salt. Cut in shortening until mixture is granular. Sprinkle water over mixture, blending lightly with fork. Add water sparingly until dough clings together but is not wet. Let stand 5 minutes before rolling. Makes two 9-inch crusts.

Roll pastry thin; place in pie pan or muffin pans. Trim ¼ to ½ inch from edge. Double edge of pastry over and pinch with fingers to make an upright rim. Or shape pastry to outside of pans and trim close.

Prick bottom and sides of pastry well with a fork to keep crust flat. Bake at 425 degrees F. (hot oven) 10 to 12 minutes.
