'It's tough over there,' says Marine of Viet Nam

By MARY RICHARDSON

"It was tough over there.

"My advice to soldiers going to Viet Nam is to get all the jungle warfare training possible; it will save your life."

S/Sgt. Clee Young Jr., an 11 - year Marine Corps veteran and native Baltimorean, made these comments following his year's tour of duty in Viet Nam.

"There wasn't any really good part about being over there," Sgt. Young said.

"You get more money for combat duty, but its nothing in exchange for your life."

* * *

SGT. YOUNG is the son of Mr. and Mrs. Clee Young Sr., 1839 W. Fayette St., and during his combat duty served with the Second 1st Marines, "H" Company.

He has received the National Defense award and the Vietnamese Medal.

A graduate of Douglass High, Sgt. Young feels he will "probably remain" in the service.

He saw plenty of action.

"It seemed we were on every operation, including: Hastings, Oregon, Utah and Harvest Moon missions," he revealed.

* * *

SPEAKING OF the Vietnamese civilians, Sgt. Young said:

"I saw quite a few of them. It seems to me the majority living in the outlying regions don't know what's happening. Most Vietnamese in the cities don't seem to want us there. They're too afraid."

He felt the Vietnamese troops were not "aggressive enough."

"This is their war, but they want us to do all the fighting," he said.

There were many South Vietnamese troops participating in the fighting.

The medical service techniques in the combat zones was considered "outstanding" by the sergeant.

"We have good medical corpsmen. They are aggressive about getting help for men who get hit. Your comrades are pretty good along this line, too," he stated.

* * *

CASUALTIES in the areas under Marine control seemed "light." This was due to frequent transfers within battalions and the men "not keeping any mental count of the wounded."

The sergeant commented, "Morale in Viet Nam is good. Nobody is really happy to go out and fight, but they feel they are getting the job done."

News from the states of draft card burnings and anti - war demonstrations were paid "little attention by the men in combat," according to Sgt. Young.

The reactions of most of the troops to the peace marching was as follows:

"We felt we were servicemen and most of us had no choice about being there. We had an obligation to fulfill and the serviceman just can't figure out the anti-war protestors.

"If a man is going to get hurt in demonstrations here, he might just as well stay in Viet Nam," the sergeant declared.

There is no real night life in Viet Nam. Most troops only fly over or get driven by truck through the cities on their way to combat, as did the men of Sgt. Young's unit.

"I NEVER spent a single day during the entire year in the cities such as Saigon or Da Nang," he said.

Recreation activities for soldiers include: volleyball, pitched horse shoes, boxing and softball. In areas which have been cleared of Viet Cong, night movies are sometimes shown.

The food is considered "okay."

Most meals are of artificial substitutes such as eggs, milk and potatoes.

The weather is very hot and humid. Animals such as elephants, gorillas, bears and poisonous snakes are seen regularly.

Tropical birds are seen rarely.

"Viet Nam is no place to be paying attention to the birds," the sergeant said.

He feels that the jungle warfare training he received on Okinawa "helped me tremendously in Viet Nam."

The 29 - year - old Marine will be on his way to Quantico, Va. to continue his duty tour when his current leave ends in September.

Tormenting Rectal Itch Stopped In Minutes
Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles
New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.
No matter what you've used without results—here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids—without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.
In one hemorrhoid case after another "very striking improvement" was reported and verified by a doctor's observations. This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.
The secret is this new healing substance (Bio-Dyne®) — discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H®. Ask for Preparation H Suppositories (convenient to carry if away from home) or Preparation H Ointment with special applicator. Available at all drug counters.

Dr. Johnson's $22,700 estate willed to wife

The $22,759.40 estate of Dr. Louis A. Johnson has been turned over to his wife, Mrs. Ruth B. Johnson, a final administration account filed in Orphans Court this week shows.

Dr. Johnson lost his life on October 25, 1955, when shot by bandits in front of his office on 22nd St.

HIS ENTIRE estate went to Mrs. Johnson under a will drawn on Feb. 24, 1958.

The administration documents lso show that Dr. and Mrs. Johnson owned real estate and held bank accounts jointly. These of course, were not under administration.
