Retired military pay raise set

WASHINGTON (UPI) The Defense Department announced Tuesday that retired military pay will be increased 3.7 per cent, effective Dec. 1, to match a rise in the cost of living.

About 1.2 million persons are drawing retired military pay. The increase will amount to $64.7 million a year.

A previous increase of 4 per cent was granted in September, 1965, under terms of the law calling for escalation of military pensions when the cost of living rises.

The Department said it has been determined that the cost of living, including all items on a city-average basis, had increased 3.7 per cent since August, 1965.

Predicts future bid for 'all' S.C vote

COLUMBIA, S. C. (UPI)— The President of the South Carolina Voter Education Project estimated this week voters in the state.

Dr. Charles H. Thomas Jr. of Orangeburg called it the single most important factor on the South Carolina political scene.

THOMAS SAID he believed this would be one of the last state - wide elections "in which Republican candidates would disavow the colored vote."

Thomas said he look for the day "when South Carolina would be blessed with a genuine two-party system in which candidates of both parties would appeal to all segments of the electorate regardless of their racial background."

• • •

THOMAS ESTIMATED there were 718,061 whites registered to vote. The education project estimate said 80.2 per cent of the adult whites of South Carolina were registered, compared to 51.4 per cent of colored adults.

Germ find pulls Starlac milk off grocery shelves

(UPI) —One of the nation's leading powdered milk products is being pulled off grocery shelves because of discovery of infectious bacteria in samples of the product, the government announced Wednesday.

The Food and Drug Administration said Borden Foods Co. agreed to recall all packages of Starlac instant non-fat dry milk. The FDA said in analyzing samples of the product, it found salmonella organisms in Starlac.

There are more than 1,200 strains of salmonella, which cause gastrointestinal infections "which can have serious consequences," the FDA notes.

Salmonella is said to be particularly prevalent in artificial products. It forms acid and gas on many carbohydrates.

The FDA said Borden and the agency were "working in full and close cooperation to carry out the recall" of all Starlac stocks. It is a major job because the product, distributed nationally, was said to be on shelves of about 67, retail stores.

Ghana refusal to free Guineans threatens OAU

ACCRA, GHANA (UPI) — Ghana continued to demand pressure from her African neighbors today to free 19 Guinean hostages held since Saturday, despite a strong action would split the scheduled Organization of American Unity (OAU) Summit wide open.

The Summit is scheduled to open Saturday in Addis Ababa, but reports said if the Ghana-Guinea dispute remained then, some African leaders might not attend.

AT LEAST three diplomatic pleas have been made to Ghana's military government to free foreign minister Lansana Beavogui, three other Guinea envoys and 15 students. Ghana has not budged.

Beavogui and the others were taken from a Pan American World Airways plane when it landed in Ghana last Saturday night en route to Addis Ababa for the OAU Conference.

GHANA CLAIMED it took the action to re-inforce demands that President Sekou Toure release about 100 Ghanaians allegedly being held forcibly in Guinea and demand any Ghanaians were being held, and said they wanted to remain, presumably to be with ex-President Kwame Nkrumah.

AT FIRST, Guinea blamed the U. S. Government for the incident, saying U.S. Ambassador Robinson McIlvaine, 53, under house arrest.
