Easton Female Seminary.

Wm. H. D. Harper—*Principal.*

TO meet an urgent necessity in this community I propose to open in Easton, a first-class Seminary for Young Ladies and Misses, assisted by accomplished instructors.

There will be two departments, the Primary and Senior; embracing a thorough and practical course of instruction, from the simplest rudiments of an English to the most finished studies of a Classical education, together with French, German and Music—vocal and instrumental.

The Scholastic year will be divided into two terms of five months each, commencing on the first Monday in September, and ending on the last Friday in June.

I will take pleasure in obtaining pleasant accommodations for those living remote, desiring board.

All who wish to avail themselves of this opportunity will address me at Easton, on or before the 15th of August, and I will send them a Circular containing full information.

Aye's Cherry Pectoral

IS a soothing expectorant, prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. A trial of many years has established the fact, that it is more efficacious in pulmonary affections, than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain, France and Germany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies, in hospitals and other public institutions, where it is regarded by the attending physicians as the most speedy and effectual remedy that can be employed. Scarcely any neighborhood can be found where well known cases of diseased lungs which had baffled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing proofs of the superior curative properties of this preparation; and to them the authors point with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administed judiciously.

This health-restorer accomplishes even more by prevention than cure. If taken in season, it heals all irritations of the throat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from the neglect of them. Hence no family should be without it. Influenza, Croup, Hoarseness, Whooping Cough, Pleurisy, Incipient Consumption, and other affections of the breathing organs, give way before this preeminent combination of medical virtues.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine every where. [jan 5-2m
